MUFG WAY

THE MUFG WAY

At MUFG, our commitment to our clients, our communities, and society goes further than our vision to be the world’s most trusted financial group. We are committed to empowering a brighter future, and this purpose underpins our aspiration to provide the highest quality services for clients while also building sustainable trust within the communities in which we operate and enabling progress in society more broadly.

The MUFG Way serves as the underlying policy in our day to day business, and works in tandem with our values to ensure we can

protect the interests of our clients while maintaining a robust organisation that is effective, professional, and responsive to the world around us. Our employees are committed to acting with integrity and professionalism, and are focused on using their expertise to create value to share. This is supported by our financial strength and extensive global network, and helps us to adapt rapidly to changes in the global economy and environment and assess the impact that will have on the needs of our clients.

MUFG WAY

MUFG Bank (Malaysia) Berhad, celebrated its 60th Anniversary in Malaysia in 2017. The journey of the Bank in Malaysia has been long and continuously successful. The Bank of Tokyo, Ltd. set up its first representative office in the then Malaya in October 1957 and subsequently obtained its banking license in June 1959, making it the first Japanese bank to provide a full range of banking services.

The Bank of Tokyo, Ltd. (Kuala Lumpur Branch) successfully managed to strengthen economic ties between Malaya and Japan and played a crucial role in the economic development of Malaysia by encouraging large number of Japanese foreign direct investment into this new emerging economy. Further to Malaysian Government's "Look East Policy" in the 80's to attract Japanese investments, the Bank's International Trade and Investment Bureau which was set up in 1979, played a bigger role in disseminating vital information to attract more Japanese investors into Malaysia.

On June 1, 1994, Bank of Tokyo (Malaysia) Berhad was locally incorporated, pursuant to the provision of the Banking and Financial Institutions Acts, 1989 (BAFIA 1989). The locally incorporated entity took over the banking operations from The Bank of Tokyo, Ltd. on July 1, 1994 and became a fully owned subsidiary of its Parent Bank in Tokyo.

The Bank of Tokyo, Ltd. (Kuala Lumpur Branch) successfully managed to strengthen economic ties between Malaya and Japan and played a crucial role in the economic development of Malaysia by encouraging large number of Japanese foreign direct investment into this new emerging economy.

On April 1, 1996, The Bank of Tokyo, Ltd. and The Mitsubishi Bank, Limited merged in Japan on an equal-term basis to form The Bank of Tokyo-Mitsubishi, Ltd. To reflect the merger, the Bank's name was changed then to Bank of Tokyo-Mitsubishi (Malaysia) Berhad. To further strengthen its presence globally, in October of 2005, the Mitsubishi UFJ Financial Group ("MUFG") was formed through the integration of Mitsubishi Tokyo Financial Group (MTFG) and the UFJ Group, uniting The Bank of Tokyo-Mitsubishi, Ltd, Mitsubishi UFJ Trust & Banking Corporation and Mitsubishi UFJ Securities under a single financial holding company.

Consequently, The Bank of Tokyo-Mitsubishi UFJ, Ltd was established on 1st January 2006 from the merger of Bank of Tokyo-Mitsubishi Ltd and UFJ Bank, marking the birth of the largest bank in the world in terms of total assets. On the same day, Bank of Tokyo-Mitsubishi (Malaysia) Berhad was renamed to Bank of Tokyo-Mitsubishi UFJ (Malaysia) Berhad ("BTMU(M)").

The global network since then has grown tremendously and is paving a way for new opportunities for growth. In line with the group's overall strategy to utilise the globally recognised group brand and to provide clear defining roles and functions of each of the subsidiaries under the Mitsubishi UFJ Financial Group ("MUFG"), effectively on 2 April 2018, the Bank is now known as MUFG Bank (Malaysia) Berhad.

The positive synergies and economies of scale have continuously kept the Bank on the leading edge of new products development and service capabilities for the benefits of its clients worldwide. MUFG Bank (Malaysia) Berhad has further strengthen its presence in Malaysia with the increased number of customers and its long-term relationship with the existing large number of Japanese investors especially in the manufacturing, construction and services sectors. From 2006 onwards, a strategic alliance with a leading regional financial institution has further strengthened our presence in Malaysia and as a leading banking institution in the region.

MUFG Bank (Malaysia) Berhad opened its first branch in Penang in July 2012. The Penang branch caters for the fast growing economy in the northern region of Peninsula Malaysia and continues to extend better quality service to the new and existing customers.

MUFG Bank (Malaysia) Berhad also continuously enjoys strong support and backing of its Parent Bank and its Group with 125 years tradition of pioneership in international and domestic banking. The worldwide network of the Group with specialized knowledge and skills especially in treasury products and international trade enable the Group to serve customers well.

We sincerely believe in building good long term relationships with our valued customers. Our customers can be assured of access to the international network and services of MUFG's over 2,000 offices across more than 50 countries.

CHAIRMAN’S STATEMENT

Dear Valued Stakeholders,

I am pleased to be part of the continuous journey with MUFG Bank (Malaysia) Berhad (“MUFG”) as we strive to strengthen our position as a global bank to provide the best solutions for all our customers and stakeholders.

Dato’ Mohd Sallehuddin bin Othman
Chairman

Global economic prospects have improved markedly in recent months, helped by the gradual deployment of effective vaccines, announcements of additional fiscal support in some countries and signs that economies are coping better with measures introduced to suppress the virus coupled with higher vaccine inoculation in some countries. Global Gross Domestic Product ("GDP") growth is projected to be 5.6% in 2021 and 4.0% in 2022 with global output rebounding but remains below the pre-pandemic projections. Despite the improved global outlook, output and incomes in many countries will remain below the level at the end of 2022 as the emergence of new Covid-19 variant (e.g. Delta) has started to challenge the recovery of many countries.

Moving forward, Malaysia's economic environment will continue to be a challenge following the announcement of the three economic stimulus packages including loan moratoriums aimed to provide relief to the rakyat, especially the B40 and M40 groups impacted by the pandemic.

The government has expected the fiscal deficit to rise to 6 percent of GDP in 2021, higher than 5.4 percent expected earlier. As for Malaysia's GDP forecast for 2021, the government has indicated they may revise downwards the earlier projection of 6.0 percent - 7.5 percent in mid-August taking into consideration of the cost impact of the current Movement Control Order ("MCO") under Phases 1, 2, 3 and 4 of the National Recovery Plan.

Despite all these various internal and external factors affecting the country's business environment, the Bank has managed to achieve satisfactory results in FY2020/2021 due to its prudent and conservative approach. The Bank has taken a pragmatic yet strategic approach to remain cautious in order to navigate the challenges posed by pandemic and remain sustainable under this challenging environment. I am happy to share that we will continue to provide our best support to our customers and stakeholders, helping them to emerge stronger as they transition into the new normal amid trying times.

The Bank will continue to grow its customer base, fee-based income through diversification and continued growth in areas of transaction banking supporting customer's supply chain financing. We shall also continue to seek growth in our balance sheet through prudent growth in loans financing and continue seeking new deposit base to keep sustaining healthy balance sheet management.

The Bank will continue to spur growth in an important element of our coming Medium-Term Business Plan (FY2022-2024) to meet the Sustainable Development Goals ("SDGs") and Environmental, Social, and Corporate Governance ("ESG") standards that are prominent in the global conversation of business community's responsibility to society and the planet. We continue to take pride that MUFG Bank globally has long been a pioneer and champion in SDGs and ESG. We adopted the Equator Principles ahead of our peers and expanded renewable-energy financing at the dawn of the market both locally and globally. With our strong expertise, we occupy the top

global position in this field introduction of ESG elements products for sustainable corporate growth of the bank.

As a responsible bank, the Bank is fully aware of both opportunities and risks arising from ESG issues and our responsibility of good corporate citizen. We are fully committed and strive to play a part to resolve environmental and social issues through its business activities and fully supportive of Bank Negara Malaysia ("BNM")'s initiative to Climate Change and Principle-based Taxonomy Guidance issued recently. The Bank will continue to incorporate more ESG activities into our Bank's business strategies in future and remain committed to give back to the community.

The Covid-19 pandemic has undoubtedly had an unprecedented influence on our ways of working, bringing a new urgency to drive digitalization and forcing many to transform and respond swiftly to the new norm. The Bank has invested in new infrastructure (e.g. laptops, upgrade of systems) to cater for hybrid working model and continue to provide conducive and engaging work-from-home environment for the workforce coupled with streamlining of processes and procedures to meet customer satisfaction and needs during the lockdown.

Thanks to all the efforts, the Bank was swift in mobilising decision to direct changes to keep our people, operations and performance at their highest level without compromising customer experience to our valued customers and maintain stable operation while observing strict Standard Operating Procedure ("SOP") since the implementation of MCO. This underscores the Bank's professionalism, strong ethics to our valued partners and that we are able to provide essential services to customers during the most difficult period in the safest manner possible ensuring staffs and customers health are protected at all times.

Finally, on behalf of the Board of Directors, I present to you the financial results of MUFG Bank (Malaysia) Berhad for the year ended 31 March 2021.

Despite the many challenges and uncertainties posed by external factors, for the financial year ended 31 March 2021, the Bank managed to register an operating revenue of RM515.2 million. The pre-tax profit was RM370.5 million while the net profit after tax was RM306.3 million. The operating income was attained with the continuous effort to increase business volume transactions, market share and financing activities with large corporate deals.

ACKNOWLEDGEMENT

On behalf of the Board, I would like to take this opportunity to thank everyone involved with the Bank, especially the CEO and his management team and all staff of the Bank, my colleagues on the Board, the Shariah Committee and our valued customers. Our progress over the years would not have been possible without the trust, commitment, dedication and integrity of our people. They have certainly contributed much to the positive results that I have just had the pleasure of highlighting to our shareholder and other stakeholders. Last but not least, my sincere thanks and appreciation to Bank Negara Malaysia, PIDM and all other relevant authorities for their support and guidance.

Last but not least, my sincere gratitude and appreciation to the frontliners in public service, who, despite the vulnerable environment / risks, continue to fulfil their responsibilities to keep the country safe and healthy.

Dato' Mohd Sallehuddin bin Othman
Chairman

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

Dear Valued Stakeholders,

Business Performance

The ongoing global pandemic in past year 2020 has been the most challenging time

in recent memory for our business, employees and in the communities which we serve and continue to lead to decline in business activities to early 2021 as the COVID-19 pandemic's impact has accelerated through the first half of 2020 culminating significant number of temporary business closures across many of our markets worldwide including Malaysia.

Fumio Takamatsu

Chief Executive Officer / Country Head of Malaysia and Executive Director

Our strategic business continuity plans coupled with swift changes on operational readiness including work-from-home arrangement has enabled us to limit the effects of the pandemic and continue to meet the critical and essential needs of our customers.

While addressing the severe challenges of the pandemic, we were able to continue to plan and executed our medium-term strategy under new ways of working focusing on safety and health on our people, customers, stakeholders and more importantly, the Bank's financial health as well as its safety and soundness.

Although the pandemic is running its course on the 3rd & 4th wave, we are cautiously optimistic that the business environment in the country will continue to improve and has the ability to bounce back to normalcy with rapid acceleration of the national vaccination rollout as low infection rate will regain consumers' confidence and trust again.

MUFG Bank Malaysia Berhad ("The Bank") continues to recognise challenges and issues faced by many industries /companies where they continue to suffer a dip in earnings or disrupted operations due to lockdowns. The Bank will continue to play

a pivotal role as a responsible corporate citizen where we are committed to this cause and be a prudent financier by offering moratorium and repayment assistance to borrowers/customers whose financial condition has been impacted by the lingering effects in line with Bank Negara Malaysia ("BNM")'s aspiration.

Our Japanese Corporate business team continues to make headways in enhancing the key relationships with Japanese clients through superior trade and working capital product solution and also enhanced cash management services to provide continued financial support to these clients at this time of need. Global Corporate business team has been playing instrumental role in providing business and financial support to key Government-Linked corporates as well as cultivating expansion to the Global Subsidiary Business ("GSB") in global multinationals operating in Malaysia linking them to our MUFG global network.

Through the Islamic Banking business, the Bank is proud to have been voted "Best Japanese Bank Offering Islamic Financial Services" in the Islamic Finance News Best Banks Poll 2020 which recognises the best providers of Islamic financial services across a series of markets and sectors. Being the winner for the 8th consecutive year since 2013, this honour has further underscoring our continuous efforts at providing a comprehensive suite of innovative and Shariah-compliant solutions in support of our customers' business and investment needs.

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

In addition, the Bank has also pioneered in providing Sustainability-Linked Islamic Financing facility which is in line with the Bank's Sustainability-Linked Loan Principles to both our Japanese and Global Corporates to support our customers' long term sustainable business development efforts.

The Bank will continue to support BNM's initiative to play an instrumental role to cushion the economic impact on businesses, households and provide support to economic activity on top of the Malaysian government's economic packages to support the economy through this difficult times. It is during these unprecedented times, we see that our stakeholders and customers are working and emerged stronger together to stay resilient and remain afloat amid the pandemic era.

We shall continue to find ways to remain connected and strengthen our key relationship with customers to understand their financial situation and continuously look at how we can improve to ensure we continue meeting their current and future growth opportunities.

On operations, the Bank continues to put the health and well-being of our customers and staffs as our top priority in the pandemic environment. On top of our previously introduced flexible work-from-home ("WFH") arrangements and split operations, we have accelerated digital adoption and digitisation (paperless environment) to further simplify processes and approvals for a sustainable delivery of our essential services to customers during lockdown period. The Bank continues to invest in system infrastructure, networks as well as gadgets to ensure this initiative can be achieved in shortest period of time.

The Bank under its Human Resource arm are committed in ensuring the safety, emotional and mental well-being of our employees during this crisis. Other than employees assistance programme on mental health talk, we are also constantly looking for opportunities in building new employee experiences under new norm environment by ensuring the staff remained motivated, engaged and well-informed of the Bank's direction and strategy.

We will also continuously invest in human capital as we recognise our staffs as important assets to ensure talented staff are properly trained, guided and provided with continuously learning and trainings opportunities to ensure our Bank's sustainability.

Despite the Bank operating in an unfavourable economic environment, the Bank's business strategy going forward is to improve the overall financial efficiency of the Bank to achieve sustainable growth through reformation and transform into a customer driven by developing a solutions-oriented business. The current pandemic is indeed a clarion call for us to re-imagine our business and explore new possibilities, with the group's expansive global network and diversified business capabilities, we are confident the Bank has the potential to provide an overall solutions to meet our customers expansion needs.

Same time, the Bank are cognisant on emergence on new risks under current situation that is posed to the business for example cyber-risk. The Bank will continue to strengthen, invest and embed strong risk and compliance culture by promoting First-Line of Defence ownership to protect our customers and the Bank's interests. This is done by providing regular trainings and

promoting adherence to internal policies and procedures to prevent and combat the rise in cybercrime. We will continue to invest both in systems and manpower for this purpose.

Overall, the Bank shall also continue to strengthen and enhance our Governance framework by promoting greater Board and management oversight, creating effective policies and procedures to maintain comprehensive controls over risk-compliance matters and also create effective compliance monitoring and reporting framework. All of these will ensure safety and soundness of the Bank will continue to remain intact and sustainable.

Aspiration Moving Forward

Environment, Social, and Governance ("ESG") standards are so prominent in the global conversation about the business community's responsibility to society. The Bank is always committed to create an organization where employees feel valued for their work while providing an efficient workplace where they can be productive and contribute meaningfully to achieve their career objective. We have introduced paperless platforms, encouraging constant telecommuting, digitalizing our processes where possible to minimize wastage.

We remain highly-committed to this cause and has created our ESG Committee to accelerate sustainable business practices, promoting climate change initiatives, creating ESG roadmap, launching ESG-related products solutions, enhancing Corporate Responsibility and Sustainability ("CSR") as a shared mind-set across the Bank.

We are also completely aligned with our MUFG Group's Environmental and Social Policy Framework which is committed to tackle climate change and actively working with our customers to provide solutions to achieve a sustainable environment and society.

It is our fervent hope that the sustainable practices can integrate further into our operating business model which aligns our global ESG and CSR aspiration and approach in MUFG culture and values, as well as with its global sustainability agendas including the UN Global Sustainable Development Goals. Other than these, we are also committed to the cause of promoting gender equality, fairness and transparency within the Bank.

We shall continue to strive to meet the expectations of all our stakeholders by structuring our business model to suit the changes in our business environment and achieve the next stage, towards a sustainable growth organisation under our Medium Term Business Plan 2021-2023.

To continue to expand our business further, the Bank will continuously tap into its own global network and the extensive network provided by MUFG strategic alliance partners such as Morgan Stanley group and hybrid partnership banks in Asean such as Krungsri, Danamon, Vietin Bank and Security Bank via their wide array of innovative financial products, solutions and other delivery channels such as internet banking and regional business development offices to widen our outreach to support our customers.

Additionally in line with the digital transformation, we shall continue to seek collaboration opportunities with FinTech platform providers to seek new digital solutions to enhance our customer services and outreach.

Going forward, the Bank believes that it is positioned well to adapt to the global recovery, sudden changes or disruptions and continuously attain customer acceptance and confidence in our services and products. Further, by leveraging on MUFG's strengths and potentials, namely its extensive global network, strong financial standing, sound risk management practices, and dedicated and productive workforce.

For the financial year ended 31 March 2021, the Bank registered a pre-tax profit of RM370.5 million. Net profit after taxation was RM 306.3 million. Return on equity remained satisfactory at 8.5%. The Bank remains strongly capitalised with the total capital ratio of 29.70%, well above the industry average. While, shareholders' funds increase to RM 3.6 billion, total loans and advances maintained at RM 8.2 billion.

We express our sincere thanks, gratitude and appreciation to all our valued customers for their continuous support and deeply appreciate all staff efforts to strictly adhere to the SOP and continue to operate under this challenging environment. We also extend our heartfelt thanks and appreciation to BNM, PIDM and other authorities and stakeholders for their kind assistance and continued guidance.

CORPORATE SOCIAL RESPONSIBILITY ACTIVITIES 2021

Our response to Covid-19

As part of MUFG Bank (Malaysia) Berhad's CSR initiative in 2021, the Bank pledges to give back to the community through sponsorship of a week of meals and beverages in collaboration with International SOS to the committed front-liners undertaking the National Covid-19 Immunisation Programme (PICK) in KLCC, the largest vaccination centre known in Malaysia since 26th July 2021.

As the country presses on its fight against the Covid-19, the Bank fully supports and believe in doing our part as a responsible citizen and be part of our Environment, Social and Governance ("ESG") aspiration to expand our social responsibilities. This gesture of support demonstrates MUFG's continuous commitment to the communities that is affected during this difficult time of need.

In addition to the above initiative, MUFG continues to provide support to the Bank's adopted school programme with an aim to rebuild infrastructure and working conditions for one of the oldest schools in Kuala Lumpur for enhancement of safety and convenience to the school children. The Bank believes its Corporate Social Responsibility is an integral part to achieve sustainable growth and strongly believes it is incredibly important to equip the next generation of young people with a safe environment to gain knowledge and skills for their better future.

DIRECTORS' REPORT

FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

The Directors have pleasure in submitting their report and the audited financial statements of the Bank for the financial year ended 31 March 2021.

PRINCIPAL ACTIVITIES

The principal activities of the Bank during the year are banking and related financial services, including Islamic Banking business. There has been no significant change in the nature of the principal activities during the financial year.

HOLDING COMPANIES

The Bank is a subsidiary of MUFG Bank, Ltd. and Mitsubishi UFJ Financial Group, Inc. ("MUFG"), which are incorporated in Japan, and regarded by the Directors as the Bank's immediate holding and ultimate holding company, during the financial year and until the date of this report.

RESULTS

	31.03.2021 RM'000
Profit after tax for the year	306,313

In the opinion of the Directors, the results of the operations of the Bank for the financial year ended 31 March 2021 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

RESERVES AND PROVISIONS

There were no other material transfers to or from reserves and provisions during the financial year under review.

DIVIDENDS

No dividend was paid during the financial year and the Directors do not recommend any dividend to be paid for the financial year ended 31 March 2021.

ISSUE OF SHARES AND DEBENTURES

There were no changes in the issued and paid up share capital of the Bank during the financial year.

There were no issues of debentures during the financial year.

DIRECTORS OF THE BANK

Directors who served during the financial year until the date of this report are:

Y.Bhg. Dato' Mohd Sallehuddin bin Othman (Chairman)
En. Ismail bin Mahbob
Y. Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani
Mr. Fumio Takamatsu (Appointed on 14 November 2020)
Mr. Takuma Matsuyama (Resigned on 13 November 2020)

DIRECTORS' REPORT

DIRECTORS' BENEFITS

Since the end of the previous financial year, no Director of the Bank has received nor become entitled to receive any benefit (other than a benefit included in the aggregate amount of remuneration received or due and receivable by the Directors as shown in Note 34 to the financial statements or the fixed salary of a full-time employee of the Bank or of related corporations) by reason of a contract made by the Bank or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

There were no arrangements during and at the end of the financial year which had the object of enabling Directors of the Bank to acquire benefits by means of the acquisition of shares in or debentures of the Bank or any other body corporate.

DIRECTORS' INTERESTS IN SHARES

The interests and deemed interests in the shares of the Bank and of its related corporations of those who were Directors at financial year end as recorded in the Register of Directors' Shareholdings are as follows:

	Number of Ordinary Shares			
	At 14 November 2020#	Bought	Sold	At 31 March 2021
Interest in the Ultimate Holding Company Mitsubishi UFJ Financial Group, Inc. Mr. Fumio Takamatsu	5,460	189	-	5,649

Date of appointment

None of the other Directors holding office at 31 March 2021 had any interest in the shares of the Bank and of its related corporations during the financial year.

OPTIONS GRANTED OVER UNISSUED SHARES

No options were granted to any person to take up unissued shares of the Bank during the financial year.

BUSINESS STRATEGY AND OUTLOOK

OVERVIEW OF THE ECONOMY AND PROSPECTS FOR 2021

GLOBAL ECONOMY

The global economy experienced a deep recession in 2020 as real Gross Domestic Product ("GDP") contracted by 3.5% (2019: 2.8%), with uneven and gradual recovery paths in an environment of elevated uncertainty. The developments surrounding the COVID-19 pandemic and the unprecedented policy responses to cushion the resulting economic shocks had shaped the global growth trajectory.

At the beginning of the year, expectations were for global growth and trade to expand moderately amid the easing of US-PR China trade relations. However, this was quickly derailed by the unexpected outbreak of COVID-19. The disease was first identified in December 2019 and later declared a pandemic on 11 March 2020 by the World Health Organisation as cases spread globally. The subsequent economic disruptions due to the introduction of containment measures in response to the pandemic, and heightened risk aversion among economic agents culminated in a sharp decline in economic growth.

The downturn in 2020 was the most severe since the Great Depression in the 1930s. At the start of the pandemic, many economies adopted stringent containment measures to break the COVID-19 transmission in the quickest possible way. The measures, such as full or partial lockdowns, physical distancing rules, bans on public gatherings and border closures, led to a sudden stop in the mobility of individuals and non-essential business operations. These manifested in severe production disruptions and a collapse in demand, particularly in the consumer and tourism-related industries. As a result, firms' profitability declined sharply. Labour markets weakened in tandem as unemployment rates surged and income conditions worsened. Confluence of these factors essentially have resulted in a severe negative impact on the domestic demand, particularly in the second quarter of 2020.

DIRECTORS' REPORT

BUSINESS STRATEGY AND OUTLOOK (CONTD)

OVERVIEW OF THE ECONOMY AND PROSPECTS FOR 2021 (CONTD)

GLOBAL ECONOMY (CONTD)

The economic impact of containment measures was more pronounced in countries with more stringent lockdowns, which occurred mainly in the second quarter, thus contributing to relatively slower annual growth in these economies. Meanwhile, growth in countries that successfully managed the pandemic with less extreme containment measures, particularly the Advanced Asian economies, outperformed other major and regional economies, except for PR China.

Beyond the slowdown in domestic demand, trade or commodity-reliant economies also experienced a sharp decline in external demand. Following the slowdown in global demand, global crude oil prices dropped to an average of USD43.2 per barrel in 2020 (2019: USD64.2 per barrel). While this kept inflation low, it resulted in lower export revenues for commodity exporters. Furthermore, the imposition of international border restrictions compounded the impact on trade in goods and services as global supply chain operations and cross-border tourism activities were disrupted.

The adverse economic shocks arising from the pandemic triggered global economic policy responses of unprecedented scale, which were crucial in averting a deeper downturn in global economic activity. These responses focused on relief measures to support household incomes, sustain firms' cash flows, minimise firm closures and bankruptcies, safeguard jobs, and reduce risks of economic scarring. Common measures across major and regional economies included direct cash transfers, grants, wage subsidies, expanded unemployment benefits, tax reliefs, and credit guarantees to facilitate lending from financial institutions.

Central banks in advanced and emerging economies also took swift and aggressive actions with large policy rate cuts. Supervisory authorities also allowed the drawdown of capital and liquidity buffers by banks to support the economy. Quantitative easing ("QE") measures, such as large scale asset purchase programmes and lending facilities, were implemented in major economies where policy rates are near zero or negative, including by the Bank of Japan and the US Federal Reserve.

As the global economy progressed through the second half of 2020, global growth showed signs of recovery, albeit uneven and gradual. With containment measures gradually lifted, supply side constraints eased and supported the gradual improvement in labour market conditions globally. Economies with more flexible labour markets experienced a faster recovery in both unemployment and labour force participation rates. The improvement in cross-border trade and investment largely favoured economies with deeper linkages in the manufacturing global value chain, augmented by the surge in digitalisation due to growing preference for low-touch services, higher demand for medical-related products, and strong growth recovery in PR China.

Nonetheless, in late 2020, the resurgence of cases and the emergence of new virus variants in Europe and South Africa warranted the re-imposition of containment measures in some countries. As the degree of containment measures remained a primary factor affecting the strength of economic activity, economies that continued to employ lockdowns to contain resurgences, such as the euro area, experienced brief growth moderations in the fourth quarter of 2020. By contrast, economies that relied on less stringent non-pharmaceutical interventions ("NPIs"), such as physical distancing rules with enhanced standard operating procedures ("SOPs") and MRR (mass rapid, random) testing, primarily the advanced Asian economies and the US, broadly experienced stronger-than-expected and sustained recoveries.

The pace of global economic recovery had also been gradual due to heightened risk aversion amid elevated uncertainty and continued financial market volatility. Key sources of uncertainty emanated from the variability in COVID-19 developments and other country-specific factors.

Given the dynamic evolution of the pandemic, the risk of resurgence and renewed containment measures continued to affect trade and investment activities. While there was news of successful vaccine trials towards the end of 2020, vaccine rollout remained limited to selected countries that expedited approvals for emergency use, such as in the US and UK. Apart from this, the build-up of debt and external sector imbalances resulted in more pronounced risks of unwinding in vulnerable emerging market economies ("EMEs"). These manifested in volatile financial markets and tighter domestic financial conditions. Meanwhile, episodes of domestic political unrest in some major economies led to increased business uncertainties, affecting economic activities. Finally, while aggressive policy responses supported global growth during the year, the continuity of policy support itself was a source of uncertainty, such as in the US. These weighed down mainly on business sentiments, as firms feared the possibility of premature withdrawals of fiscal stimulus.

DIRECTORS' REPORT

BUSINESS STRATEGY AND OUTLOOK (CONTD)

OVERVIEW OF THE ECONOMY AND PROSPECTS FOR 2021 (CONTD)

MALAYSIAN ECONOMY (CONTD)

As with most countries globally, the unprecedented economic shocks emanating from the pandemic resulted in a sharp decline in Malaysia's 2020 GDP growth, the lowest since 1998. Following a moderate start to the year, the escalating pandemic by mid-March 2020 dampened domestic economic growth. Sharp slowdown in the global economic activities and the introduction of stringent local containment measures to curb the rise in COVID-19 cases contributed to broad-based weaknesses in exports, production, and domestic demand. The largest impact was felt in the second quarter of 2020, with GDP contracting by 17.1%.

Growth improved gradually thereafter from its trough towards the second half of the year as the economy was gradually re-opened, and economic and social activities partially resumed. In response, policymakers implemented sizeable and timely stimulus measures to mitigate the adverse economic impact at the onset of the crisis and support the growth recovery.

The global pandemic had resulted in weaker global growth, trade, and commodity prices, which weighed on Malaysia's gross exports (2020: -1.4%, 2019: -0.8%). Subdued economic conditions in advanced and regional economies resulted in lower demand from key trade partners.

The disruptions to the global manufacturing supply chains further affected export activity in the second quarter of 2020. Given the nature of the crisis, only selected export products, such as electrical and electronics ("E&E") and rubber products, were more resilient during the year. These reflected the higher demand for work from home equipment and medical-related products.

Meanwhile, export of services contracted significantly by 46.0% due mainly to the sharp fall in tourist arrivals (2020: 4.3 million persons, 2019: 26.1 million persons) as international borders were closed since March 2020.

The domestic economy was further impacted by the introduction of strict local containment measures. While these measures were key in successfully curbing the initial rise in domestic COVID-19 cases, they also led to concurrent supply and demand shocks to the Malaysian economy.

During the Movement Control Order ("MCO") period, production came to a halt, particularly when non-essential industries were not allowed to operate. While essential activities, such as the production of food and beverages, transport, and financial services continued, sizeable labour capacity and operating hour restrictions alongside tight SOPs due to physical distancing rules contributed to domestic supply constraints. Other sector-specific factors, such as dry weather conditions and maintenance closures in mining facilities, weighed further on overall production activity.

The movement restrictions also adversely affected private sector spending. As the pandemic prolonged, firms' profits declined and labour market conditions deteriorated in line with weaker economic activities. These led to a contraction in consumption and investment activities. Consumer spending was impacted by large income losses as the labour market experienced its worst downturn in more than three decades. Consumer sentiments were also weak due to heightened risk aversion amid fears of COVID-19 contagion and job uncertainties. Similarly, private investment activity was weighed down by low business confidence and the slower implementation of projects. Meanwhile, public expenditure was also affected mainly by the initial implementation of the MCO, particularly public investments.

The decline in external and domestic demand collectively resulted in a further contraction in imports (2020: -6.3%, 2019: -3.5%). Intermediate imports registered a sharp contraction in tandem with lower manufacturing production and exports. Capital and consumption imports also declined during the year due to weak investment and consumer spending.

The larger import compression relative to exports resulted in a higher goods surplus, contributing to a higher current account surplus of RM62.1 billion or 4.4% of GDP in 2020 (2019: RM50.9 billion or 3.4% of GDP). The primary income deficit narrowed during the year due to more moderate income that accrued to foreign investors in Malaysia amid the subdued global environment. However, these were partly offset by the decline in travel receipts.

Following the trough in the second quarter of 2020, there were incipient signs of gradual growth recovery, albeit rather uneven, towards the second half of the year. As the containment measures were gradually eased from the second quarter, economic activities partially resumed, and labour market conditions improved. COVID-19 resilient industries experienced a quicker recovery given impetus from the global surge in digitalisation and shift in consumer preferences. In line with these developments, the export-oriented industries also benefited from the improving external demand, particularly for E&E products. By contrast, COVID-19 vulnerable sectors, such as tourism-related industries, experienced slower recoveries due to continued risk aversion and restrictions on international travel, resulting in an uneven and gradual growth recovery.

DIRECTORS' REPORT

BUSINESS STRATEGY AND OUTLOOK (CONTD)

OVERVIEW OF THE ECONOMY AND PROSPECTS FOR 2021 (CONTD)

MALAYSIAN ECONOMY (CONTD)

As 2020 came to an end, Malaysia's growth recovery remained highly contingent on the course of the pandemic. In the fourth Malaysia's growth recovery outlook remained highly contingent on the course of the pandemic. The introduction of Full MCO back in early June 2021 that result in the tightening of containment measures to restrain the resurgence in cases dented the pace of the economic recovery. Employment and income conditions were similarly affected. Nonetheless, as a more targeted approach was adopted later through state-specific containment and less stringent supply restrictions, the adverse impact to the economic activity was less severe than before. This reflected efforts to balance between managing public health concerns and livelihoods during this pandemic.

STRATEGIES AND DIRECTIONS

The Bank will continue to build on its strengths to further develop and sustain its business (both conventional and Islamic) and consolidate its market position. In line with addressing issues concerning climate change and environmental protection, the Bank will expand and grow our efforts in developing new business opportunities and products linked to environmental, social and governance ("ESG") including sustainability-linked solutions to meet growing needs in this area. This will be aligned to MUFG's management strategies to be more closely integrating environmental and social issues towards achieving sustainability for the environment and society.

Additionally growth of Islamic finance assets has remained steady in 2020, despite a marked slowdown in economic activity across core and major Islamic banking markets continued to outpace conventional asset growth. Hence, the Bank will continue its focus and efforts to develop new Islamic products and solutioning to meet client needs in this Islamic space and will continue to be enhanced continuously.

While exploring new business opportunities and creating new revenue channels, the Bank aims to continue to expand its corporate lending business by leveraging on its existing clientele with good track record and acquire targeted new corporate clients in growth and resilient sectors. This includes driving higher market and wallet share by offering competitive pricing and attractive terms as well as innovative product features.

The Bank will also continue to work closely to fulfil our customers' needs to remain competitive, comprehensive and relevant. In addition, the Bank will continue to expand on the new business channels and grow fee income segment through foreign exchange related transactions and transactional banking services by expanding wallet share.

The Bank will continue to focus on developing its operational excellence and efficiency, adopting prudent and responsible financing practices, while upholding strong corporate governance and ethical compliance culture as well as sound and robust risk management practices. Given the challenging market environment, the Bank's treasury and capital market operations will continue to ensure that risk management and liquidity positions remain strong.

Despite facing uncertain times caused by external factors including the current pandemic, the Bank continued to emphasise on operational efficiencies to deliver superior financial performance, including implementing effective cost control while maintaining healthy balance sheet management. At the same time, the Bank will remain prudent in its cost management regime and will continue leverage on flexible work arrangement under Work-From-Home to reduce inefficiencies and costs in the process and work space.

With the rapid advancement in technology in the banking space, the Bank will stay agile in response to the digital banking evolution and will further enhance its digitisation aspiration by expanding its digital capabilities to better serve its customers' needs.

OUTLOOK FOR 2021

GLOBAL ECONOMY OUTLOOK

The global economy is expected to continue its gradual and uneven recovery in 2021

In 2021, the global economy is expected to continue its gradual and uneven recovery path from the second half of 2020. Global growth prospects will continue to be shaped by developments surrounding the COVID-19 pandemic, particularly the rollout of vaccines, ongoing structural shifts in the economy, and the extent of scarring in labour markets.

Notwithstanding the expected global recovery, continued policy support will be vital to sustain the overall growth momentum amid elevated uncertainty. Global monetary policy is also expected to remain supportive of growth. The commitment towards a 'low-for-longer' interest rate environment in major advanced economies and implementation of accommodative monetary policies in major EMEs will support demand. Despite the surge in long-term government bond yields in the US which began in January 2021 and the increased global financial market volatility, major central banks have continued to maintain the stance that monetary policy will remain accommodative amid considerable economic slack, transitory inflationary pressures, and high uncertainties on the strength of growth recoveries.

DIRECTORS' REPORT

BUSINESS STRATEGY AND OUTLOOK (CONTD)

OVERVIEW OF THE ECONOMY AND PROSPECTS FOR 2021 (CONTD)

OUTLOOK FOR 2021 (CONTD)

GLOBAL ECONOMY OUTLOOK (CONTD)

The global economy is expected to continue its gradual and uneven recovery in 2021 (Contd)

The risks to global growth remains tilted to the downside, as pandemic-related downside risks could dampen the prospects of a global recovery. These include the re-imposition of strict and widespread containment measures due to COVID-19 resurgences, slower-than-expected rollout of vaccines or major mutations in the COVID-19 virus that could render the existing vaccines less effective. More severe economic scarring, arising from extensive permanent job losses and business closures, could also weaken long-term global growth. Nevertheless, there is some upside potential to the outlook. Global growth could outperform expectations with a faster rollout and wider outreach of vaccines, especially in EMEs.

MALAYSIAN ECONOMY OUTLOOK

For Malaysia, the expectation is for the economy to recover in 2021, even Bank Negara has indicated growth ranging from 6.0 - 7.5% in 2021. The path of recovery will be gradual and uneven across economic sectors, and it may encounter speed bumps along the way. Growth will be underpinned by stronger external demand and higher public and private expenditure.

The rollout of the domestic COVID-19 vaccination programme will also lift sentiments and support economic activities. Malaysia's integration in fast growing segments of global value chains and diversified external trade structures, along with continued policy support and its effective execution would be the key factors in driving the rebound in economic growth in 2021.

Despite the positive outlook, downside risks to growth remain. Of immediate concern is the unpredictable course of the pandemic globally and domestically. The Bank cannot rule out the risk of COVID-19 becoming persistent and the country having to withstand the pandemic longer than expected. This is subject to how quickly Malaysia can achieve herd immunity and how the virus evolves. Aside from the pandemic, the uneven growth recovery could risk larger permanent job losses and business closures, particularly in high-touch services sectors. This economic scarring can have a more lasting consequence on the economy, and could prevent a quicker return to a pre-pandemic growth trajectory when economic activity normalises.

While headline inflation is expected to rise, it will be driven mainly by supply side factors. Underlying price pressures, on the other hand, will remain subdued, amid continued spare capacity in the economy.

Labour market conditions are expected to improve gradually as broad economic activity picks up, along with the ongoing policy support in place to facilitate labour mobility and minimise long-term dislocations or scarring in the labour market. The improvement in labour market conditions is expected to play a key role in the recovery of private consumption.

In addition, policy measures remain in place to support the growth momentum while still assisting the vulnerable segments. These include the extension of measures introduced in 2020, the 2021 Budget, as well as the PERMAI and PEMERKASA assistance packages and the newly announced MYR150 billion PEMULIH economic stimulus package. Notable measures to ease financial constraints for affected individuals include the Bantuan Prihatin Nasional, Bantuan Prihatin Rakyat and Bantuan Kehilangan Pendapatan cash transfers, the Employee Provident Fund i-Sinar, i-Lestari and i-Citra cash withdrawals, and the Targeted Loan Repayment Assistance. Various tax relief and incentives will also lift overall consumer spending. For businesses, special grants, wage subsidies and the Targeted Relief and Recovery Facility are extended to firms in the services sector, which is the hardest-hit sector. The continued accommodativeness of monetary policy and supportive financing conditions will further maintain a conducive environment for a recovery in domestic demand as the adverse impact from the COVID-19 crisis gradually subsides.

In this highly uncertain environment, the risks to Malaysia's growth projection are tilted to the downside. Key downside risks include the escalation in COVID-19 cases leading to further rounds of containment measures, albeit targeted, and the slower-than-expected rollout or ineffectiveness of vaccines which could result in stronger precautionary behaviour. Heightened global and domestic economic uncertainty could lead to greater financial market volatility, triggering a tightening of domestic financial conditions. Despite this, upside risks to the growth outlook may emanate from a higher-than-expected global growth, faster-than-expected rollout of vaccines, stronger-than-expected impact from policy support, and the realisation of pent-up demand following the lifting of containment measures.

DIRECTORS' REPORT

BUSINESS STRATEGY AND OUTLOOK (CONTD)

OVERVIEW OF THE ECONOMY AND PROSPECTS FOR 2021 (CONTD)

OUTLOOK FOR 2021 (CONTD)

MALAYSIAN ECONOMY OUTLOOK (CONTD)

While overall growth is expected to spike in 2Q 2021 due to low base effect from MCO 1.0, the magnitude of growth is expected to be capped by the four-week full lockdown from 1st–28th June 2021. However the latest MCO was further extended following fresh surges of COVID-19 cases in the country in line with the 4 phases of the National Recovery Plan. GDP projection figure too may need further readjustment. Despite the downside risk to the forecast, the underlying supportive factors such as recovering global demand from major economies and recent ramp-up in vaccination rates in Malaysia will provide some respite to the economy.

CORPORATE GOVERNANCE

THE BOARD OF DIRECTORS

The Bank's Board of Directors ("The Board") has always maintained the highest standards of corporate governance to protect and enhance the interest of all stakeholders, which include depositors and borrowers, shareholders and employees. The Board is responsible for the strategic direction of the Bank, formulation of policies and stewardship of its resources. The policies of the Bank will not only continue to exist in their present form but will continually be reviewed and enhanced. The Board ensures effective application of the principles and standards established by BNM in the Guidelines on Corporate Governance ("CG") and is reflective of good corporate governance best practices set out in the Malaysian Code on Corporate Governance 2021.

The Board consists of four (4) members, with one (1) Executive Director who is also the Chief Executive Officer ("CEO"), and three (3) Independent Directors.

The Independent Directors are (1) Y.Bhg. Dato' Mohd Sallehuddin bin Othman; (2) En. Ismail bin Mahbob; and (3) Y. Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani.

Director's Profile

Dato' Mohd Sallehuddin bin Othman

Dato' Mohd Sallehuddin bin Othman (Dato' Sallehuddin), was appointed as a Director of the Bank on 20 November 2013. He was appointed as the Chairman of the Board on 1 June 2019. He is also a member of the Risk Management Committee, Audit Committee, Nomination Committee and Remuneration Committee. He graduated from MARA Institute of Technology with ACCA qualification and from Luton College of Technology, UK with ICMA qualification. He holds a M. Sc in Administrative Sciences from City University of London, UK.

Dato' Sallehuddin started his career with various audit firms before taking up accounting and finance positions from 1975 to 1980 in Lembaga Padi & Beras Negara (now known as BERNAS) and Pernas Charter Management (part of MMC Group). From 1981 to 1986, he was a Control Officer in Controllers Department, Asian Development Bank ("ADB") based in Manila in the Philippines in charge of disbursement functions of various projects in Asia Pacific countries financed by ADB.

Dato' Sallehuddin later joined Permodalan Nasional Berhad from 1986 to 1994 as Senior Manager of Corporate Services in charge of monitoring of performance of various invested companies, and subsequently as General Manager of Human Resources Department.

From 1994 to 2000, Dato' Sallehuddin was with UMW Holdings Berhad, a public listed company on Bursa Malaysia initially as Executive Director of Automotive Division (principally with oversight functions over UMW Toyota and Perodua) since 1994. Subsequently, he was appointed as Group Managing Director with an overall responsibility of fiduciary duty as a Board member of various UMW Group of companies and day-to-day managing the operations of the Group.

From 2001 until his retirement in July 2006, he served as Group Managing Director of Malaysian Industrial Development Finance Berhad ("MIDF"), a publicly listed company at that time. His main responsibilities included being a Director of MIDF Group of companies (in asset management, stock-broking, investment bank, issuing house, development finance, and property), and in charge of day-to-day operations of the Group.

After retirement, Dato' Sallehuddin served as an Independent Director of Al Rajhi Banking & Investment Corporation (M) Berhad for 3 years until April 2011 and AXA Affin Life Insurance Malaysia Berhad from December 2006 until December 2017.

Currently, Dato' Sallehuddin is also a Non-Independent Chairman of MSIG Insurance (M) Berhad, and Public Interest Director of Federation of Investment Managers Malaysia and a Board Director of several private limited companies.

DIRECTORS' REPORT

CORPORATE GOVERNANCE (CONTD)

THE BOARD OF DIRECTORS (CONTD)

Director's Profile (Contd)

Mr. Fumio Takamatsu

Mr. Fumio Takamatsu (Mr. Takamatsu), was appointed as Executive Director / CEO of the Bank on 14 November 2020 and his title has recently been changed to Managing Director, Country Head of Malaysia / Executive Director / CEO. Mr. Takamatsu is a member of the Nomination Committee. He graduated with a Bachelor Degree in Law from Keio University.

Mr. Takamatsu started his career with MUFG Bank, Ltd as a Bank Officer in Japan. He spent 11 years in developing his skills as a Relationship Manager and 2 years in oversea network strategy and risk management as a Planning Officer in Japan.

Prior to Mr. Takamatsu's appointment in the Bank, he was the Managing Director, Deputy Head of Hong Kong Branch of MUFG Bank, Ltd. He oversees the operations of strategic planning, human resources, risk, information technology, legal, credit financial control, corporate communication, procedures and manuals. Prior to that, he headed the business strategies and business planning of Transaction Banking in Japan for 2 years; and 8 years in the Japanese Corporate banking in the United States of America.

Mr. Takamatsu was appointed as Director of The Japanese Chamber of Trade & Industry Malaysia on 9 March 2021.

En. Ismail bin Mahbob

En. Ismail bin Mahbob (En. Ismail) was appointed as an Independent Director of the Bank on 20 June 2014. He is the Chairman of the Risk Management Committee and Remuneration Committee, and also a member of the Audit Committee and Nomination Committee. En. Ismail holds a Diploma in Marketing from the Chartered Institute of Marketing, UK and an associate of the Association of Chartered Islamic Finance Professional ("ACIFP") from the International Centre for Education in Islamic Finance, Malaysia ("INCEIF"). En. Ismail is a Fellow of Chartered Professional in Islamic Finance ("F.CPIF") from Chartered Institute of Islamic Finance Malaysia ("CIIF"). He was also previously was an Adjunct Fellow of College of Business, University Utara Malaysia ("UUM").

En. Ismail started his professional career with the insurance industry in 1977. He had served in senior positions of various sectors of the industry in the capacity of a broker, insurer, reinsurer and a retakaful operator. His last position was as the President/Chief Executive Officer of MNRB Retakaful Malaysia Berhad, Malaysia from 2007 till his retirement in 2012.

En. Ismail also served as an Independent Director ("ID") of Export-Import Bank (Malaysia) Berhad from August 2012 to August 2019 and Saudi Reinsurance Company, Saudi Arabia from December 2012 to May 2020. En. Ismail is the Independent Chairman for the Board of Directors of Syarikat Takaful Malaysia Am Berhad, a wholly owned subsidiary of public listed company, Syarikat Takaful Malaysia Keluarga Berhad.

Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani

Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani (Datuk Seri Dr. Nik), was appointed as an Independent Director of the Bank on 1 June 2019. He is the Chairman of the Audit Committee and Nomination Committee, and also member of the Risk Management Committee and Remuneration Committee.

Datuk Seri Dr. Nik holds a Ph.D. in Law from the School of Oriental and African Studies ("SOAS"), University of London, United Kingdom and a Master in Law from Queen Mary College, University of London, United Kingdom. He read law at the University of Buckingham, United Kingdom. He also holds a post-graduate Diploma in Syariah Law and Practice (with Distinction) from the International Islamic University Malaysia. He is a Barrister of Lincoln's Inn and an Advocate and Solicitor of the High Court of Malaya. He was called to the Bar of England and Wales in 1985 and returned to the Malaysian Bar in 1986. He was a Visiting Fulbright Scholar, Harvard Law School in 1996 to 1997, and was formerly the Acting Dean/Deputy Dean of the Faculty of Laws, International Islamic University Malaysia. He is also a Fellow of the Financial Services Institute of Australasia (FINSIA) since 2006. Previously, he was working in a firm of accountants and in a bank at Kuala Lumpur.

Currently, he is the Chairman and Senior Partner of Messrs Zaid Ibrahim & Co. (a member of ZICO Law). Prior to joining Messrs Zaid Ibrahim & Co., he was with Messrs Baker & McKenzie (International Lawyers), Singapore.

Datuk Seri Dr. Nik served as a Chairman / Independent Director of Chin Hin Group Berhad from 2016 to 2020 and Independent Director of Pengurusan Aset Air Berhad from 2018 to 2020.

Datuk Seri Dr. Nik is the Independent Chairman of the Board of Directors of T7 Global Berhad, Malaysian Rating Corporation Berhad and IIUM Holdings Sdn Bhd, a subsidiary of International Islamic University Malaysia. He also sits on the Board of Directors of Amanah Saham Nasional Berhad and Cagamas Holdings Berhad.

CORPORATE GOVERNANCE (CONTD)

THE BOARD OF DIRECTORS (CONTD)

Roles and Responsibilities

The members of the Board are professionals in their own rights and they possess wide-ranging experiences, skills and expertise in the private sector as well as the banking industry. The members of the Board are persons of high calibre and integrity and they fulfilled the Standards on Fit and Proper Criteria under the Financial Services Act 2013 (“FSA 2013”).

The roles of the Chairman and CEO are independent with clearly defined roles and responsibilities, authority and accountability to ensure proper balance of responsibility and authority. The independent directors are distinct from management and do not have any business or other relationship that could materially interfere with the exercise of their independent judgement. The Chairman is not involved in the daily management of the Bank.

(a) Roles and Responsibilities of the Board

- Review and approve strategies, business plans, other initiatives which would singularly or cumulatively, have a material impact on the Bank’s risk profile, significant policies and monitor Senior Management’s performance in implementing them;
- Ensure that the Bank establishes comprehensive risk management policies, processes, infrastructure and resources, to manage the various types of risks;
- Ensure the effectiveness of Risk Management Framework by taking into consideration the changes in business environment to control the Bank’s risk taking activities. Also, to provide constructive challenge on the credibility and robustness of the framework;
- Establish periodic review on quantity and quality of the Risk Management reporting;
- Oversee and approve the recovery and resolution as well as business continuity plans for the Bank to restore its financial strength, and maintain or preserve critical operations and critical services when it comes under stress;
- Set up an effective internal audit department, staffed with qualified internal audit personnel to perform internal audit functions, covering the financial and management audit;
- Establish a rigorous process for the appointment and removal of directors;
- Oversee the selection, performance, remuneration and succession plans of the CEO, control function heads and other members of Senior Management, such that the Board is satisfied with the collective competence of Senior Management to effectively lead the operations of the Bank;
- Establish a written policy to address Directors’ actual and potential conflict of interest;
- Establish and ensure the effective functioning of various Board committees;
- Promote Shariah compliance in accordance with expectations set out in BNM’s Shariah Governance Policy Document and ensure its integration with the Bank’s business and risk strategies;
- Ensure the effective management of the Bank’s capital and capital adequacy levels to ensure fulfillment of regulatory and internal requirements;
- Ensure that the relevant stakeholders discharge their responsibilities for the development and effective implementation of the Bank’s capital management policies and processes;
- Approve credit transactions to connected parties based on Guidelines on Credit Transactions and Exposures with Connected Parties;

CORPORATE GOVERNANCE (CONTD)

THE BOARD OF DIRECTORS (CONTD)

Roles and Responsibilities (Contd)

(a) Roles and Responsibilities of the Board (Contd)

- Engage with Chief Compliance Officer (“CCO”) on a regular basis to provide the opportunity for the CCO to discuss issues faced by the compliance function. The Board should also consider engaging the CCO without the presence of other members of Senior Management from time to time;
- Provide the CCO with direct and unimpeded access to the Board;
- Ensure that the CCO is supported with sufficient resources, including competent officers, to perform his/her duties effectively;
- Oversee the implementation of the Bank’s governance framework and internal control environment, and periodically review whether these remain appropriate in the light of material changes to the size, nature and complexity of the Bank’s operations;
- Promote, together with Senior Management, a sound corporate culture within the Bank which reinforces ethical, prudent and professional behaviour;
- Promote sustainability through appropriate environmental, social and governance considerations in the Bank’s business strategies;
- Promote timely and effective communication between the Bank and BNM on matters affecting or that may affect the safety and soundness of the Bank;
- Undertake the Board’s duties and responsibilities as well as oversight functions as stipulated in the Companies Act 2016 (“CA 2016”), FSA 2013, Islamic Financial Services Act 2013 (“IFSA 2013”), BNM Policy Documents and Guidelines and any other regulations or directives issued by BNM from time to time;
- Undertake the Board’s duties and responsibilities and oversight functions as stipulated in Section 28.2 of the BNM Anti-Money Laundering and Counter Financing of Terrorism (“AML/CFT”) – Banking and Deposit-Taking Institutions (Sector 1) Guideline;
- Undertake and exercise the Board’s duties, responsibilities and oversight functions as stipulated in paragraph 8.1 to paragraph 8.6, paragraphs 10.41 and 10.51 of the BNM’s Risk Management in Technology (RMiT) Policy Documents;
- Exercise oversight accountability over Shariah governance and compliance to ensure the processes reflect the integration of Shariah governance considerations within the business and risk strategies of the Bank as per outlined under the BNM’s Shariah Governance Policy Document or any other regulations or directives issued by BNM from time to time; and
- Provide board veto clearance for large exposures based on Credit Policy of the Bank. Where such veto clearance was obtained via circulation, the loan/financing exposures to be collectively deliberated and ratified in the subsequent Board meeting.

(b) Performance Criteria used to assess the Board as a whole and individually

The effectiveness of the Board is measured against the Bank’s performance in terms of profitability, internal controls, compliance, risk management and cost effectiveness.

(c) Directors’ Training

The Board acknowledges the importance of continuing education for its Directors to ensure each Director possesses the knowledge and skills necessary to fulfil their responsibilities.

DIRECTORS' REPORT

CORPORATE GOVERNANCE (CONTD)

THE BOARD OF DIRECTORS (CONTD)

Roles and Responsibilities (Contd)

(c) Directors' Training (Contd)

During the financial year ended 31 March 2021, the Directors have attended various training programmes, conference, seminars, briefing and/or workshop on issues relevant to their duties and responsibilities to further enhance their skills and knowledge and keep abreast with the latest developments in the industry and changes in the new statutory and regulatory requirements as follows:

No.	Training Programmes	Attended by
1	Digital Financial Institutions Series: Managing Virtual Banking and Insurance Businesses	Dato' Sallehuddin En. Ismail
2	Digital Financial Institutions Series: Fidor's Experience	Dato' Sallehuddin En. Ismail
3	BNM-FIDE FORUM Annual Dialogue with Governor of Bank Negara Malaysia	Dato' Sallehuddin
4	Annual Financial Crime Compliance Department (FCC) Awareness Session for Board of Directors	Dato' Sallehuddin En. Ismail Datuk Seri Dr. Nik
5	Translating SRI/ESG Into a Value Proposition	Dato' Sallehuddin
6	Information Security Awareness for Board of Directors	Dato' Sallehuddin En. Ismail Datuk Seri Dr. Nik
7	MUFG Islamic Finance Forum Accelerating Islamic Banking Growth and Optimizing Opportunities: Are we there yet?	Dato' Sallehuddin En. Ismail Datuk Seri Dr. Nik Mr. Takamatsu
8	Demystifying ESG Investing	Dato' Sallehuddin
9	Joint Committee on Climate Change (JC3)'s 2nd Workshop on Climate Change Series 1 – Climate-Related Disclosures Series 2 – Climate Risk Management Series 3 – Climate Scenario Analysis	Dato' Sallehuddin
10	Investment Conference	Dato' Sallehuddin
11	Digital Summit	Dato' Sallehuddin
12	Webinar: Challenging Times: What Role Must the Board Play?	En. Ismail
13	"How Usury (Riba) went Mainstream"	En. Ismail

16	In-House Director's Orientation Programme	Mr. Takamatsu
17	Rethinking Our Approach to Cyber Defence in FIs	Mr. Takamatsu

DIRECTORS' REPORT

CORPORATE GOVERNANCE (CONTD)

THE BOARD OF DIRECTORS (CONTD)

Roles and Responsibilities (Contd)

(d) Tenure of Independent Directors

The Board considers that fundamentally the independence of Directors are based on their capacity to put the best interests of the Bank and its shareholders ahead of other interests, that Directors are capable of exercising objective independent judgement.

The Board shall ensure that the length of service of the Directors does not impair the independent judgement of decision making or materially interfere with the Directors ability to act in the best interest of the Bank.

The tenure limits for Independent Director should generally not exceed nine (9) years, except under exceptional circumstances or as part of transitional arrangements towards full implementation of the succession plans of the Bank.

(e) Frequency and Conduct of Board Meetings

Board meetings are conducted not less than six (6) times a year to discuss key issues of the Bank including review of the financial performance, operations and risk management of the Bank and to deliberate on matters that require the Board's decision and approval.

A total of seven (7) Board meetings were held during the financial year ended 31 March 2021. The details of attendance of each member at the Board meetings held during the financial year ended 31 March 2021 are as follows:

Director	Number of Meetings	
	Held	Attended
Y.Bhg. Dato' Mohd Sallehuddin bin Othman	7	7
<i>Independent Director</i>		
Mr. Fumio Takamatsu	3	3
<i>Managing Director, Country Head of Malaysia/CEO/Executive Director</i> <i>(Appointed on 14 November 2020)</i>		
En. Ismail bin Mahbob	7	7
<i>Independent Director</i>		
Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani	7	7
<i>Independent Director</i>		
Mr. Takuma Matsuyama	4	4
<i>CEO/President and Executive Director</i> <i>(Resigned on 13 November 2020)</i>		

The Board established Board Committees to oversee critical and major functional areas of the Bank.

The function and terms of reference of Board Committees as well as authority delegated by the Board to the Committees have been approved by the Board and are revised from time to time to ensure that they are relevant and up-to-date.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES

(a) Nomination Committee (“NC”)

The composition of NC is as follows:

Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani (Chairman)
Mr. Fumio Takamatsu (Member) (Appointed on 14 November 2020)
Y.Bhg. Dato’ Mohd Sallehuddin bin Othman (Member)
En. Ismail bin Mahbob (Member)
Mr. Takuma Matsuyama (Member) (Resigned on 13 November 2020)

The NC shall meet at least 4 times a year or as and when required.

During the financial year ended 31 March 2021, the NC held eight (8) meetings.

The details of attendance of each member at the NC meetings held during the financial year ended 31 March 2021 are as follows:

NC Member	Number of Meetings	
	Held	Attended
Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani <i>Chairman</i>	8	8
Mr. Fumio Takamatsu <i>Member</i> <i>(Appointed on 14 November 2020)</i>	4	4
Y.Bhg. Dato’ Mohd Sallehuddin bin Othman <i>Member</i>	8	8
En. Ismail bin Mahbob <i>Member</i>	8	8
Mr. Takuma Matsuyama <i>Member</i> <i>(Resigned on 13 November 2020)</i>	4	4

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(a) Nomination Committee (“NC”) (Contd)

NC is responsible for the following matters:

- to establish the minimum requirements for the Board on the required mix of skills, experience, qualifications and other core competencies of a Director and CEO. The requirements and criteria shall be approved by the full Board;
- to assess and recommend to the Board the nominees for appointment; re-appointment upon the expiry of terms of appointment as approved by BNM; or removal of Directors, Senior Management and Shariah Committee members if he/she no longer meets the minimum requirements set out in paragraphs 10.2 to 10.5 and 17.2 to 17.4 of CG respectively and paragraphs 33(c) and (d) of the IFSA 2013, or has been assessed to be ineffective, errant or otherwise unsuited to carry out his/her responsibilities;
- to assess and recommend to the Board the nominees for appointment or removal of Company Secretary if he/she is disqualified under Section 238 of the CA 2016 or no longer complied with the Fit and Proper requirements;
- to oversee the overall composition of the Board and Board Committees in terms of appropriate size, required mix of skills, experience and core competencies and adequate balance between Executive Directors, Non-Executive Directors and Independent Directors through annual review;
- to establish the mechanism for the formal assessment on the effectiveness of the Board as a whole and the contribution of each Director to the effectiveness of the Board, the contribution of the Board’s various committees and the performance of the CEO as well as other Senior Management and Company Secretary. The annual assessment to be conducted shall be based on objective performance criteria as approved by the full Board;
- to ensure that all Directors receive appropriate continuous training programmes in order to keep abreast with the latest developments in the industry and changes in the new statutory and regulatory requirements;
- to support the Board oversight on the appointment, succession planning and performance evaluation of Senior Management, Shariah Committee (“SC”) members and Company Secretary;
- to assess on an annual basis that the Directors/CEO, Senior Management and Shariah Committee members are not disqualified under Section 59 of the FSA 2013 and Section 68 of IFSA 2013 and that the Directors/CEO and Shariah Committee members continue to comply with the standards for ‘fit and proper’ criteria as approved by the Board;
- to assess and to ensure Independent Directors comply with the definition of Independent Director as defined in the CG;
- to carry out such other responsibilities as may be specified by BNM or delegated by the Board from time to time;
- to assess and nominate the appointment or renewal of appointment of Expatriates Officers consistent with the qualifications, experience and criteria applicable in BNM’s guidelines; and
- to monitor the effectiveness of transfer of skills and expertise from expatriates employed in Senior Management and specialist positions to staff of the Bank as well as the industry generally.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(b) Remuneration Committee (“RC”)

The composition of RC is as follows:

- En. Ismail bin Mahbob (Chairman)
- Y.Bhg. Dato’ Mohd Sallehuddin bin Othman (Member)
- Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani (Member)

The RC shall meet at least once a year or as and when required.

During the financial year ended 31 March 2021, the RC held two (2) meetings.

The details of attendance of each member at the RC meetings held during the financial year ended 31 March 2021 are as follows:

RC Member	Number of Meetings	
	Held	Attended
En. Ismail bin Mahbob <i>Chairman</i>	2	2
Y.Bhg. Dato’ Mohd Sallehuddin bin Othman <i>Member</i>	2	2
Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani <i>Member</i>	2	2

The RC is responsible for the following matters:

- to review periodically and recommend to the Board the remuneration policy of the Bank, including material changes made to the policy to ensure that the remuneration remains appropriate to each Director, Member of SC, CEO and other members of *Senior Management and other Material Risk Takers’ contribution, taking into account the level of expertise, commitment and responsibilities undertaken;
- to review annually the remuneration for each Director, CEO and other members of *Senior Management and other Material Risk Takers’;
- to recommend to the Board a framework of remuneration for Directors, SC members, CEO and other members of *Senior Management covering fees, salaries, allowances, bonuses and benefits-in-kind in discharging their duties;
- to recommend to the Board the adjustments in remuneration package reflecting the SC members, Executive Directors and CEO’s contributions for the year; and which are competitive and consistent with the Bank’s culture, objectives and strategy;
- to ensure that the level of remuneration for Non-Executive Directors and Independent Directors are linked to their level of responsibilities undertaken and contribution to the effective functioning of the Board; and
- to carry out such other responsibilities as may be specified by BNM or delegated by the Board from time to time.

*Senior Management and other Material Risk Takers’ comprise persons as defined/stated in the Bank’s Remuneration Policy.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(c) Audit Committee (“AC”)

The composition of AC is as follows:

- Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani (Chairman)
- Y.Bhg. Dato’ Mohd Sallehuddin bin Othman (Member)
- En. Ismail bin Mahbob (Member)

The AC shall meet at least four (4) times a year.

During the financial year ended 31 March 2021, seven (7) meetings were held.

The External Auditors may request a meeting with or without the presence of the Management.

The AC may at their discretion invite any Director, Executive Directors or any person to attend the meeting.

The details of attendance of each member at the AC meetings held during the financial year ended 31 March 2021 are as follows:

AC Member	Number of Meetings	
	Held	Attended
Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani <i>Chairman</i>	7	7
Y.Bhg. Dato’ Mohd Sallehuddin bin Othman <i>Member</i>	7	7
En. Ismail bin Mahbob <i>Member</i>	7	7

The terms of reference of the AC include the reinforcement of the independence and objectivity of the internal audit function and the specification of the scope and review of the Bank’s financial statements which includes the findings of both the Internal and External Auditors. The AC also recommends the appointment and re-appointment of the External Auditors as well as reports to the Board on the maintenance of sound internal control system and adequacy of risk management processes and the fulfilment of regulatory compliances.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(c) Audit Committee (“AC”) (Contd)

The primary objectives of the AC are:

- to support the Board in ensuring that there is reliable and transparent financial reporting process within the Bank and provide assurance that the financial information presented by management is relevant, reliable and timely;
- to oversee the effectiveness of the internal audit function of the Bank and evaluate the quality of audits performed;
- to foster a quality audit of the Bank by exercising oversight over external auditors in accordance with the expectations set out in the policy document on external auditor;
- to act as a committee of the Board to assist in discharging the Board’s responsibilities in relation to the Bank’s good governance, management and internal controls, accounting policies and financial reporting;
- to provide, by way of regular meetings, a line of communication between the Board and the external auditors;
- to enhance the perceptions held by other interested parties (such as shareholders, regulators and other financial institutions) of the credibility and objectivity of financial reports; and
- to oversee the compliance with laws and regulations and observe proper code of conduct established.

The AC is authorised by the Board:

- to review any activity of the Bank within its Terms of Reference. It is authorised to seek any information or documents/resources it requires from any Director or member of Management; and all employees are directed to co-operate with any request made by the Audit Committee;
- to obtain independent legal or other independent professional advice; and to secure the attendance of outsiders with relevant experience and expertise if it considers this necessary, and the cost of such advice shall be borne by the Bank; and
- be kept regularly updated on audit matters and to be notified immediately of any fraud and significant irregularities or internal control deficiencies discovered by Management or Internal Audit Department, if any.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(c) Audit Committee (“AC”) (Contd)

The functions and responsibilities of the AC are:

Internal Audit

- to approve on the appointment, remuneration, performance appraisal, transfer and dismissal of the Chief Internal Auditor (“CIA”);
- to review and if appropriate, approve the Internal Audit Charter and procedure manual;
- to review and approve the adequacy of the internal audit scope, procedures, plan, frequency and budgeted man-days; and to confirm that Management has placed no restrictions on the scope of audits;
- to establish a mechanism to assess the performance and effectiveness of the internal audit function;
- to ensure that the internal audit function is adequately resourced and has appropriate standing within the Bank and to ensure coordination between the internal and external auditors;
- to review and consider reports and findings issued by regulatory authorities; and to ensure that Management has taken the necessary corrective actions in a timely manner;
- to review key audit reports and any findings raised by Internal Audit Department; and to ensure that Management has taken / is taking the necessary corrective actions in a timely manner to address control weaknesses, non-compliance with laws, regulatory requirements, policies and other problems identified by the Internal Audit and other control functions; and
- to note the significant disagreements between the CIA and the rest of the Management team, irrespective of whether these have been resolved, in order to identify any impact the disagreements may have on the audit process or findings.

Matrix Reporting

- to ensure internal audit department matrix reporting to Internal Audit for Asia (AIAO) is governed by the agreed scope (AIAO oversight function) that is stated in the policy; and
- to ensure that the final call/decision making on the Internal Audit Department or internal audit matters will be made by the Chief Internal Auditor and/or with Audit Committee’s concurrence.

External Auditors

- to review the terms of appointment, re-appointment, removal of the external auditor and approve their remuneration and terms of engagement; and make recommendations to the Board for approval by the Bank’s shareholder;
- to monitor and assess the independence of the external auditors including by approving the provisions of non-audit services by external auditors subject to the Policy of Provision of Non-Audit Services of the Bank;
- to monitor and assess the effectiveness of the external auditors including by meeting with the external auditors without the presence of Management at least annually and discussing problems and reservations arising from interim as well as final audits;
- to review the external auditor’s management letter and Management’s response to the management letter, if any;
- to review the report of the external auditors including any significant matters; and to ensure Management has taken/is taking the necessary corrective actions in a timely manner to address external audit findings and recommendations; and
- to maintain regular, timely, open and honest communication with the external auditors, and requiring the external auditors to report to the AC on significant matters.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(c) Audit Committee (“AC”) (Contd)

The functions and responsibilities of the AC are: (Contd)

Financial Reporting

- to review the accuracy and adequacy of the Chairman’s statement in the Directors’ report, corporate governance disclosure and interim financial statements and any preliminary announcements in relation to the preparation of financial statements;
- to review the quarterly interim financial statements and annual financial statements before submission to the Board, focusing particularly on:
 - any changes in accounting policies and practices;
 - significant and unusual events and transactions;
 - major judgemental areas;
 - significant adjustments resulting from the audit;
 - the going concern assumption;
 - compliance with applicable financial reporting standards;
 - compliance with BNM and legal requirements; and
 - adequacy of provision for contingencies and impairment on financial instruments.

Risk Management and Governance

- to review the adequacy and effectiveness of the Bank’s governance processes, risk management and internal controls prior to endorsement by the Board;
- to review third-party opinions on the design and effectiveness of the Bank’s internal control framework; and
- to monitor compliance with the Board’s conflicts of interest policy which at a minimum must:
 - identify circumstances which constitute or may give rise to conflicts of interest;
 - clearly define the process for directors to keep the Board informed on any change in his circumstances that may give rise to conflicts of interest;
 - identify those responsible for maintaining updated records on each Director’s conflicts of interest; and
 - articulate how any non-compliance with the policy will be addressed.

Related Party Transactions

- to review and update the Board on all related party transactions and conflicts of interest situations that may arise within the Bank including any transaction, procedure or conduct that raises questions of management integrity in ensuring that the terms and conditions of the transactions are commercially based and at arm’s length.

Other matters

- to consider other matters as the AC considers appropriate or as authorised by the Board.

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(d) Risk Management Committee (“RMC”)

The primary objectives of the RMC are to oversee the Bank’s activities in managing credit, market, liquidity, operational, legal, compliance, information security and other risks; and to ensure that a risk management process is in place and functioning.

RMC is authorised to assist the Board in ensuring that the overall objectives of the Bank in risk management are achieved.

The composition of RMC is as follows:

En. Ismail bin Mahbob (Chairman)
Y.Bhg. Dato’ Mohd Sallehuddin bin Othman (Member)
Y. Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani (Member)

The RMC shall meet at least once every quarter.

The RMC held six (6) meetings during the financial year ended 31 March 2021.

The details of attendance of each member at the RMC meetings held during the financial year ended 31 March 2021 are as follows:

RMC Member	Number of Meetings	
	Held	Attended
En. Ismail bin Mahbob <i>Chairman</i>	6	6
Y.Bhg. Dato’ Mohd Sallehuddin bin Othman <i>Member</i>	6	6
Y.Bhg. Datuk Seri Dr. Nik Norzrul Thani bin N. Hassan Thani <i>Member</i>	6	6

The RMC’s functions and responsibilities are to oversee the managing of key risk areas of the Bank covering credit risk, market risk, liquidity risk, operational risk, legal and compliance risk and information security risk; and to ensure that the risk management process is in place and is functioning effectively. Its responsibilities include the review of risk policies and risk tolerance. A comprehensive Risk Management Policy approved by the Board has been implemented. It also reviews and assesses the adequacy of risk management process to identify, measure, monitor, control and manage the overall risk profile of the Bank.

The RMC’s responsibilities and functions are:

Risk Governance

- to review and recommend risk management strategies, policies and risk tolerance for Board’s approval;
- to review and assess adequacy of risk management and compliance policies and framework in identifying, measuring, monitoring and controlling risks and the extent to which these are operating effectively;
- to review periodic reports from respective departments which include Risk Management Units, Compliance (including compliance issues), Housing Loan, Treasury, etc;
- to ensure infrastructure, resources and systems are in place for risk management and compliance i.e. ensure that the staff responsible for implementing risk management and compliance systems and performing those duties independently of the Bank’s risk taking activities;
- to oversee the formal development of policies (including Credit risk, Market risk, Liquidity risk and Operational risk policies, Compliance related policies etc.) within the Bank, encompassing all products and businesses and ensuring the development of policy manual and procedures;
- to execute oversight role regarding implementation of the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”);

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(d) Risk Management Committee (“RMC”) (Contd)

The RMC’s responsibilities and functions are: (Contd)

Risk Governance (Contd)

- to approve credit transactions with connected parties based on Guidelines on Credit Transactions and Exposures with Connected Parties (at least 2 non-executive Directors who are independent of the transaction) as delegated by the Board;
- to adhere to the BNM’s ‘Risk Management in Technology (RMiT) Guidelines’, including but not limited to Part B Policy requirements clause 8 Governance item 8.1 to 8.6 on Responsibilities of the Board of Directors, item 10.41 and 10.51 on effective oversight on Third Party service provider and cloud services;
- to adhere to items 28.2 under Section 28 of BNM’s Anti-Money Laundering and Counter Financing of Terrorism (“AML/CFT”) – Banking and Deposit-Taking Institutions (Sector 1) Guideline;
- to provide input to the design and implementation of the remuneration system to ensure that risk exposures and risk outcomes are adequately considered;
- to approve the appointment, performance review and remuneration, and dismissal of the Chief Risk Officer (“CRO”); and
- to provide constructive challenge to Senior Management and critically review the risk information and developments affecting the Bank.

Risk Strategy

- to evaluate and assess the adequacy of strategies to manage the overall risk associated with the Bank’s activities;
- to ensure strategies, policies and procedures of the ICAAP as well as internal capital target, trigger and risk appetite are reviewed annually under a formal review process that is well documented;
- to ensure that the capital management policies and activities are effectively integrated into the overall risk management framework;
- to recommend to the Board on the appropriateness and suitability of the risk appetite; and
- to review the capital planning and funding strategy.

Risk Management & Control

- to review management’s periodic reports on risk exposures, risk portfolio composition and risk management activities, adherence to risk appetite; and the implementation of risk management and compliance policies, processes, and controls within the Bank in managing the key risks to the Bank as well as emerging risks;
- to monitor, assess and advise on the credit risk portfolio composition of the Bank;
- to evaluate risks under stress scenarios and the capacity of the Bank’s capital to sustain such risks;
- to assess the risk-return trade-off;
- to review reports of the credit review process, asset quality and ensure that corrective action is taken;
- to review and evaluate the various credit products engaged by the Bank to ensure that it is conducted within the standards and policies set by the Board;

CORPORATE GOVERNANCE (CONTD)

BOARD COMMITTEES (CONTD)

(d) Risk Management Committee (“RMC”) (Contd)

The RMC’s responsibilities and functions are: (Contd)

Risk Management & Control (Contd)

- to evaluate and assess risk concerning development and introduction of new products and services;
- to review and evaluate business continuity management and processes;
- to oversee capital quantification and scenario analysis methodologies;
- to review the IT risk management framework of the Bank;
- to review the Bank’s Single Counterparty Exposure Limit (“SCEL”);
- to review the Threshold Limits for Business Sectors;
- to oversee the risk management for Islamic banking;
- to ensure that the cyber security risk of the Bank is properly managed; and
- to at least annually, evaluate the effectiveness of the Bank’s overall management of compliance risk, having regard to the assessments of senior management and internal audit, as well as interactions with the Chief Compliance Officer (“CCO”).

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK

The risk management within the Bank is governed by a risk management and internal control framework, which sets out the risk management governance and infrastructure, risk management processes and control responsibilities. In the Bank, effective risk management is inculcated by a risk awareness culture across all levels of staff in the Bank through effective communication, training, clear policies and procedures as well as organisational structure, which clearly defined roles and responsibilities of all employees.

The adequacy and effectiveness of the risk management and internal control framework are subject to periodic review by the Bank’s control functions including Risk Management, Internal Audit and Compliance to ensure continuous improvements in operational efficiency while taking into consideration changes in risk appetite, external environment and regulatory requirements.

Notwithstanding the risk management and internal control framework that have been put in place, they provide reasonable, but not absolute assurance that the Bank will not be adversely affected by any event that may be reasonably foreseen.

Overall Risk Management Policy

The risks faced by the Bank are broadly divided into two categories:

- credit and market risks that are inherent in our profit-seeking activities; and
- risks associated with the Bank’s operations.

The Bank’s goal is to achieve a balance between earnings and risks. For this purpose, the Bank has instituted an integrated Risk Management Policy to identify, measure, monitor, control and manage risks using consistent standards and techniques in each of the Bank’s business.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

Outline of risk management and control responsibilities:

- the Board is ultimately responsible for the management of risks; the Board through the RMC maintains overall responsibility for risk oversight of the Bank;
- the RMC oversees Senior Management’s functions in managing the key risk areas of the Bank in order to ensure that the risk management process is in place and functioning effectively. The Committee is responsible for the risk oversight for the major areas of risk covering credit risk, market risk, liquidity risk, operational risk and information security risk. Its responsibilities also include the review and recommendation of the risk management strategies, policies and risk tolerance. It also reviews and assesses adequacy of risk management policies and framework in identifying, measuring, monitoring, controlling and managing the overall risk; and
- dedicated independent risk management and control committees are responsible for identification, monitoring of risks and monitoring of compliance with the risk policies.

The independent risk management committees which comprise members of the management team, relevant heads of department and chaired by CRO are as follows:

- (a) Assets & Liabilities Management and Market Risk Committee
- (b) Operational Risk Management and Control Committee (“ORMCC”)
- (c) Credit Risk Management Committee (“CRMC”)

The AC, supported by Internal Audit Department (“IAD”), is to provide an independent assessment of the adequacy and reliability of the risk management processes, and compliance with risk policies and regulatory guidelines of the above risk management committees.

The Shariah Committee is responsible to provide Shariah decisions, views and opinions relating to Islamic financial business of the Bank including the endorsement of product-related documentation and Shariah-related policies and procedures.

The Bank has established, within its risk management policy, a structured approach to enterprise wide risk management which balances risk and return, and integrates risk management processes for credit risk, market risk, liquidity risk, operational risk and information security risk for more effective risk management. The risk management process is categorised into the following processes:

- Risk Identification, Assessment and Measurement; and
- Risk Control, Mitigation and Monitoring.

(a) CREDIT & CORPORATE RISK MANAGEMENT

(i) Risk Identification, Assessment and Measurement

- A comprehensive Credit Rating system is used to grade the quality of loans/financing and track changes in credit risk profile of the loan portfolio;
- An independent assessment of loans/financing applications are performed by the holding company;
- Calculate the Expected Credit Loss (“ECL”) on Bank’s portfolio based on approved methodology, processes, tools and requirements under MFRS 9 *Financial Instruments* ;
- Regular review of watch list borrowers and delinquent accounts are conducted to monitor progress of recovery;
- Formulate stress scenario and conduct the stress testing of Bank’s portfolio to gauge the Bank’s capability to absorb external shocks arising from hypothetical adverse stress scenarios;
- Reverse stress testing is conducted annually to identify unviable scenarios and potential vulnerable areas; and
- Under ICAAP, the material risk assessment is conducted annually and perform the Bank’s internal capital adequacy assessment process, under both normal and stress scenarios, over the next 3 years.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

(a) CREDIT & CORPORATE RISK MANAGEMENT (Contd)

(ii) Risk Control, Mitigation and Monitoring

- Credit Policy documents the core credit processes including the process of credit risk rating and collateral policy;
- Impairment Policy documents the general requirements for classification of credit-impaired loans/financing and provisioning and the circumstances under which loans/financing can be rescheduled/restructured/written off;
- Analysis and reporting to the Board/RMC/CRMC on the loans/financing exposure, asset quality, concentration level, movement of credit-impaired loans and expected credit losses of credit portfolio;
- Review of counterparty limits of money market activities, foreign exchange activities and other business activities;
- Review of Internal Capital Adequacy Assessment Process was performed by Regional Risk Office, ARMO;
- SCEL Policy documents the requirements in managing and monitoring exposures to a single counterparty and persons connected to it; and
- Periodic monitoring and reporting of Risk Appetite Statements (“RAS”) limits/thresholds set on key risk exposures.

(b) MARKET RISK MANAGEMENT

(i) Risk Identification, Assessment and Measurement

- Mark-to-market technique is used to revalue marketable securities, equities, interest rate and foreign currency positions; and
- Exposures such as position size, Value-at-Risk and loss amounts are computed as a measurement of market risks.

(ii) Risk Control, Mitigation and Monitoring

- The market risk limits are set after taking into consideration the risk appetite of the Bank and the risk-return relationship;
- Market risk exposures of both the trading and banking book positions are monitored against pre-determined market risk limits;
- Both the utilisation and compliance status of market risk limits are regularly reported to Assets & Liabilities Management and Market Risk Committee by the Market Risk Management Department (“MRMD”);
- Regular reviews on interest rate outlook, vulnerability of net interest income to movement in interest rates and development of strategies to mitigate interest rate risks;
- Changes in market value of investment and dealing securities due to interest rate movements are monitored and reported; and
- Stress testing of trading and banking portfolios are performed to test the Bank’s capability to absorb simulated shocks from market risk factors.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

(c) LIQUIDITY RISK MANAGEMENT

- (i) Risk Identification, Assessment and Measurement
 - The Bank’s assets and liabilities as well as off-balance sheet positions are included in liquidity risk measurement;
 - The primary tools for assessing liquidity risk are the maturity mismatch analysis, assessment on the concentration of funding and the availability of unencumbered assets; and
 - Establish Early Warning Indicators to identify potential warning signs in relation to the Bank’s funding liquidity risk position.
- (ii) Risk Control, Mitigation and Monitoring
 - Internal liquidity risk management limits are set;
 - Compliance with BNM’s Liquidity Coverage Ratio and internal liquidity risk management policy are monitored and reported to Assets & Liabilities Management and Market Risk Committee;
 - Liquidity contingency funding plans are in place and documented;
 - Monitoring of changes in the Bank’s funding structure, if any;
 - Stress testing of assets and liabilities are performed to test the Bank’s capability to absorb simulated shocks from liquidity risk factors; and
 - Monitoring and reporting of Liquidity Coverage Ratio requirements.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

(d) OPERATIONAL RISK MANAGEMENT

- (i) Risk Identification, Assessment and Measurement
 - Implementation and utilisation of Risk Control Self Assessment (“RCSA”) and Global Control Self Assessment (“GCSA”) process;
 - Implementation of Enterprise Governance Risk and Compliance (“E-GRC”) solution to automate the Operational Risk Management processes;
 - Review of new and existing procedures by ORMCC prior to implementation and approval;
 - Collecting Loss Event Data (“LED”) and analyse causes and preventative actions taken on losses from fraud and control lapses;
 - Review of systems and network confidentiality, integrity and availability;
 - Review of New and Existing Products and Services to identify and minimise risk;
 - Implementation and review of Business Continuity Management (“BCM”) Programme and coordinate simulation runs;
 - Implementation of System Risk Evaluation to identify and manage system risk;
 - Identify the potential Operational Risk based on the results of Self-Inspection findings, RCSA, GCSA and Outsourcing review activities; and
 - Development of Shariah Risk Register to assist in risk identification for Islamic business transactions.
- (ii) Risk Control, Mitigation and Monitoring
 - Procedures and methods established to control and mitigate operational risk;
 - Regular risk and Key Risk Indicator (generic/specific “KRI” of Business Units and BNM’s Operational Risk Integrated Online Network) reporting on operational risk matters via ORMCC and RMC;
 - Implementation of periodic User ID and Access Management review process in adherence to the principle of segregation of duties, independent checks, segmented system access control and multi-tier authorisation processes;
 - Implementation of Post Incident Reporting process to review the effectiveness of countermeasures committed to minimise risk of operational incidents and to identify weaknesses in operational processes and procedures;
 - Implementation of Annual Review on Products and Services to manage and minimise risk;
 - Execution of Testing and Exercising as planned in ensuring back-up procedures and contingency plans are up-to-date;
 - Review on the Outsourcing Management process to manage risks from service providers on outsourced operations;
 - Overall assurance on the adequacy and reliability of the operational risk management system by IAD; and
 - Analyse and monitor countermeasures of Self-Inspection findings to minimise operational risk.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

- (e) INFORMATION SECURITY RISK MANAGEMENT
- (i) Risk Identification, Assessment and Measurement

- Use of self-assessment checklist;
 - Review of Information Security Incident reports to identify weaknesses in Information Security processes and procedures; and
 - Periodic risk assessment of risk register guided by IT Risk Framework to manage IT and cybersecurity risks.
- (ii) Risk Control, Mitigation and Monitoring

- Review and report on information security discussed at regular meetings of IT Steering Committee (“ITSC”) chaired by Head of Operations, System and Planning Unit;
 - Exceptions will be reported to ORMCC and RMC regularly;
 - Comprehensive and up-to-date documentation of Information Security Standards and Procedures; and
 - Periodic assessment against the cybersecurity maturity standards.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

- (f) COMPLIANCE AND LEGAL RISK MANAGEMENT
- (i) Risk Identification, Assessment and Measurement

- Compliance Risk Assessment (“CRA”) is performed utilising CRA tools for determining the key areas of compliance focus, allocation of compliance resources and deployment of compliance monitoring, testing and training;
 - Established compliance risk assessment plan and schedule from applicable compliance risk universe;
 - Determination of residual risk and risk ratings by utilising a standardised methodology (including taking into consideration the business activity) in a consistent manner; and
 - Comprehensive risk assessment is performed annually with quarterly refresh.
- (ii) Risk Control, Mitigation and Monitoring

- Implement Core Compliance Policies and Financial Crime Policies consistent with Group’s direction and local regulation;
 - Develop and maintain regulatory inventory, i.e. to keep track on changes to laws, rules and regulations “LRR” that may result in changes to the Bank’s risk profile and operation;
 - Conduct periodic monitoring and testing based on key focus areas and/or triggered events;
 - Inform Senior Management regarding key issues and concerns around compliance related events and development;
 - Implement issue management guidelines to enable effective identification, escalation, reporting and remediation of compliance and legal issues;
 - Raise compliance awareness through training and various compliance culture programs;
 - Adopt the strategy of constructive engagement with regulatory authorities;
 - Regulatory compliance team that provides compliance advice to the business areas as well as assisting to resolve regulatory issues; and
 - Legal team that provides legal advice to the business.

CORPORATE GOVERNANCE (CONTD)

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK (CONTD)

Overall Risk Management Policy (Contd)

Internal Audit

Internal Audit is an independent and objective function to assist the AC of the Board in discharging the responsibilities defined in the terms of reference of the AC. Reviews are conducted on the operations, activities, systems, procedures and practices of the Bank and reports on the findings are submitted with recommendations to the AC. Such reporting serves to provide the desired status of independence for the Internal Auditors to determine adequate coverage of audit and to be impartial and unbiased in performing audit examinations.

In carrying out its responsibilities, the IAD has full, free and unrestricted access to all activities, records, property and personnel. The Internal Auditors are encouraged to be consulted for advice such as to provide comments based on lessons learnt from past audit experience which could be beneficial when new systems are planned to be introduced incorporating significant changes in internal control processes and standards. Such advice does not exempt the subjects from being audited subsequently for possible additional improvements.

Internal Audit is governed by the policies and objectives of the Bank, applicable laws and regulations such as the FSA 2013, IFSA 2013, BNM’s Guidelines on Minimum Audit Standards for Internal Auditor of Financial Institutions and the Institute of Internal Auditors’ International Standards for Professional Practice of Internal Auditing.

Responsibilities

Internal Audit is entrusted with the responsibility to appraise the appropriateness and effectiveness of the internal control system of the Bank’s operations, activities, systems, procedures and practices and for advising Management on their condition. The Department will include the evaluation of the following in its scope of work to effectively discharge its responsibilities:

- Compliance with internal policies, applicable laws and regulations;
- Adequacy and effectiveness of risk management, internal controls and governance process;
- Appropriateness of Management’s approach to risk and control in relation to the Bank’s objectives;
- Reliability, integrity and continuity of the information technology, payment systems and electronic delivery channels;
- Adequacy and effectiveness of the system of assessing capital and robustness of stress testing procedures;
- Reliability, integrity and timeliness of regulatory reporting, accounting records, financial reports and management information;
- Adequacy and effectiveness of anti-money laundering measures;
- Compliance with Shariah principles as determined by the Shariah Committee;
- Provide independent assurance on the adequacy and effectiveness of departments entrusted to oversee the compliance function and responsible for oversight of the risk management function;
- Conduct ad-hoc/special assignments/reviews as requested by Management or AC;
- Planning audit assignments and presenting the annual audit plan for approval by AC; and
- Monitor progress of rectification actions by auditees.

CORPORATE GOVERNANCE (CONTD)

SHARIAH COMMITTEE (“SC”)

The Bank’s SC was established to ensure that the Bank’s Islamic banking objectives and operations, business, affairs and activities are in compliance with Shariah rules and principles. The roles and responsibilities of the Bank’s SC are as prescribed in the Shariah Governance Policy Document issued by BNM and in compliance with the respective members’ letter of appointment.

The key roles and responsibilities of the SC include:

- To advise and provide input to the Board on Shariah matters including regular update or reporting, and attending the Board meeting whenever required by the Board;
- To advise the Bank on Shariah matters in ensuring the Bank’s Islamic banking operations comply with Shariah principles at all times;
- To endorse Shariah and other relevant policies and procedures for Islamic banking operations and to ensure that the contents are Shariah compliant;
- To approve the Bank’s Islamic banking products including the relevant documentations as follows:
 - (i) the terms and conditions contained in the forms, contracts, agreements or legal documentations used in executing the transactions; and
 - (ii) the product manuals, advertisements, sales illustrations and brochures used to describe the product.
- To perform an oversight role on Shariah compliance related matters to the Bank’s Islamic banking operations including assessing the work carried out by Shariah Review and Shariah Audit to ensure Shariah compliance;
- To provide report as part of the Bank’s annual report on the state of Shariah compliance by confirming the appropriate tests, procedures and review works have been performed;
- To provide necessary assistance on Shariah matters to the Bank’s related parties such as legal, compliance, auditors or consultants etc. in ensuring Shariah compliance;
- To advise on matters to be referred to the Shariah Advisory Council (“SAC”) of BNM and/or SAC of Securities Commission Malaysia (“SCM”) for matters that could not be resolved (whenever necessary); and
- To provide written Shariah opinions in circumstances where the Bank makes reference to the SAC of BNM and/or SAC of SCM for further deliberation, or where the Bank submits applications to BNM for new product approval as outlined in BNM guidelines.

The SC of the Bank consists of four (4) members and their profiles are as follows:

Assoc. Prof. Dr. Abdul Karim bin Ali

Associate Professor Dr. Abdul Karim obtained his Bachelor of Shariah (First Class Honours) from the University of Malaya in 1990 and Ph.D in Islamic Studies from the University of Edinburgh, Scotland in 1996. At present, he is a lecturer at the Academy of Islamic Studies, University of Malaya. Previously, he was the Deputy Director (Undergraduate) at the Academy of Islamic Studies, University of Malaya (2010-2014) and the Head of Fiqh and Usul Fiqh Department at the Academy of Islamic Studies, University of Malaya (2009-2010). He has been a member of the SC of the Bank since 2008.

DIRECTORS’ REPORT

CORPORATE GOVERNANCE (CONTD)

SHARIAH COMMITTEE (“SC”) (CONTD)

Assoc. Prof. Dr. Syed Musa bin Syed Jaafar Alhabshi

Associate Professor Dr. Syed Musa obtained his Diploma in Business Studies from Ngee Ann Polytechnic, Singapore in 1984, Bachelor of Business Administration (First Class Honours) from the International Islamic University Malaysia (“IIUM”) in 1989 and Doctor in Business Administration (“DBA”) from University of Strathclyde, Glasgow, United Kingdom in 1994. At present he is a lecturer at the IIUM Institute of Islamic Banking and Finance (“IiBF”). Previously, he was the Dean of the IiBF, and Dean of Graduate School of Business, University Tun Abdul Razak. Currently, he serves as a member of Shariah Supervisory Council of Labuan Financial Services Authority since 2014. He has served as a member of Shariah Advisory Council of Securities Commission Malaysia (“SAC”) from 2017 until 2020. He had also served as Accounting and Auditing Standards Committee of Accounting and Auditing Organization for Islamic Financial Institutions (“AAOIFI”) and was engaged as consultant to Islamic Financial Services Board (“IFSB”) Transparency and Market Discipline standard. He has been a member of the SC of the Bank since 2012.

Prof. Dato’ Dr. Mohd Azmi Omar

Professor Dato’ Dr. Mohd Azmi obtained his Bachelor of Science (Finance) in 1983 and Master of Business Administration from the Northern Illinois University, United States of America in 1985 and PhD in Finance from the Bangor University, Wales, United Kingdom in 1994. At present, he is the President and Chief Executive Officer at International Centre for Education in Islamic Finance (INCEIF) - The Global University of Islamic Finance since October 2017. Prior to his current position, he served as the Director-General at Islamic Research and Training Institute (“IRTI”), Islamic Development Bank Group, Jeddah, Kingdom of Saudi Arabia. He is a member of Board of Trustees of Responsible Finance Institute (RFI Foundation and formerly a member of the External Advisory Group for the International Monetary Fund (“IMF”) Interdepartmental Working Committee on Islamic Finance. He accumulated vast experiences in International Islamic University Malaysia (IIUM), having served in various capacities including Deputy Rector (Academic & Research), Dean of IIUM Institute of Islamic Banking and Finance (IiBF) and Dean of Faculty of Economics and Management Sciences. Currently, he also serves as a member of Shariah Committee to Bank Rakyat Malaysia and Etiqa Takaful Malaysia and an Islamic Finance Expert to the Autoriti Monetari Brunei Darussalam. He has been a member of the SC of the Bank since June 2020.

Assoc. Prof. Dr. Mohamad Zaharuddin Zakaria

Associate Professor Dr. Mohamad Zaharuddin obtained his Bachelor of Shariah and Judiciary (First Class Honours) from Universiti Sains Islam Malaysia (“USIM”) in 2005 and Master of Islamic Judiciary from University of Jordan in 2008 and PhD in Fiqh and Usul Fiqh from the International Islamic University Malaysia (“IIUM”) in 2014. At present, he is a lecturer at the Faculty of Shariah and Law, USIM. He also serves as the Coordinator of the Centre for Awqaf and Zakat, USIM. Currently, he serves as a member of SC at Bank Simpanan Nasional. He has been a member of the SC of the Bank since June 2020.

The SC shall meet at least two (2) times a year.

The SC held five (5) meetings during the financial year ended 31 March 2021.

REMUNERATION STRATEGY

The Bank’s Remuneration Policy, which has been endorsed by the Bank’s Remuneration Committee and approved by the Board, applies across the Bank and acts as a guiding principle in relation to the design and management of our remuneration programs.

The overall purpose of the Reward Philosophy is to attract, motivate and retain high-performing individuals in a manner that supports robust governance in line with MUFG’s risk appetite; is aligned with MUFG’s business strategy, objectives, values and long term interests and ensure the franchise is sustainable and that the Bank’s financial resources are aligned to the principles of safety and soundness.

In order to achieve this, MUFG’s remuneration programs are designed around the following core principles:

- **Pay for Performance**
There shall be a link between performance and remuneration to identify and reward top performance. Performance measurements include both the “what” and the “how”.
- **Total Compensation**
Remuneration is to be determined and evaluated on a Total Compensation basis, including Base Salary, Fixed Allowance and discretionary Variable Pay.
- **Align to MUFG’s Values**
Remuneration decisions shall be linked to and support MUFG’s values.

CORPORATE GOVERNANCE (CONTD)

REMUNERATION STRATEGY (CONTD)

In order to achieve this, MUFG's remuneration programs are designed around the following core principles: (Contd)

- **Support Prudent Risk Taking**
Ensure that remuneration arrangements are designed to appropriately balance risk and financial results in a manner that does not encourage employees to expose the firm to excessive or imprudent risk.
- **Market Competitive**
Provide awards that are competitive and attractive in the market place.
- **Fair and Transparent**
Employees are to be treated fairly and remuneration decisions should be made free from any form of discrimination and/or inequity. The approach to remuneration shall be transparent, clearly communicated and well understood.
- **Regulatory Compliance and Governance**
Remuneration arrangements must comply with all applicable regulatory and legal requirements.

(a) COMPONENTS OF REMUNERATION

CORPORATE GOVERNANCE (CONTD)

REMUNERATION STRATEGY (CONTD)

(a) COMPONENTS OF REMUNERATION (CONTD)

The Discretionary Variable Pay is paid in the following financial year. Adding the Fixed Pay given in the financial year to the Discretionary Variable Pay, the Total Compensation is computed.

Fixed pay	Consist of Annual Base Pay, Contractual Bonus (unionised employees) and Fixed Allowances	<ul style="list-style-type: none">● MUFG has the ability to pay across the full Peer Group Market Range; and● MUFG Fixed Pay strategy employs a long term approach to determine desired pay levels for each role considering the said role's Fixed Pay market position and preceding years' Performance Reviews:<ul style="list-style-type: none">i. Consistent Exceptional Performers can have a target pay at the upper end of the Market Range, andii. Consistent Poor Performers can have a target pay at the lower end of the Market Range.
Variable pay	Payable annually through cash bonus	<ul style="list-style-type: none">● Discretionary Variable Pay will be differentiated towards top performers to ensure Total Compensation reflects their performance for the year. Discretionary Variable Pay should be differentiated enough to reward top performers but still align to MUFG's values and does not encourage employees to expose the firm to excessive or imprudent risk;● Discretionary Variable Pay are not linked to current Fixed Pay or Base Salary levels;● Discretionary Variable Pay are differentiated at a Department and Individual Level based on performance;● Discretionary Variable Pay to be awarded during Annual Review Process exercise;● Discretionary Variable Pay are not guaranteed and subject to employees' performance and the Bank's overall financial performance;● Poor Performers at the lowest rating to receive zero variable pay; and● To safeguard the independence and authority of individuals engaged in control functions, MUFG shall ensure that the remuneration of such individuals is based principally on the achievement of control functions objectives, and determined in a manner that is independent from the business lines they oversee.

(b) MEASUREMENT OF PERFORMANCE

The Bank's performance is determined in accordance with a balanced scorecard which includes key measures on profitability, cost, capital, shareholder's return, medium to long-term strategic initiatives, as well as, audit and compliance positions.

The Bank's key measures are cascaded to the business units and functions accordingly, and subsequently to the Key Performance Indicator ("KPI") scorecards of individuals.

For each employee in the Bank, performance is tracked through KPIs of Standardised Bank Performance Management Format in a balanced scorecard. In addition to financial targets, KPIs in the balanced scorecard could include measures or customer experience, risk management and operational efficiency process controls, audit and compliance findings, as well as development related measures.

At the end of the year, performance of each individual is then holistically assessed through the Bank's performance management framework which is based on the balanced scorecard and the individual's competencies.

DIRECTORS' REPORT

CORPORATE GOVERNANCE (CONTD)

REMUNERATION STRATEGY (CONTD)

(c) DETERMINATION OF VARIABLE REMUNERATION

Based on the Bank's performance, the Management will determine the overall variable remuneration pool taking into consideration key performance measures. The Bank's pool will be allocated by the Management to the business units and function based on their respective performance and adjustment in view of market relevance of the employment remuneration.

Variable remuneration of each individual employee is determined based on individual assessment and the adequacy of bonus pool allocated to the business unit function to which the individual belongs.

The control functions of Audit, Compliance and Risk functions operate independently from the business units in the Bank, and have appropriate authority to carry out their individual functions without intervention from the business units. To prevent conflict of interest, remuneration of employees in these control functions are not dictated by business units that they support. Remuneration of the CEO, CRO, CCO and CIA are approved by the Board and the relevant Board Committees.

(d) DIRECTORS' REMUNERATION

This is disclosed in Note 34 of the financial statements.

(e) REMUNERATION DISCLOSURE FOR SENIOR MANAGEMENT AND OTHER MATERIAL RISK TAKERS

Total value of remuneration awards for the financial year	31 March 2021			31 March 2020		
	Unrestricted	Deferred	Number of Officers	Unrestricted	Deferred	Number of Officers

There are no shares and share linked instruments granted to Senior Management and other material risk takers during the financial year.

DIRECTORS' REPORT

RELATED PARTY TRANSACTIONS

Payments made on services rendered by the holding company are on documented contractual terms and there is no related party transaction with the Board of Directors or Senior Management.

This is disclosed in Note 27 of the financial statements.

RATING BY EXTERNAL RATING AGENCIES

On 22 December 2020, RAM Rating Services Berhad has assigned the Bank a long-term rating of AA1 and a short-term rating of P1 with stable outlook.

COMPLIANCE WITH BNM'S EXPECTATIONS ON FINANCIAL REPORTING

In the preparation of the financial statements, the Directors have taken reasonable steps to ensure that BNM's expectations on financial reporting have been complied, including those as set out in the Guidelines on Financial Reporting.

INDEMNITY AND INSURANCE

The Directors and Officers of the Bank are covered by Directors and Officers liability insurance for any liability incurred in the discharge of their duties, provided that they have not acted fraudulently or dishonestly or derived any personal profit or advantage. The total amount of indemnity taken by the Bank is RM7.0 million (2020: RM 7.0 million).

OTHER STATUTORY INFORMATION

Before the financial statements of the Bank were made out, the Directors took reasonable steps to ascertain that:

- (i) all known bad debts have been written off and adequate provision made for doubtful debts; and
- (ii) any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- (i) that would render the amount written off for bad debts or the amount of the provision for doubtful debts of the Bank inadequate to any substantial extent; or
- (ii) that would render the value attributed to current assets in the financial statements of the Bank misleading; or
- (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Bank misleading or inappropriate; or
- (iv) not otherwise dealt with in this report or financial statements that would render any amount stated in the financial statements of the Bank misleading.

At the date of this report, there does not exist:

- (i) any charge on the assets of the Bank that has arisen since the end of the financial year and which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Bank that has arisen since the end of the financial year.

No contingent liability or other liability of the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Bank to meet its obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Bank for the financial year ended 31 March 2021 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

DIRECTORS' REPORT

AUDITORS

The auditors, KPMG PLT, have indicated their willingness to accept re-appointment.

The auditors' remuneration is disclosed in Note 33 to the financial statements.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors on 30 August 2021.

Y.Bhg. Dato' Mohd Sallehuddin bin Othman
Director

STATUTORY DECLARATION

PURSUANT TO SECTION 251(1)(B) OF THE COMPANIES ACT 2016

I, Fumio Takamatsu, the Director primarily responsible for the financial management of MUFG Bank (Malaysia) Berhad, do solemnly and sincerely declare that the financial statements set out on pages 59 to 154 are, to the best of my knowledge and belief, correct and I make this solemn declaration conscientiously believing the declaration to be true, and by virtue of the provisions of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by the abovenamed Fumio Takamatsu, passport no: TZ1147314, at Kuala Lumpur in the Federal Territory on 30 August 2021.

Fumio Takamatsu
Director

Before me:

SHARIAH COMMITTEE REPORT

In the name of Allah, the Most Gracious, the Most Merciful. All praise is due to Allah, prayers and peace be upon Prophet and Messenger Muhammad S.A.W., his kin and his companions.

In carrying out the roles and responsibilities as the Shariah Committee of MUFG Bank (Malaysia) Berhad as prescribed in the Shariah Governance Policy Document issued by Bank Negara Malaysia (“the SGP”), the Bank’s policy on Shariah governance and terms of reference of the Shariah Committee, we hereby submit our Shariah Committee Report for the financial year ended 31 March 2021.

In accordance to the SGP, it is the responsibility of the Bank’s Management to ensure that the Bank’s Islamic banking operations, business, affairs and activities are in accordance with the Shariah rules and principles. As the Bank’s Shariah Committee, it is our responsibility to provide an independent view on the status of Shariah compliance conduct of the Islamic banking operations and to produce this report.

For the financial year ended 31 March 2021, the Shariah Committee has held five (5) meetings to review various products, dealings, contracts, policies, procedures and related transactions which were presented by the Bank’s Shariah unit who had examined the adherence of such undertakings in conformity to the Shariah requirements.

We have also performed the oversight role on the Shariah control functions of Shariah review, Shariah risk management and Shariah audit functions in ensuring that the Bank’s Islamic banking operations comply with the Shariah principles and rulings issued by the Shariah Advisory Council of Bank Negara Malaysia as well as the committee’s Shariah policy endorsement and product approval.

In discharging our duties, we had obtained all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Bank has complied with the Shariah rules and principles in all transactions that has been presented to us with regard to Islamic banking operations and business activities.

Pursuant to the above, we, the Shariah Committee of Bank, in consideration of continuous improvements on several areas by the management, are of the view that:

- 1 the products, dealings, contracts, policies, procedures and related transactions proposed and entered into by the Bank during the financial year ended 31 March 2021 are generally in compliance with the Shariah rules and principles;
- 2 the allocation of profits and charging of losses relating to investment accounts conform to the basis that had been approved by us in accordance with Shariah principles;
- 3 no earning has been realised from sources or by means prohibited by the Shariah principles within the financial year; and
- 4 the Bank is not required to pay zakat for the financial year ended 31 March 2021 because its shareholder has no obligation to do so.

Based on the above considerations, observations and deliberations, we, the Shariah Committee of MUFG Bank (Malaysia) Berhad, do hereby confirm that, at our level best with continuous management efforts to improve, express our view that the Islamic banking operations and business activities of the MUFG Bank (Malaysia) Berhad for the financial year ended 31 March 2021 have, in general, been conducted in conformity with the Shariah rules and principles.

As we seek Allah S.W.T. guidance and mercy, we pray for the right path and success in the Bank’s endeavor.

Assoc. Prof. Dr. Abdul Karim bin Ali
Chairman of the Shariah Committee

Assoc. Prof. Dr. Syed Musa bin Syed Jaafar Alhabshi
Member of the Shariah Committee

Kuala Lumpur, Malaysia

Date: 30 August 2021

INDEPENDENT AUDITORS’ REPORT

TO THE MEMBERS OF MUFG BANK (MALAYSIA) BERHAD (Registration No. 199401016638 (302316-U))(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of MUFG Bank (Malaysia) Berhad, which comprise the statement of financial position as at 31 March 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 59 to 154.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Bank as at 31 March 2021, and of its financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors’ Responsibilities for the Audit of the Financial Statements* section of our auditors’ report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Bank in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ *International Code of Ethics for Professional Accountants (including International Independence Standards)* (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors’ Report Thereon

The Directors of the Bank are responsible for the other information. The other information comprises the information included in the Directors’ Report and Shariah Committee’s Report, but does not include the financial statements of the Bank and our auditors’ report thereon.

Our opinion on the financial statements of the Bank does not cover the Directors’ Report and Shariah Committee’s Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Bank, our responsibility is to read the Directors’ Report and Shariah Committee’s Report and, in doing so, consider whether the Directors’ Report and Shariah Committee’s Report is materially inconsistent with the financial statements of the Bank or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the Directors’ Report and Shariah Committee’s Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Bank are responsible for the preparation of financial statements of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Bank, the Directors are responsible for assessing the ability of the Bank to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Bank or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT (CONTD)

TO THE MEMBERS OF MUFG BANK (MALAYSIA) BERHAD (Registration No. 199401016638 (302316-U))(Incorporated in Malaysia)

Report on the Audit of the Financial Statements (Contd)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Bank as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Bank.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Bank to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Bank, including the disclosures, and whether the financial statements of the Bank represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

This report is made solely to the members of the Bank, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS

MUFG Bank (Malaysia) Berhad is a limited liability company, incorporated and domiciled in Malaysia. The address of the principal place of business and registered office of the Bank is Level 9-10, Menara IMC, No. 8 Jalan Sultan Ismail, 50250 Kuala Lumpur, Malaysia.

The principal activities of the Bank during the year are banking and related financial services including Islamic Banking business. There has been no significant change in the nature of the principal activities during the financial year.

The Bank is a subsidiary of MUFG Bank, Ltd. and Mitsubishi UFJ Financial Group, Inc. ("MUFG"), which are incorporated in Japan, and regarded by the Directors as the Bank's immediate holding and ultimate holding company, during the financial year and until the date of this report.

These financial statements were authorised for issue by the Board of Directors on 30 August 2021.

1. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements of the Bank have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The following are accounting standards, interpretations and amendments of the MFRSs that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Bank:

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 June 2020

- Amendment to MFRS 16, *Leases – Covid-19-Related Rent Concessions*

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2021

- Amendments to MFRS 9, *Financial Instruments*, MFRS 139, *Financial Instruments: Recognition and Measurement*, MFRS 7, *Financial Instruments: Disclosures*, MFRS 4, *Insurance Contracts* and MFRS 16, *Leases – Interest Rate Benchmark Reform – Phase 2*

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 April 2021

- Amendment to MFRS 16, *Leases – Covid-19-Related Rent Concessions beyond 30 June 2021*

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2022

- Amendments to MFRS 1, *First-time Adoption of Malaysian Financial Reporting Standards (Annual Improvements to MFRS Standards 2018-2020)*
- Amendments to MFRS 3, *Business Combinations – Reference to the Conceptual Framework*
- Amendments to MFRS 9, *Financial Instruments (Annual Improvements to MFRS Standards 2018-2020)*
- Amendments to Illustrative Examples accompanying MFRS 16, *Leases (Annual Improvements to MFRS Standards 2018-2020)*
- Amendments to MFRS 116, *Property, Plant and Equipment – Proceeds before Intended Use*
- Amendments to MFRS 137, *Provisions, Contingent Liabilities and Contingent Assets – Onerous Contracts – Cost of Fulfilling a Contract*
- Amendments to MFRS 141, *Agriculture (Annual Improvements to MFRS Standards 2018-2020)*

1. BASIS OF PREPARATION (CONTD)

(a) Statement of compliance (Contd)

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2023

- MFRS 17, *Insurance Contracts*
- Amendments to MFRS 101, *Presentation of Financial Statements – Classification of Liabilities as Current or Non-current and Disclosures of Accounting Policies*
- Amendments to MFRS 108, *Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Accounting Estimates*
- Amendments to MFRS 112, *Income Taxes – Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

MFRSs, interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, *Consolidated Financial Statements* and MFRS 128, *Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The Bank plans to apply the abovementioned accounting standards, interpretations and amendments:

- from the annual period beginning on 1 April 2021 for the amendment that is effective for annual periods beginning on or after 1 June 2020;
- from the annual period beginning on 1 April 2021 for those amendments that are effective for annual periods beginning on or after 1 January 2021;
- from the annual period beginning on 1 April 2022 for those amendments that are effective for annual periods beginning on or after 1 April 2021;
- from the annual period beginning on 1 April 2022 for those amendments that are effective for annual periods beginning on or after 1 January 2022, except for amendments to MFRS 3, *Business Combinations – Reference to the Conceptual Framework* and amendments to MFRS 141, *Agriculture (Annual Improvements to MFRS Standards 2018–2020)* which are not applicable to the Bank; and
- from the annual period beginning on 1 April 2023 for the accounting standard and amendments that are effective for annual periods beginning on or after 1 January 2023, except for MFRS 17, *Insurance Contracts* which is not applicable to the Bank.

The initial application of the accounting standards, amendments and interpretations are not expected to have any material financial impact to the current period and prior period financial statements of the Bank.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis, unless otherwise indicated in Note 2.

(c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia (“RM”), which is the Bank’s functional currency. All financial information is presented in RM and has been rounded to the nearest thousand (“RM’000”), unless otherwise stated.

1. BASIS OF PREPARATION (CONTD)

(d) Use of estimates and judgements

The preparation of the financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than as follows:

(i) Fair value estimation of loans, advances and financing and embedded loans measured at fair value through profit or loss (“FVTPL”)

The fair values are estimated based on future expected cash flows of contractual instalment payments, discounted at applicable and prevailing rates at reporting date. Fair values for loans and embedded loans are determined based on external party valuation method (Note 41).

(ii) Impairment allowance on financial assets

Expected credit losses (“ECLs”) are outputs of complex models with a number of underlying assumptions. The significant judgements in determining ECL include:

- The Bank’s criteria for assessing if there has been a significant increase in credit risk;
- Grouping of similar financial assets for the purposes of measuring ECL;
- Internal credit grading model, which assigns Probability of Defaults (“PD”) to the individual grades;
- Development of ECL models, including the choice of inputs relating to macroeconomic variables;
- Determination of associations between macroeconomic scenarios and economic inputs;
- Selection of forward-looking macroeconomic scenarios and their probability weightings; and
- Determination of loss given default (“LGD”) in the ECL model.

In determining lifetime ECL credit impairment for financial assets which are credit-impaired, management considers objective evidence of impairment and exercises judgement in estimating cash flows and collateral value.

(iii) Selection of cover deals for embedded loans measured at fair value through profit or loss (“FVTPL”)

Cover deals are identified from the existing outstanding interbank deals in the main trading portfolio. The significant judgements in selecting cover deals include:

- Matching of interest rate risk, currency basis risk, tenor basis risk or other risks that are defined under Market Risk Limits;
- Segregation of tenor bucket;
- Sensitivity analysis; and
- Determination of net open position between embedded loan risk and cover deals risk within the stipulated risk limit.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

(a) Recognition of Interest and Financing Income and Expense

Interest and financing income and expense are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest rate includes all transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

Interest and financing income and expense presented in the statement of profit or loss and other comprehensive income include:

- interest and financing on financial assets and financial liabilities measured at amortised cost calculated on an effective interest basis; and
- interest and financing on financial assets at fair value through other comprehensive income calculated on an effective interest basis.

Interest and financing on all trading assets and liabilities were considered to be incidental to the Bank’s trading operations and were presented together with all other changes in the fair value of trading assets and liabilities in other operating income.

Interest and financing on other financial assets and financial liabilities carried at FVTPL were presented in interest income and net income from financial instruments at FVTPL.

Once a financial asset or group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(b) Recognition of Fees and Other Income

Loan/Financing processing and arrangement, management and participation fees, commissions, referral and service charges/ fees are recognised as income when the related services are performed and conditions precedent are fulfilled.

Commitment fees and guarantee fees which are material are recognised as income over time based on the commitment period.

(c) Investment Income

Investment income comprises gains less losses related to financial assets and liabilities, and includes all realised and unrealised fair value changes, gain or loss on disposal, interest, dividends and foreign exchange differences.

(d) Dividend Income

Dividend income is recognised in profit or loss on the date that the Bank’s right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

(e) Net Income from Other Financial Instruments measured at Fair Value through Profit or Loss

Net income from other financial instruments measured at FVTPL relates to non-trading derivatives that do not form part of qualifying hedging relationships, financial assets and financial liabilities designated as at FVTPL and non-trading assets mandatorily measured at FVTPL. The line item includes fair value changes, interest and foreign exchange differences.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(f) Financial Instruments

(i) Recognition and initial measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Bank becomes a party to the contractual provisions of the instrument.

A financial asset or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance.

An embedded derivative is recognised separately from the host contract where the host contract is not a financial asset, and accounted for separately if, and only if, the derivative is not closely related to the economic characteristics and risks of the host contract and the host contract is not measured at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

(ii) Financial instrument categories and subsequent measurement

The Bank categorises and measures financial instruments as follows:

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost, FVOCI - debt investment, FVOCI - equity investment or FVTPL.

Categories of financial assets are determined on initial recognition and not reclassified subsequent to their initial recognition unless the Bank changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt investments at FVOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Equity investments at FVOCI

On initial recognition of an equity investment that is not held for trading, the Bank may irrevocably elect to present subsequent changes in the investment’s fair value in OCI. This election is made on an investment-by-investment basis.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(f) Financial Instruments (Contd)

(ii) Financial instrument categories and subsequent measurement (Contd)

Financial assets (Contd)

Financial assets at FVTPL

All other financial assets not measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Business model assessment

The Bank makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management’s strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Bank’s management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and interest (“SPPI”)

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ or ‘profit’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Bank considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Bank’s claim to cash flows from specified assets (e.g. non-recourse features).

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(f) Financial Instruments (Contd)

(ii) Financial instrument categories and subsequent measurement (Contd)

Financial assets (Contd)

Assessment whether contractual cash flows are solely payments of principal and interest (“SPPI”) (Contd)

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Contractually linked instruments

The Bank has some investments in securitisations that are considered contractually linked instruments. Contractually linked instruments each have a specified subordination ranking that determines the order in which any cash flows generated by the pool of underlying investments are allocated to the instruments. Such an instrument meets the SPPI criterion only if all of the following conditions are met:

- the contractual terms of the instrument itself give rise to cash flows that are SPPI without looking through to the underlying pool of financial instruments;
- the underlying pool of financial instruments (i) contains one or more instruments that give rise to cash flows that are SPPI; and (ii) may also contain instruments, such as derivatives, that reduce the cash flow variability of the instruments under (i) and the combined cash flows (of the instruments under (i) and (ii)) give rise to cash flows that are SPPI; or align the cash flows of the contractually linked instruments with the cash flows of the pool of underlying instruments under (i) arising as a result of differences in whether interest rates are fixed or floating or the currency or timing of cash flows; and
- the exposure to credit risk inherent in the contractually linked instruments is equal to or less than the exposure to credit risk of the underlying pool of financial instruments.

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets (see Note 2(g)(i)) where the effective interest rate is applied to the amortised cost.

Debt investments at FVOCI

Fair value through other comprehensive income category comprises debt investment where it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the debt investment, and its contractual terms give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding. The debt investment is not designated as at fair value through profit or loss. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit-impaired financial assets (see Note 2(g)(i)) where the effective interest rate is applied to the amortised cost.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(f) Financial Instruments (Contd)

(ii) Financial instrument categories and subsequent measurement (Contd)

Financial assets (Contd)

Assessment whether contractual cash flows are solely payments of principal and interest ("SPPI") (Contd)

• Equity investments at FVOCI

This category comprises investment in equity that is not held for trading, and the Bank irrevocably elects to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of investment. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are not reclassified to profit or loss.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Bank changes its business model for managing financial assets.

All financial assets, except for those measured at fair value through profit or loss and equity investments measured at fair value through other comprehensive income, are subject to impairment assessment (see Note 2(g)(i)).

Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

• Fair value through profit or loss

Fair value through profit or loss category comprises financial liabilities that are derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument), contingent consideration in a business combination and financial liabilities that are specifically designated into this category upon initial recognition.

On initial recognition, the Bank may irrevocably designate a financial liability that otherwise meets the requirements to be measured at amortised cost as at fair value through profit or loss:

- (a) if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise;
- (b) a group of financial liabilities or assets and financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the Bank's key management personnel; or
- (c) if a contract contains one or more embedded derivatives and the host is not a financial asset in the scope of MFRS 9, where the embedded derivative significantly modifies the cash flows and separation is not prohibited.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(f) Financial Instruments (Contd)

(ii) Financial instrument categories and subsequent measurement (Contd)

Financial liabilities (Contd)

• Fair value through profit or loss (Contd)

Financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair value with gains or losses, including any interest expense are recognised in the profit or loss.

For financial liabilities where it is designated as fair value through profit or loss upon initial recognition, the Bank recognises the amount of change in fair value of the financial liability that is attributable to change in credit risk in the other comprehensive income and remaining amount of the change in fair value in the profit or loss, unless the treatment of the effects of changes in the liability's credit risk would create or enlarge an accounting mismatch.

• Amortised cost

Other financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective interest method.

Interest expense and foreign exchange gains and losses are recognised in the profit or loss. Any gains or losses on derecognition are also recognised in the profit or loss.

(iii) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantees issued are initially measured at fair value. Subsequently, they are measured at higher of:

- the amount of the loss allowance; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance to the principles of MFRS 15, *Revenue from Contracts with Customers*.

Liabilities arising from financial guarantees are presented together with other provisions.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(f) Financial Instruments (Contd)

(iv) Regular way purchase or sale of financial assets

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the market place concerned.

A regular way purchase or sale of financial assets is recognised and derecognised, as applicable, using trade date or settlement date accounting.

Trade date accounting refers to:

- (a) the recognition of an asset to be received and the liability to be paid for it on the trade date; and
- (b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

Settlement date accounting refers to:

- (a) the recognition of an asset on the day it is received by the Bank, and
- (b) derecognition of an asset and recognition of any gain or loss on disposal on the day that is delivered by the Bank.

Any change in the fair value of the asset to be received during the period between the trade date and the settlement date is accounted in the same way as it accounts for the acquired asset.

Generally, the Bank applies trade date accounting unless otherwise stated for the specific class of asset.

(v) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Bank currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and liability simultaneously.

(vi) Derecognition

Financial assets

The Bank derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Bank enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Financial liabilities

The Bank derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Bank also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(g) Impairment

(i) Financial assets

• Financial Instruments

The Bank recognises loss allowances for expected credit losses on financial assets measured at amortised cost, debt investments measured at FVOCI, financial guarantee contracts issued and loan commitment issued. Expected credit losses ("ECL") are a probability-weighted estimate of credit losses.

The Bank measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- (a) debt securities that are determined to have low credit risk at the reporting date; and
- (b) other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Bank considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the informed credit assessment and including forward-looking information.

The Bank assumes that the credit risk on a financial asset has increased significantly if the credit ratings downgraded by one notch as compared to the last reporting date.

The Bank considers a financial asset to be in default when:

- (a) principal or interest or both are past due for 90 days or more; or
- (b) where an impaired loan has been rescheduled or restructured, the loan will continue to be classified as impaired until repayments based on the revised and/or restructured terms have been observed continuously for a period of six (6) months.

The Bank considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'. The Bank considers this to be Ba2 or higher (for Japanese corporates) and B1 or higher (for Global corporates) per Moody's.

12-month ECLs are the portion of ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Financial instruments for which 12-month ECL is recognised are referred to as 'Stage 1 financial instruments'.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. Financial instruments for which a lifetime ECL is recognised but which are not credit-impaired are referred to as 'Stage 2 financial instruments'.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(g) Impairment (Contd)

(i) Financial assets (Contd)

• Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. They are measured as follows:

- (a) financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Bank expects to receive);
- (b) financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows less any collateral withheld by the Bank;
- (c) undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the Bank if the commitment is drawn down and the cash flows that the Bank expects to receive; and
- (d) financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Bank expects to recover.

• Credit-impaired financial assets

At each reporting date, the Bank assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- (a) significant financial difficulty of the borrower or issuer;
- (b) a breach of contract such as a default or being more than 90 days past due;
- (c) the restructuring of a loan or advance by the Bank on terms that the Bank would not consider otherwise;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for a security because of financial difficulties.

A loan/financing that has been renegotiated due to deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered credit-impaired even when the regulatory definition of default is different.

• Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Loss allowances for off-balance sheet items measured at amortised cost are added on the gross carrying amount of other liabilities.

For debt securities at FVOCI, the ECL allowance is charged to profit or loss and is recognised in OCI.

• Write-off

The gross carrying amount of a financial asset is written off when the Bank has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Bank has a policy of writing off the gross carrying amount when the financial asset is 180 days past due based on historical experience of recoveries of similar assets. For corporate customers, the Bank individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Bank expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Bank's procedures for recovery of amounts due.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(g) Impairment (Contd)

(ii) Other assets

At the end of each reporting date, the Bank reviews the carrying amounts of its other assets (other than deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating unit ("CGU").

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or its related CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(h) Property, Plant and Equipment

(i) Recognition and measurement

Freehold land and capital work in progress are stated at cost. Other items of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and is recognised net within "other operating income" and "other operating expenses" respectively in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Bank, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Subsequent to recognition, property, plant and equipment except for freehold land are measured at cost less accumulated depreciation and any accumulated impairment losses. Freehold land is not depreciated.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(h) Property, Plant and Equipment (Contd)

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment from the date that they are available for use. Freehold land is not depreciated. Capital Work-in-Progress are not depreciated until the assets are ready for their intended use. The estimated useful lives for the current and comparative periods are as follows:

Buildings and leasehold improvements	6 - 50 years
Computer equipment	5 years
Furniture, fixtures and equipment	4 - 20 years
Motor vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed at end of the reporting period, and adjusted as appropriate.

(i) Leases

(i) Definition of lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Bank assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Bank allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Bank is a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(i) Leases (Contd)

(ii) Recognition and initial measurement

As a lessee

The Bank recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Bank's incremental borrowing rate. Generally, the Bank uses incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments less any incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Bank is reasonably certain to exercise; and
- penalties for early termination of a lease unless the Bank is reasonably certain not to terminate early.

The Bank excludes variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Bank has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Bank recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(iii) Subsequent measurement

As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Bank's estimate of the amount expected to be payable under a residual value guarantee, or if the Bank changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(j) Foreign Currency Transactions

Transactions in foreign currencies are translated to the functional currency of the Bank at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting period, except for those that are measured at fair value which are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of equity instruments where they are measured at fair value through other comprehensive income or a financial instrument designated as a cash flow hedge, which are recognised in other comprehensive income.

(k) Income Tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax assets and liabilities on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(l) Employee Benefits

(i) Short-term employee benefits

Short-term employee benefits obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

(ii) Defined contribution plans

The Bank's contributions to statutory pension funds are charged to profit or loss in the financial year to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(l) Employee Benefits (Contd)

(iii) Defined benefit plans

The Bank's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefits that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Bank, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprises actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, exclude interest) are recognised immediately in other comprehensive income. The Bank determines the net interest expense or income on the net defined liability or asset for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability or asset, taking into account any changes in the net defined benefit liability or asset during the period as a result of contributions and benefit payments.

Net interest expense and other expenses relating to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Bank recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(m) Cash and Short-Term Funds

Cash and short-term funds consist of notes and coins on hand, unrestricted balance held with BNM and deposits and placements with financial institutions maturing within three months that are readily convertible into cash without significant risk of changes in value.

Cash and short-term funds are carried at amortised cost in the statement of financial position in accordance with Note 2(f)(ii).

(n) Sukuk

Sukuk is a debt security issued by the Bank and classified as a financial liability in accordance with the substance of the contractual terms of the instrument. Such financing transaction is reflected as a liability in the statement of financial position.

Sukuk is carried at amortised cost in the statement of financial position in accordance with Note 2(f)(ii).

(o) Obligations on Securities Sold under Repurchase Agreements

Obligations on securities sold under repurchase agreements are securities which the Bank had sold from its portfolio, with a commitment to repurchase at future dates. Such financing transactions and the obligation to repurchase the securities are reflected as a liability in the statement of financial position.

Obligations on securities sold under repurchase agreements are carried at amortised cost in the statement of financial position in accordance with Note 2(f)(ii).

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(p) Provisions

A provision is recognised if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(q) Intangible Assets

Intangible assets, comprising computer software that are not an integral part of a tangible asset, are measured at cost less any accumulated amortisation and any accumulated impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 2(g)(ii). Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to such assets will flow to the Bank and the costs of such assets can be measured reliably.

Amortisation is based on cost of an asset less its residual value. Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The estimated useful lives for the current and comparative periods for the computer software are 5 years. Capital Work-in-Progress are not amortised until the assets are ready for their intended use.

(r) Contingencies

(i) Contingent assets

When an inflow of economic benefit of an asset is probable where it arises from past events and where existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, the asset is not recognised in the statements of financial position but is being disclosed as a contingent asset. When the inflow of economic benefit is virtually certain, then the related asset is recognised.

(ii) Contingent liabilities

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is not recognised in the statement of financial position and is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(s) Earnings Per Ordinary Share

Earnings per ordinary share ("EPS") is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD)

(t) Fair Value Measurements

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

When one is available, the Bank measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Bank uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

When measuring the fair value of an asset or a liability, the Bank uses observable market data as far as possible. Fair value is categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Bank can access at the measurement date.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability

The Bank recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

<i>At amortised cost</i>		
Cash collaterals placed	330,340	160,214
The cash collaterals placed are recognised at amortised cost. These deposits are placed in respect of derivative balances pursuant to agreements in accordance with International Swaps and Derivatives Association ("ISDA") and Credit Support Annex ("CSA") entered into with respective counterparties and related companies. Included in CSA balance is Nil (2020: RM948,000) transacted with a related company.		
Cash collaterals received	16,930,535	19,630,557

The cash collaterals received are recognised at amortised cost. These are received in respect of derivative balances pursuant to agreements in accordance with ISDA and CSA entered into with respective counterparties and related companies, and Cash Collateral Scheme entered into with a branch of the holding company and related companies amounting to RM16,904,624,000 (2020: RM19,488,714,000). Included in CSA balance are RM872,000 (2020: Nil) transacted with a related company.

NOTES TO THE FINANCIAL STATEMENTS

11. DERIVATIVE FINANCIAL ASSETS / LIABILITIES

The table below shows the Bank's derivative financial instruments measured at their fair value together with their corresponding contract/notional amounts as at the reporting date. The notional amounts of these derivative financial instruments refer to the underlying contract values on which changes in the fair value of the derivatives are measured. The notional amounts indicate the volume of transactions outstanding at the end of the financial year but are not indicative of either the market risk or credit risk inherent in the derivative contracts. The risks associated with the use of derivative financial instruments, as well as management's policy for managing these risks are set out in Note 40 to the financial statements.

	31.03.2021			31.03.2020

12. STATUTORY DEPOSITS WITH BANK NEGARA MALAYSIA

The non-interest bearing statutory deposits are maintained with Bank Negara Malaysia ("BNM") in compliance with Section 26(2)(c) of the Central Bank of Malaysia Act, 2009, the amounts of which are determined as a set percentage of total eligible liabilities.

Effective from 20 March 2020 until 31 December 2022, holdings of Malaysian Government Securities ("MGS") and Malaysian Government Investment Issues ("MGII") may be recognised as part of the SRR compliance, per BNM's Statutory Reserve Requirement ("SRR") policy document. As at 31 March 2021, RM80 million of MGS has been recognised as part of SRR compliance.

13. OTHER ASSETS

	31.03.2021 RM'000	31.03.2020 RM'000

Modification	317	-
Depreciation	(3,563)	(3,556)
Derecognition	(96)	(63)
At 31 March	6,218	8,907

The right-of-use assets of the Bank comprised solely of lease on office buildings and other dwellings.

Extension options

Some leases of office buildings and dwellings contain extension options exercisable by the Bank up to one year before the end of the non-cancellable contract period. Where applicable, the Bank seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Bank and not by the lessors. The Bank assesses at lease commencement whether it is reasonably certain to exercise the extension options. The Bank reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its control.

Significant judgements and assumptions in relation to leases

The Bank assesses at lease commencement by applying significant judgement whether it is reasonably certain to exercise the extension options. The Bank considers all facts and circumstances including its past practice and any cost that will be incurred to change the asset if an option to extend is not taken, to help it determine the lease term.

The Bank also applied judgement and assumptions in determining the incremental borrowing rate of the respective leases. The Bank first determines the closest available borrowing rates before using significant judgement to determine the adjustments required to reflect the term, security, value or economic environment of the respective leases.

NOTES TO THE FINANCIAL STATEMENTS

17. DEFERRED TAX ASSETS/(LIABILITIES)

	31.03.2021 RM'000	31.03.2020 RM'000
At 1 April	9,078	(27,261)

NOTES TO THE FINANCIAL STATEMENTS

20. OTHER LIABILITIES

		31.03.2021 RM'000	31.03.2020 RM'000
Provision for retirement benefits	(i)	31,267	30,135
Impairment allowances on commitments and contingencies	(ii)		
• Stage 1 - 12-months ECL		390	1,303
• Stage 2 - lifetime ECL not credit-impaired		2,258	241
• Stage 3 - lifetime ECL credit-impaired		-	717
Accrued interest payable		8,158	10,793
Bills payable		3,885	8,038
Other payables and accruals		67,203	141,182
		113,161	192,409

(i) Provision for retirement benefits

The Bank operates an unfunded defined benefit plan which ended with effect from financial year ended 2018. Actuarial valuation of the plan was performed in April 2018 and is revalued once in three years starting from financial year beginning 1 April 2018. An actuarial valuation was performed for the financial year ended 31 March 2021.

The obligation under defined benefit plan is determined by a professionally qualified independent actuary based on actuarial assumptions using Projected Unit Credit Method. Such determination is made based on the present value of expected cash flows of benefits to be paid in the future taking into account the actuarial assumptions, including salaries, turnover rate, mortality rate, years of service and other factors.

Movements in provision for retirement benefits are as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
At 1 April	30,135	29,129
Included in profit or loss (Note 33)		
Current service cost	2,697	2,682
Interest cost	1,535	1,422
	4,232	4,104
Included in other comprehensive income (Note 37)		
Remeasurement loss		
- Actuarial loss arising from:		
• Experience adjustments	(2,038)	-
	(2,038)	-
Others		
Benefits paid	(906)	(3,098)
Provision written back	(156)	-
	(1,062)	(3,098)
At 31 March	31,267	30,135

Principal actuarial assumptions at the end of the reporting period (expressed as weighted average):

	31.03.2021 %	31.03.2020 %
Discount rate	3.8	5.0
Expected rate of salary increment	5.0	6.0

At 31 March 2021, the duration of the defined benefit obligation was 7.8 years (2020: 7.1 years).

NOTES TO THE FINANCIAL STATEMENTS

20. OTHER LIABILITIES (CONTD)

(i) Provision for retirement benefits (Contd)

Sensitivity analysis

Reasonably possible changes at the reporting date to the following relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	Defined Benefit Obligation	
	Increase RM'000	Decrease RM'000
31.03.2021		
Discount rate (1% movement)	(2,198)	2,500
Rate of salary (1% movement)	2,493	(2,238)

31.03.2020

Discount rate (1% movement)	(2,396)	2,739
Rate of salary (1% movement)	2,329	(2,079)

The sensitivity results above determine their individual impact on the Plan's end of period defined benefit obligation. In reality, the Plan is subject to multiple external experience items which may move the defined benefit obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

(ii) Movements in impairment allowances on commitments and contingencies which reflect the ECL model on impairment are as follows:

	12-months ECL	Lifetime ECL		Total RM'000
		Not credit-impaired	Credit-impaired	
	Stage 1 RM'000	Stage 2 RM'000	Stage 3 RM'000	
At 1 April 2020	1,303	241	717	2,261
Transfer to 12-Months ECL (Stage 1)	2	(61)	(61)	(120)
Transfer to lifetime ECL not credit-impaired (Stage 2)	(171)	1,015	-	844
New financial assets originated	373	1,239	-	1,612
Financial assets derecognised (other than write-off)	(801)	(152)	(656)	(1,609)
Net remeasurement due to changes in credit risk	(316)	(24)	-	(340)

	31.03.2021 RM'000	31.03.2020 RM'000
<i>At amortised cost</i>		
Sukuk	250,000	-

The sukuk was issued on 26 March 2021 under a USD500.0 million nominal value multi-currency program with a profit rate of 2.88% under the Islamic Shariah principle of Wakalah Bi Al-Istithmar and is guaranteed by the holding company. The sukuk will mature on 24 March 2023.

23. OBLIGATION ON SECURITIES SOLD ON REPURCHASE AGREEMENTS

	31.03.2021 RM'000	31.03.2020 RM'000
Obligation on securities sold on repurchase agreements	303,494	-

This relates to cross currency repurchase agreement for off-balance sheet items.

24. SHARE CAPITAL

	Number of Ordinary Shares		Amount	
	31.03.2021 '000	31.03.2020 '000	31.03.2021 RM'000	31.03.2020 RM'000
Issued and fully paid-up ordinary shares	200,000	200,000	200,000	200,000

Ordinary shares

The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Bank.

NOTES TO THE FINANCIAL STATEMENTS

25. RESERVES

	31.03.2021 RM'000	31.03.2020 RM'000
Non-distributable		
Fair value reserve	27,509	26,714
Expected credit loss reserve	346	349
Defined benefit reserve (a)	(4,252)	(5,801)
Regulatory reserve (b)	103,731	107,284
Distributable		
Retained profits	3,273,025	2,963,159
	3,400,359	3,091,705

- (a) The defined benefit reserve is in respect of actuarial gains and losses arising from remeasurement of the Bank's defined benefit plan as disclosed in Note 20 of the financial statements.
- (b) The regulatory reserve in Malaysia is in compliance with BNM's Revised Policy Documents on Financial Reporting with effect from 1 January 2018, whereby the Bank must maintain, in aggregate, impairment allowance for non credit-impaired exposures (Stage 1 and Stage 2 ECL) and regulatory reserve of no less than 1% of total credit exposures, net of impairment allowance exposures.

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

27. RELATED PARTY TRANSACTIONS AND BALANCES (CONTD)

(b) Related party transactions and balances (Contd)

Related companies refer to the holding companies and its subsidiaries as listed below:

Company	Relationship
Mitsubishi UFJ Financial Group Inc.	Ultimate holding company
MUFG Bank, Ltd.	Immediate holding company
MUFG Bank (Europe) N.V.	Subsidiary of immediate holding company
MUFG Bank (China), Ltd.	Subsidiary of immediate holding company
Bank of Ayudhya PCL	Subsidiary of immediate holding company

Interest rates on advances and current accounts were at normal commercial rates.

The intercompany charges paid to the holding companies and its subsidiaries are relating to other operating expenses as follows:-

Company	Type of Services	Country	31.03.2021 RM'000	31.03.2020 RM'000
MUFG Bank, Ltd	Agency service	Japan	-	4
	Professional fees	Japan	1,131	-
	Website maintenance service	Japan	947	969
	Information technology services	Japan	4,185	4,618
MUFG Bank, Ltd, USA Branch	Information technology services	USA	3	-
MUFG Bank, Ltd, Singapore Branch	Professional fees	Singapore	-	25
			6,266	5,616
Other operating expenses also included realised interest arising from derivatives transactions of:			104,351	189,683

(c) Credit transactions and exposures with connected parties

Credit transactions and exposures to connected parties includes the extension of credit facilities and/or off-balance sheet credit exposures such as guarantees, trade related facilities and loan commitments. It also includes holdings of equities and private debt securities issued by the connected parties.

The credit transactions with connected parties are all transacted on an arm's length basis and on terms and conditions no more favourable than those entered into with other counterparties with similar circumstances and creditworthiness. Due care has been taken to ensure that the creditworthiness of the connected party is not less than that normally required of other persons.

	31.03.2021 RM'000	31.03.2020 RM'000
Outstanding credit exposures with connected parties	375,564	664,079
Total credit exposures	36,429,388	31,807,979
Percentage of outstanding credit exposures to connected parties		
• as a proportion of total credit exposures	1.0%	2.1%
• as a proportion of total capital	10.7%	20.5%

There are currently no exposures to connected parties which are classified as impaired.

NOTES TO THE FINANCIAL STATEMENTS

38. EARNINGS PER SHARE

The earnings per ordinary share of the Bank have been calculated based on the profit for the year of RM306,313,000 (2020: RM158,794,000) and on the number of ordinary shares in issue during the year of 200,000,000 (2020: 200,000,000).

39. CAPITAL ADEQUACY

(a) The capital adequacy ratios of the Bank are as follows:

	31.03.2021 %	31.03.2020 %
Common equity Tier 1 ("CET 1") capital ratio	28.697	22.565
Tier 1 capital ratio	28.697	22.565
Total capital ratio	29.704	23.559

The capital adequacy ratios consist of total capital and risk-weighted assets derived from balances of the Bank and are computed in accordance with BNM's Guidelines on Capital Adequacy Framework (Capital Components and Basel II - Risk Weighted Assets) ("CAF"). The Bank adopted the Standardised Approach for Credit Risk and Market Risk, and the Basic Indicator Approach for Operational Risk.

The minimum regulatory capital adequacy requirements including capital conservation buffer for the following capital ratios are:

CET 1 Capital Ratio	7.00 %
Tier 1 Capital Ratio	8.50 %
Total Capital Ratio	10.50 %

(b) The components of CET 1, Tier 1 and total capital of the Bank are as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
<u>CET 1 and Tier 1 capital</u>		
• Paid-up ordinary share capital	200,000	200,000
• Retained profits	3,273,025	2,963,159
• Other reserves	127,334	128,546
	3,600,359	3,291,705
Less: Deferred tax assets	(7,299)	(9,078)
Intangible assets	(94,988)	(60,955)
55% of fair value reserve	(15,130)	(14,693)
Regulatory reserve	(103,731)	(107,284)
	3,379,211	3,099,695
<u>Tier 2 capital</u>		
• Stage 1 and 2 ECL and regulatory reserve	118,637	136,494
Total Capital	3,497,848	3,236,189

NOTES TO THE FINANCIAL STATEMENTS

39. CAPITAL ADEQUACY (CONTD)

(b) The components of CET 1, Tier 1 and total capital of the Bank are as follows (Contd):

Capital Management

The Bank's capital management is guided by its risk appetite and outlines the Bank's objective to diversify its sources of capital and to allocate capital efficiently, directed by the need to maintain a prudent relationship between available capital and risks in the underlying businesses to meet the expectations of key constituencies, including the holding company and BNM.

The capital target for the total capital ratio is above the minimum regulatory capital requirements and has factored in the expected capital required under the current and future operating environment to support the credit, market and operational risks as well as the Bank's business growth.

(c) The breakdown of the risk-weighted assets by each major risk category is as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
Credit risk	9,490,988	11,053,705
Market risk	1,419,545	1,875,255
Operational risk	865,055	807,598
	11,775,588	13,736,558

Detailed disclosures on risk exposures above, as prescribed under BNM's Guidelines on Risk-Weighted Capital Adequacy Framework (Basel II) - Disclosure Requirements (Pillar 3) and Capital Adequacy Framework for Islamic Banks (CAFIB) - Disclosure Requirements (Pillar 3) is presented in the Pillar 3 disclosures.

40. FINANCIAL RISK MANAGEMENT

(a) INTRODUCTION

The Bank has exposure to the following risks from financial instruments:

- Credit risk
- Market risk
- Liquidity risk
- Operational risk

The following note presents information about the Bank's exposures to each of the above risks, the Bank's objectives, policies and processes for measuring and managing risk and the Bank's management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the Bank's risk management framework. The Board has established the Risk Management Committee ("RMC"), which is responsible for developing and monitoring risk management policies in their specified areas. The RMC has both executive and non-executive members and reports regularly to the Board on their activities.

The Bank's risk management policies are established to identify and analyse the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Bank, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

The Audit Committee ("AC") is responsible for monitoring compliance with the Bank's risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Bank. The AC is assisted in these functions by the Internal Audit Department ("IAD"). IAD undertakes regular reviews of risk management controls and procedures, the results of which are reported to the AC.

40. FINANCIAL RISK MANAGEMENT (CONTD)**(a) INTRODUCTION (CONTD)****Financial Instruments by Categories**

The table below provides an analysis of financial instruments categorised as follows:

- (a) Amortised cost
- (b) Fair value through profit or loss ("FVTPL")
 - Mandatorily required by MFRS 9
 - Designated upon initial recognition ("DUIR")
- (c) Fair value through other comprehensive income ("FVOCI")
 - Equity instrument designated upon initial recognition ("EIDUIR")
 - Debt instrument ("DI")

The following table shows the carrying amounts of financial assets and financial liabilities:

	Amortised cost RM'000	Mandatorily at FVTPL RM'000	FVOCI - DI RM'000	FVOCI - EIDUIR RM'000

Risk Management Process

A sound risk management is essential to ensure the Bank's asset quality is maintained to the level and expectation of shareholders as well as to the satisfaction of regulators. This is to ensure that the shareholders interest is protected and the Bank continues to maintain a strong capital base to maximise lending under the single customer/group limit so that the Bank remains profitable whilst borrowers with good credit standing can continue to enjoy credit facilities with the Bank with competitive pricing.

The Bank's risk management strategies and processes are guided by its respective policies. The Credit Policy outlines the basic principles, features and conditions governing the approval, management and operations of credit facilities offered by the Bank. The Risk Management Policy stipulates the basic principles concerning the Bank's risk control and management. The Policy outlines the roles and responsibilities of the various management committees set up to assist the Board in overseeing that risk management functions are carried out efficiently and important matters are escalated to the Board through the RMC.

The RMC held its meetings on a quarterly basis. It is authorised by the Board to oversee the Bank's activities in managing credit, market, liquidity, operational, legal and other risks and to ensure that a risk management process is in place and functioning. Issues discussed in the RMC which have a significant bearing are informed to the Board at the next Board meeting.

40. FINANCIAL RISK MANAGEMENT (CONTD)

(b) CREDIT RISK

Credit risk is the risk of financial loss to the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Exposure to credit risk is managed through portfolio management. The credit portfolio’s risk profiles and exposures are reviewed and monitored periodically to ensure that an acceptable level of risk diversification is maintained. Exposure to credit risk is also managed in part by obtaining collateral security and corporate and personal guarantees.

Loans, Advances and Financing and Embedded Loans Measured at FVTPL

The Bank’s primary business is lending to business entities. The Bank is therefore mainly exposed to credit risk from loans, advances and financing to its corporate customers and has minimal or negligible exposure to its retail customers. In line with this business model, the Bank has a vast customer base with high demand for foreign exchange contracts and derivatives for hedging and outstanding balance of embedded loans purposes as well as trade financing related services due to their involvement in international trade business, i.e. imports and exports.

The Bank has credit exposures to most of the economic sectors but has some concentration in the sector of manufacturing, electricity, gas, water, transport, storage and communication, and finance, insurance, real estate and business services. The Bank nevertheless manages such concentration risk through the various risk management processes guided by the respective risk management policies and framework.

The maximum exposure to credit risk for the Bank amounts to RM22,020,479,000 (2020: RM26,268,689,000) for on-balance sheet exposures and RM8,596,195,000 (2020: RM8,420,159,000) for off-balance sheet exposures.

The Bank’s internal Credit Rating System is used for its internal credit assessment for evaluating the credit worthiness of a company prior to the extension of credit as well as for ongoing credit review. The Bank’s Credit Rating System is used as a tool in establishing an integrated risk management system as well. The system serves to objectively evaluate the overall quality (credit risk) of each borrower and credit portfolio and to improve credit and portfolio management. By quantification of credit risk, integrated control and management of risks is in place.

Credit rating is measured against a uniform scale so that each borrower can be comparable and expressed in a simplified and comparative sign. Credit rating is assigned to all borrowers which the Bank provides credit. Borrower ratings are divided into 15 grades (Ratings 1 to 10-2) in accordance with the current and projected level of a borrower’s debt-service capability. In this framework, each rating grade is defined by particular descriptions of “risk level” and “debt-service capability” but also clearly benchmarked to quantitative criteria – the probability of default within a certain period, by which the stability of the framework is secured.

Grades 1-2 (Ratings 1 to 2) indicate those borrowers whose capacity to meet financial obligations are deemed high and stable. Grades 3-5 (Ratings 3 to 5-1) indicate those borrowers whose capacity to meet financial obligations are deemed free of problems. Grades 6-8 (Ratings 5-2 to 6-2) indicate those borrowers whose capacity to meet short-term financial obligations are deemed free of problems. Grade 9 (Rating 7) indicates those borrowers whose capacity to meet financial obligations are deemed slightly insufficient.

Grades 10-12 (Ratings 8-1 to 8-3) indicate those borrowers perceived to have problems meeting their financial obligations either due to poor or unstable business performance or having problems with loan conditions. Grades 13-15 (Ratings 9 to 10-2) are those borrowers to whom losses are expected due to major debt repayment problems or having serious financial difficulties and may have the possibility of facing bankruptcy proceedings.

The Bank categorises borrowers with rating grades of 1-9 (Ratings 1 to 7) as normal grades. Borrowers with rating grades of 10-12 (Ratings 8-1 to 8-3) are identified and categorised under the “Close Watch” category where the Bank monitors the credits and business performance of these borrowers closely and formulates appropriate action plans to ensure the timely recovery of such credits, if deems necessary. The Bank through the Credit Risk Management Department (“CRMD”) reports action plans to the Credit Risk Management Committee.

The Bank conducts credit review on all its corporate customers to whom it provides credit. Credit review is conducted on an ongoing basis and/or when new information on the borrower becomes available. The Bank assigns a rating grade to each borrower after the credit review assessment is completed. The Bank, however, does not conduct credit review for individuals to whom the Bank provides credit but would assign a rating grades ranging from 13-15 (Ratings of 9 to 10-2) if the credits are classified as credit-impaired.

40. FINANCIAL RISK MANAGEMENT (CONTD)

(b) CREDIT RISK (CONTD)

Counterparty Credit Risk on Derivative Financial Instruments

Counterparty Credit Risk (“CCR”) on derivative financial instruments is the risk that the Bank’s counterparty in a foreign exchange, interest rate, commodity, equity, options or credit derivative contract defaults prior to maturity date of the contract and that the Bank at the relevant time has a claim on the counterparty. Derivative financial instruments entered are originated from customer-driven transactions. The Bank may also take trading derivative positions, within certain pre-set limits, with the expectation to make arbitrage gains from favourable movements in prices or rates.

Unlike on-balance sheet financial instruments, the Bank’s financial loss is not the entire contracted principal value of the derivatives, but rather a fraction equivalent to the cost to replace the defaulted derivative financial instruments with another similar contract in the market. The Bank will only suffer a replacement cost if the contract carries a fair value gain at time of default.

The CCR arising from all derivative financial instruments is managed via the establishment of counterparty limits and also managed as part of the overall lending limits to banks and customers based on BNM’s Single Counterparty Exposure Limit (“SCEL”). Where possible, Over-the-Counter (“OTC”) derivative financial instruments, especially Interest Rate Swaps and Options are transacted under master agreements, International Swaps and Derivatives Association (“ISDA”) and Credit Support Annex (“CSA”) agreements. ISDA allows for the close-out netting in the event of default by a counterparty and CSA provides credit protection with the requirements to post collateral usually in the form of cash or government securities upon any exposure above the agreed threshold levels.

All outstanding financial derivative positions are marked-to-market on a daily basis. Market Risk Management Department (“MRMD”) and Processing Department (“PRO”) monitor counterparties’ positions and promptly request the collateral upon any exposure above the agreed threshold levels with relevant parties. Where possible, the Bank settles its OTC derivatives via the Payment-versus-Payment (“PVP”) settlement method to further reduce settlement risk. For derivative financial instruments where the PVP settlement method is not possible, the Bank establishes settlement limits through the Bank’s credit approval process.

The tables on the following pages set out the credit risk concentration by economic sectors of the Bank’s total assets.

@ Cash and short-term funds excluding cash in hand.

40. FINANCIAL RISK MANAGEMENT (CONTD)

(b) CREDIT RISK (CONTD)

In the event of default, the loans would be classified as impaired only when they are overdue for a period of 90 days or more. For loans where no default had occurred but have objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial assets that can be reliably estimated and impairment losses will be incurred, that loans would be tagged as "credit-impaired".

A loan is defined as past due if the principal or interest is due and not paid. Where a loan is past due for a period of 90 days or more, the loan will automatically be tagged as "credit-impaired". This principle applies to both the corporate and retail portfolio. However, retail portfolio or loans to individuals are not subject to individual impairment provision but provisions are made on a portfolio basis.

Credit Quality of Gross Loans, Advances and Financing

Gross loans, advances and financing by grading are analysed as follows:

	31.03.2021				31.03.2020			
	Stage 1 RM'000	Stage 2 RM'000	Stage 3 RM'000	Total RM'000	Stage 1 RM'000	Stage 2 RM'000	Stage 3 RM'000	Total RM'000
Neither past due nor credit-impaired								
Normal grades	7,170,893	376,877	-	7,547,770	8,616,359	926,813	-	9,543,172
Close watch	-	463,023	-	463,023	-	-	-	-
Past due but not credit-impaired								
Normal grades	2,563	-	-	2,563	2,712	-	-	2,712
Credit-impaired								
Past due	-	-	643	643	-	-	698	698
Not past due	-	-	21	21	-	-	424,922	424,922
	7,173,456	839,900	664	8,014,020	8,619,071	926,813	425,620	9,971,504

Corporate loans, advances and financing are either secured by cash collateral schemes or unsecured. Although some are secured by corporate guarantees, it is impractical to estimate the fair values of the guarantees obtained. The Bank has minimal exposures to retail loans, which are mainly mortgage loans. All mortgage exposures are secured by landed properties with reasonably high security coverage ratio.

40. FINANCIAL RISK MANAGEMENT (CONTD)

(b) CREDIT RISK (CONTD)

Loans, Advances and Financing Past Due

Analysis of gross loans, advances and financing based on period overdue is as follows:

	Carrying Amount	
	31.03.2021 RM'000	31.03.2020 RM'000
Borrower's Ageing		
Past due 1 to 30 days	1,164	1,058
Past due 31 to 60 days	614	799
Past due 61 to 90 days	785	855
	2,563	2,712
Credit-impaired		
Past due 61 to 90 days	-	23
Past due more than 90 days	643	675
	643	698

Overlays and adjustments for expected credit loss amid COVID-19 environment

The current MFRS 9 methodology, macro models and processes are expected to reliably compute the expected credit losses ("ECL") attributable to conservatism being embedded into existing ECL parameters to ensure the credit loss is prudently calculated. It includes prudent Loss Given Default ("LGD"), Probability of Default ("PD") mapping, scaling factors etc. which are deemed sufficient to compute the ECL reliably. As such, no overlays and post-model adjustments have been applied to determine the overall level of ECLs for the financial year ended 31 March 2021.

	On-balance sheet (net of impairment)	
	31.03.2021 RM'000	31.03.2020 RM'000
Loans, advances and financing		
Retail and wholesale/trading, accommodation, travel agencies/tourism, airline/aviation, food and beverage services/restaurants	501,605	802,755

Similar industry sectors are presented for 31 March 2020 for comparative purposes.

40. FINANCIAL RISK MANAGEMENT (CONTD)

(b) CREDIT RISK (CONTD)

COVID-19 customer relief and support measures

During the year, a range of relief measures have been introduced to assist customers/borrowers hardest hit by the pandemic.

Automated moratorium (“blanket moratorium”) is regulatory relief measures introduced in April 2020, applied to retail and SMEs ringgit-denominated loans, advances and financing. Targeted moratorium was introduced after the expiry of blanket moratorium on 30 September 2020, specifically targeted customers/borrowers who have lost their job in 2020 or experienced a reduction in income. In November 2020, the targeted moratorium is extended to low-income and middle-income household which need repayment assistance. The granting of moratorium has not caused significant loss to the Bank as its major business segment focuses on corporates loans. Retail and SMEs loans are insignificant which accounted for only 5.39% of total gross loans, advances and financing, as of 31 March 2021.

Corporate borrowers/customers who opted for moratorium relief or support measures, has no balance outstanding with the Bank as at 31 March 2021.

Summary of relief and support measures for retail and non-retail customers as at 31 March 2021:

	Retail customers as at 31 March 2021			
	Mortgages RM'000	Hire purchase RM'000	Personal financing RM'000	Total RM'000
Total payment moratoriums, repayment assistances, rescheduling and restructuring (“R&R”) granted	11,747	512	33	12,292
Resumed repayments	8,843	504	27	9,374
Extended and repaying as per revised schedules	648	8	6	662
Missed payments	2,256	-	-	2,256
As a percentage of total:				
Resumed repayments	75%	98%	82%	76%
Extended and repaying as per revised schedules	6%	2%	18%	6%
Missed payments	19%	0%	0%	18%
	100%	100%	100%	100%

40. FINANCIAL RISK MANAGEMENT (CONTD)

(b) CREDIT RISK (CONTD)

Financial Investments

Investments are allowed only in liquid securities. Transactions involving derivative financial instruments are with counterparties with whom they have a signed netting agreement, if applicable as well as having high credit rating.

The maximum exposure to credit risk for the Bank amounts to RM1,336,503,000 (2020: RM1,372,824,000) for on-balance sheet exposures.

In view of the high credit rating of counterparties, the Bank does not expect any counterparty to fail to meet its obligations.

Other Financial Assets

Other financial assets include inter-company balances that are unsecured. There is no indication of assets not recoverable other than those which have already been provided for.

The maximum exposure to credit risk for the Bank amounts to RM9,240,257,000 (2020: RM5,967,668,000).

Risk Management Approach

The Bank adopts the Standardised Approach for Credit Risk and Basic Indicator Approach for Operational Risk under BNM’s CAF. As for Credit Risk Mitigation, the Bank adopts the Simple Approach.

Under the Standardised Approach, the Bank tags its borrowers as unrated and assigns a risk weight of 100% but adopts the external rating of External Credit Assessment Institutions (“ECAI”) of the borrowers if the particular borrower is externally rated, regardless of whether the external rating is favourable or not. The Bank recognises the names of the ECAI as allowed under BNM’s CAF, i.e. S&P, Moody’s, Fitch, RAM and MARC. As a general rule, external rating for one entity within a corporate group will not be used to risk weigh other entities within the same group.

In cases where a borrower or a security is rated by more than one ECAI, all the available external ratings of the borrower will be captured. Where 2 recognised external ratings are available, the lower rating is to be applied or where 3 or more recognised external ratings are available, the lower of the highest 2 ratings will be used for the capital adequacy calculation purposes.

The Bank tags its exposures to the Small and Medium Enterprises (“SMEs”) as exposures to corporate and the risk weight applicable to corporate should apply instead of tagging them as retail. This decision was made following the analysis of the impact on capital savings when Basel II was first implemented and the Bank still continues to adopt this approach as at the date of this report.

Credit Risk Mitigation

The Bank adopts the Simple Approach when applying Credit Risk Mitigation Techniques (“CRM”) for capital relief. The Bank will only take collateral instruments recognised under BNM’s CAF. Based on the Bank’s business model, the commonly used collateral are Cash and Standby Letters of Credit. Where guarantees are used as mitigation, only guarantees that are actually posted and/or provided under a legally enforceable agreement and where the rating of the underlying guarantors are externally rated with eligible risk weight lower than the borrowers will be used.

The main types of collateral obtained by the Bank to mitigate credit risk are as follows:

- (a) for corporate loans : secured by cash deposits, corporate guarantees and charges over properties or assets being financed.
- (b) for retail mortgages : charges over residential properties.
- (c) for derivatives : additional margin for exposures above the agreed threshold.

40. FINANCIAL RISK MANAGEMENT (CONTD)**(b) CREDIT RISK (CONTD)****Credit Risk Mitigation (Contd)**

The financial effect of collateral (quantification of the extent to which collateral and other credit enhancements mitigate credit risk) held for gross loans, advances and financing for the Bank as at 31 March 2021 are at 70.83% (2020: 69.63%) and 3.53% (2020: 3.87%) for collateral and other credit enhancements respectively.

A loan is defined as past due if the loan principal or interest is due and not paid. Where a loan or financing is past due for a period of 90 days or more, the loan or financing will automatically be tagged as 'credit-impaired'. This principle applies to both the corporate and retail portfolio. Retail portfolio or loans to individuals are subject to portfolio provisions.

(c) MARKET RISK

Market risk arises from the changes in value due to changes in interest rate yields, foreign exchange rates, equity prices, commodity prices, credit spreads (not relating to changes in the obligor's/issuer's credit rating) and the impact of changes in the correlations and volatilities of these risk factors. The objective of market risk management is to manage and control related risk exposure within acceptable parameters, while ensuring that earnings commensurate with the degree of risk exposure.

Market Risk Management Oversight and Organisation

The Board established a risk limit for each product within the risk measurement parameters, after consultation with the holding company.

On semi-annual basis, there will be a review for overall market risk limits including position and stop-loss limits by considering various factors, i.e. the Bank's capital, trading capability, profit target and etc.

The RMC supports the Board to oversee Senior Management's activities in managing market risk. Market Risk Committee ("MRC"), which reports to RMC, meets monthly to deliberate important matters related to the Bank's market risk, liquidity risk, operational risk and legal risk management.

There is a clear segregation of authorities and responsibilities among the Front, Middle and Back Offices with an aim to ensure the integrity, accuracy and transparency of the market risk information.

MRMD and PRO are the independent risk control units responsible for operating the day-to-day market risk management framework to support business growth while ensuring adequate risk control and oversight.

Market Risk Management and Control

As part of its market risk management activities, the Bank uses certain derivative financial instruments to manage interest rate and currency exposures and enhance the Bank's yield. The Bank maintains an overall interest rate risk management strategy that incorporates the use of interest rate contracts to minimise significant unplanned fluctuations in earnings that are caused by interest rate volatility.

The Bank's objectives in risk management include asset and liability management. Interest rate swaps and other contracts are used to effectively manage interest rate sensitivity of the Bank's loans, investment securities and deposit liabilities. Option contracts primarily consist of caps, floors and swaptions. The Bank enters into forward exchange contracts, currency swaps and other contracts in response to currency exposures resulting from on-balance sheet assets and liabilities denominated in foreign currencies in order to limit the net foreign exchange position by currency to an appropriate level.

Market risk exposure is reported to CEO on a daily basis. In addition, stress testing analysis is also conducted and reported to MRC and RMC on regular basis.

For market risk, the Bank has adopted the Standardised Approach under BNM's CAF. Market risk-weighted assets are marked-to-market and are risk-weighted according to the instrument's category, maturity period, credit quality grade and other factors within BNM's guidelines.

40. FINANCIAL RISK MANAGEMENT (CONTD)**(c) MARKET RISK (CONTD)****Interest Rate Risk**

The Bank is exposed to various risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The following tables indicate the effective interest rate at the reporting date and the Bank's sensitivity to the interest rate by time band based on the earlier of contractual reprising date and maturity date:

	31.03.2021	Non-Trading Book					Trading Book RM'000	Total RM'000	Effective Interest Rate %
		Up to 1 Month RM'000	1 to 3 Months RM'000	3 to 12 Months RM'000	1 to 5 Years RM'000	Over 5 Years RM'000			
Financial assets

Interest Rate Risk / Rate of Return in the Banking Book

Interest rate risk in the banking book ("IRRBB") and Rate of Return ("ROR") arises from the changes in market interest rate that adversely impact on the Bank's net interest income. One of the primary sources is due to repricing mismatches of the Bank's banking assets and liabilities and also from the Bank's investment of its surplus funds.

The primary objective in managing the IRRBB is to manage the volatility in the Bank's earnings. This is achieved in a variety of ways that involve the offsetting of positions against each other for any matching assets and liabilities, the acquisition of new financial assets to narrow the mismatch in interest rate sensitive assets and liabilities and entering into derivative financial instruments which have the opposite effects.

The Bank uses various tools including repricing gap reports and stress tests to measure its IRRBB. The impact on earnings is considered at all times in measuring the IRRBB and is subject to limits approved by the Board.

40. FINANCIAL RISK MANAGEMENT (CONTD)

(c) MARKET RISK (CONTD)

Sensitivity of Profit

The table below shows the sensitivity of the Bank's banking book to movement in the interest rates:

	31.03.2021	31.03.2020
	Increase / (Decrease)	
Impact on earnings from 200 bps parallel shift	RM'000	RM'000
MYR	117,445	79,442
USD	(38,241)	(4,106)
SGD	(220)	(202)
Others	(4,202)	(22,700)
Total	74,782	52,434
Impact on economic value from 200 bps parallel shift	RM'000	RM'000
MYR	25,855	24,707
USD	15,692	18,523
SGD	695	595
Others	7,995	7,228
Total	50,237	51,053

The sensitivity analysis is measured using Earning at Risk ("EaR") methodology and is based on the balance sheet reporting date. It does not take into account actions that would be taken by treasury operations or business units to mitigate the impact of this interest rate risk. In reality, treasury operations seek to proactively change the interest rate risk profile to minimise losses and maximise net revenues. The projection assumes that interest rates of all maturities move by the same amount and therefore, do not reflect the potential impact on earnings of some rates changing while others remain unchanged. The projection also assumes constant statements of financial position and that all positions run to maturity.

The repricing profile of loans that does not have maturity is based on the earliest possible repricing dates. Actual dates may differ from contractual dates owing to prepayments. The impacts on earnings are measured on a monthly basis and are reported to the Assets and Liabilities Management Committee ("ALM") and RMC.

Interest Rate and Foreign Currency Risk Stress Testing

The Bank also performed regular stress test on interest rate risk and currency risk. Three stress scenarios were applied on the Bank's assets and liabilities:

- Scenario 1: Increase of 0.75% interest rate for interest rate derivatives, bonds and money market positions and the largest daily change in rates over the past two years multiply with the absolute foreign currency position and a 25% increase in foreign currency option volatility.
- Scenario 2: Increase of 1.0% interest rate for interest rate derivatives, bonds and money market positions and the largest daily change in rates over the past two years +0.5% multiply with the absolute foreign currency position and a 50% increase in foreign currency option volatility.
- Scenario 3: Increase of 2.0% interest rate for interest rate derivatives, bonds and money market positions and the largest daily change in rates during 1997-1998 (Asian Financial Crisis) multiply with the absolute foreign currency position and the largest appreciation or depreciation of the traded currency over 1997-1998 (Asian Financial Crisis) for foreign currency option.

The analysis shows that as of 31 March 2021, potential maximum loss computed for Scenario 1 to be RM75,191,000 (2020: RM99,411,000), Scenario 2 to be RM83,646,000 (2020: RM105,882,000) and Scenario 3 to be RM123,442,000 (2020: RM139,928,000).

40. FINANCIAL RISK MANAGEMENT (CONTD)

(d) LIQUIDITY RISK

Liquidity risk is the risk of sustaining a loss due to an inability to obtain required funds because of a deterioration of market conditions or the Bank's financial conditions, where the Bank is unable to raise necessary funds or is forced to raise funds at a rate of interest that is higher than market rates. The RMC supports the Board of Directors to oversee Senior Management's activities in managing liquidity risk.

ALM, which reports to RMC, meets monthly to deliberate important matters relating to the Bank's liquidity management process, which involves establishing liquidity management policies, regular monitoring against liquidity risk limits, regular stress testing and establishing contingency funding plan.

Treasury Department controls and manages daily funding requirement operations while the MRMD monitors compliance with internal standards for funding operations. Liquidity monitoring is performed daily for projecting cash flows. Simulations of liquidity exposures under stressed market scenarios are also performed and the results are taken into account.

Maturity Analysis

The table below summarises the maturity profile of the Bank's financial liabilities as at the end of the reporting period based on undiscounted contractual payments:

	Carrying Amount RM'000	Contractual Cash Flows RM'000	Up to 1 Year RM'000	1 to 2 Years RM'000	2 to 5 Years RM'000	More than 5 Years RM'000

NOTES TO THE FINANCIAL STATEMENTS

40. FINANCIAL RISK MANAGEMENT (CONTD)

(e) OPERATIONAL RISK

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or system, or from external events, including legal risk, and other risk of loss caused by inappropriate implementation of business strategy. An Operational Risk Management Framework, approved by the Board of Directors has been developed with the objective to ensure that operational risks within the Bank are identified, monitored, managed and reported in a structured, systematic and consistent manner.

The Bank recognises the importance of establishing a risk-awareness culture in managing the operational risk through embedded risk management processes in the Bank's core processes.

Each business unit undertakes the tasks of risk identification, evaluation and measurement, control and mitigation and monitoring and reporting of its own area with assistance and coordination from the Operational Risk Management Department ("ORMD").

Various tools are used to support the operational risk management processes including Control Self Assessment to analyse business processes, monitor key risk indicators and perform a process risk mapping to identify critical risk areas and assign sufficient countermeasures to ensure a controlled and sound operating environment.

The RMC regularly appraises on the effectiveness of internal control system, as well as being briefed on key control deficiencies and appropriate remedial plans. Operational risk losses and incidents are used as information for reporting and for providing risk profiling information to the Board.

To mitigate the impact of unforeseen operational risk events, the Bank has established business continuity management and crisis management programmes to ensure the uninterrupted availability of business resources to support essential business activities. The Bank's overall business continuity operational readiness is further strengthened by engaging a dedicated business recovery site, enhancing the system disaster infrastructure and the establishment of the business impact analysis process.

41. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair Value Information

The carrying amounts of short-term receivables and payables reasonably approximate their fair values due to the relatively short-term nature of these financial instruments.

The following table analyses financial instruments carried at fair value and those not carried at fair value for which fair value is disclosed, together with their fair values and carrying amounts shown in the statement of financial position.

Fair Value Information (Contd)

	Fair value of financial instruments carried at fair value				Fair value of financial instruments not carried at fair value				Total Fair Value RM'000	Carrying Amount RM'000

41. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTD)

Fair Value Information (Contd)

Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical financial assets or liabilities that the entity can access at the measurement date.

Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly.

Financial investments at FVOCI

The fair values of securities, where quoted market prices or secondary market prices are available, are equal to such market prices. For securities where quoted market prices or secondary market prices are not available, the fair values are estimated using quoted market prices for similar securities or based on appraised value as deemed appropriate by management.

Loans measured at FVTPL

The estimated fair values of embedded loans are derived from both loans and derivatives. The outstanding balances for loans, advances and financing is derived from principal and accrued interest using effective interest rate. Fair values for embedded loans are derived using correlation, credit spread and discounted cash flow.

- Correlation*

Correlation is a measure of the extent to which two or more variables change in relation to each other. It may vary over time, and calculating correlation information from market data requires significant assumptions regarding the informational efficiency of the market.
- Credit spread*

Credit spread is a component of the security representing its credit quality. Credit spread reflects the market perception of changes in prepayment, delinquency and recovery rates, therefore capturing the impact of other variables on the fair value. Credit spread is used in combination with the interest rate curves to derive the cash flows of the loans.
- Discounted cash flow*

Fair value of loans are discounted using combination of credit spread of the instruments and interest rate term structure that is based on the US Treasury yields and Malaysia government bond yields.

Derivative financial instruments

The estimated fair values of derivative financial instruments are the amounts that the Bank would receive or pay to terminate the contracts at the reporting date, taking into account the current unrealised gains or losses on open contracts. They are based on market or dealer quotes when available. Valuation models such as present value and option pricing models are applied to current market information to estimate fair value when such quotes are not available.

Transfer between Level 1 and Level 2 fair values

There has been no transfer between Level 1 and Level 2 fair values during the financial year (2020: no transfer in either directions).

Level 3 fair value

Level 3 fair value is estimated using unobservable inputs for the financial assets and liabilities.

MRMD and the Accounts Department of the Bank have overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

41. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTD)

Fair Value Information (Contd)

Level 3 fair value (Contd)

Cash and short-term funds

For cash and short-term funds including interest-earning deposits, the carrying amounts are a reasonable estimate of the fair values because of their short-term nature and limited credit risk.

Financial investments at FVOCI

For financial investments at FVOCI including unquoted shares, the carrying amounts are a reasonable estimate of the fair values because of their limited credit risk.

Deposits and placements with financial institutions

Deposits and placements with financial institutions including interest-earning deposits, the carrying amounts are a reasonable estimate of the fair values because of their short-term nature and limited credit risk.

Other assets/liabilities and purchased receivables

The estimated fair values for the other financial assets/liabilities, which primarily include accrued interest receivables/payables, other receivables/payables, deposits, bank acceptances, accounts payable and purchased receivables approximate their carrying amounts due to their short-term nature.

Loans, advances and financing

The fair values of loans, advances and financing are estimated based on the type of loan, credit quality and remaining maturity. Incorporating the credit risk factor, management concluded that the allowance for impairment losses adequately adjusts the related fair values for credit risk. For floating or adjustable-rate loans, which mature or reprice within a short period of time, the carrying amounts are considered to be a reasonable estimate of fair values. For fixed rate loans, market prices are not generally available and the fair values are estimated by discounting the estimated future cash flows based on the contracted maturity of the loans. The discount rates are based on the current market rates corresponding to the applicable maturity.

For credit-impaired loans, the fair values are determined on an individual basis by taking the gross loan exposure less stage 3 ECL. The stage 3 ECL is the difference between the loan's carrying amount and the present value of the estimated future cash flows.

Statutory deposits with Bank Negara Malaysia

The carrying amount of statutory deposits with BNM is a reasonable estimate of the fair values as they are long-term regulatory deposits without a fixed maturity.

Deposits from customers

The fair values of demand deposits, deposits at notice, and certificates of deposit maturing within a short period of time are the amounts payable on demand. Fair values of fixed deposits and certificates of deposit maturing after a short period of time are estimated to approximate their carrying amount.

Deposit and placements of banks and other financial institutions

The fair values of non-interest bearing deposits are equal to the amount payable on demand. For call money and funds purchased, the carrying amount is a reasonable estimate of the fair values because of their short-term nature. For deposits with maturity exceeding one year, fair values are estimated by discounting the estimated future cash flows based on the contracted maturity of the deposits. The discount rates are based on the current market rates corresponding to the applicable maturity.

Collateral deposits

The fair values of collateral deposits maturing within a short period of time are estimated to approximate their carrying amount. For those with maturity exceeding one year, fair values are estimated by discounting the estimated future cash flows based on the contracted maturity of the collateral deposits. The discount rates are based on the current market rates corresponding to the applicable maturity.

NOTES TO THE FINANCIAL STATEMENTS

42. OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Bank enters into derivative transactions under International Swaps and Derivatives Association (“ISDA”) master netting agreements. In general, under such agreements the amounts owed by each counterparty on a single day in respect of all transactions outstanding in the same currency are aggregated into a single new amount that is payable by one party to the other.

The ISDA agreements do not meet the criteria for offsetting in the statement of financial position. This is because the Bank currently does not have any legally enforceable right to offset recognised amounts because the right to offset is enforceable only on the occurrence of future events such as a default on the Bank’s loans or other credit events.

The following table sets out the carrying amounts of recognised financial instruments that are subject to the above agreements:

	Gross Amount Recognised as Financial Assets / Liabilities RM'000	Gross Amount Offset in the Statement of Financial Position RM'000	Amount Presented in the Statement of Financial Position RM'000	Amount Not Set-off in the Statement of Financial Position		Net Amount RM'000

Islamic financing based on Commodity Murabahah (Tawarruq) of RM848,257,231 (2020: RM1,685,350,072) was financed under an internal Wakalah scheme and is reported at the entity level.

Tawarruq structure for the Bank’s Islamic financing product consists of three (3) sales and purchases transactions. The first involves the purchase of commodity by the Bank from Commodity Trader 1, on cash and spot basis. Secondly, the Bank will sell the commodity using Murabahah contract, to the customer on deferred basis. Subsequently, the customer will sell the commodity to Commodity Trader 2, on cash and spot basis. Finally, the customer will get cash to finance the customer’s needs.

Shariah Committee

The Shariah Committee was established under BNM's "Shariah Governance Policy Document" ("the SGP") to advise the Board of Directors on Shariah matters in its Islamic Banking business operations and to provide technical assistance in ensuring the Islamic Banking products and services offered by the Bank and the relevant documentation are in compliance with Shariah principles.

As of March 2021, the committee comprises: Assoc. Prof. Dr. Abdul Karim bin Ali, Assoc. Prof. Dr. Syed Musa Syed Jaafar Alhabshi, Prof. Dato' Dr. Mohd Azmi Omar and Assoc. Prof. Dr. Mohamad Zaharuddin Zakaria.

43. THE OPERATIONS OF ISLAMIC BANKING WINDOW (CONTD)

Basis of Preparation

The financial statements of the Islamic Banking business have been prepared on the basis consistent with that of the Bank as disclosed in Note 1 to the audited financial statements of the Bank for financial year ended 31 March 2021.

(a) Cash and short-term funds

	31.03.2021 RM'000	31.03.2020 RM'000
Cash and balances with banks and other financial institutions	74,000	47,000

(b) Deposits and placements with financial institutions

	31.03.2021 RM'000	31.03.2020 RM'000
At amortised cost		
Licensed bank		
• Malaysia	801	815

(c) Deposits from customers

(i) By type of deposits:

	31.03.2021 RM'000	31.03.2020 RM'000
At amortised cost		
Current accounts - Qard	8,365	3
Fixed deposits - Tawarruq	165	160
	8,530	163

(ii) The maturity structure of fixed deposits are as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
Due within six months	165	160

(iii) By type of customer:

	31.03.2021 RM'000	31.03.2020 RM'000
Domestic business enterprises	8,365	3
Domestic other entities	165	160
	8,530	163

Qard is a contract of lending a fungible asset to a borrower who is bound to return an equivalent replacement. No profit expense from deposits shall be paid from the transactions.

43. THE OPERATIONS OF ISLAMIC BANKING WINDOW (CONTD)

(d) Other liabilities

	31.03.2021 RM'000	31.03.2020 RM'000
Impairment allowances on commitments and contingencies

NOTES TO THE FINANCIAL STATEMENTS

43. THE OPERATIONS OF ISLAMIC BANKING WINDOW (CONTD)

(j) Capital adequacy

The capital adequacy ratios of the Islamic Banking business of the Bank are computed in accordance with the Capital Adequacy Framework for Islamic Banks ("CAFIB"). The Bank's Islamic Banking business has adopted the Standardised Approach for Credit Risk and Market Risk, and the Basic Indicator Approach for Operational Risk.

The capital adequacy ratios of the Bank's Islamic Banking business are as follows:

	31.03.2021	31.03.2020
Common equity Tier 1 ("CET 1") capital ratio	62.564	60.530
Tier 1 capital ratio	62.564	60.530
Total capital ratio	62.746	60.582

The components of CET 1, Tier 1 and total capital of the Bank's Islamic Banking business are as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
<u>CET 1 and Tier 1 capital</u>		
• Capital funds	25,000	25,000
• Retained profits	15,448	12,042
• Other reserves	118	18
	40,566	37,060
Less : Regulatory reserve	(118)	(18)
	40,448	37,042
<u>Tier 2 capital</u>		
• Stage 1 and 2 ECL and regulatory reserve	118	32
Total capital	40,566	37,074

The breakdown of the risk-weighted assets by each major risk category is as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
Credit risk	9,405	2,686
Operational risk	55,246	58,510
	64,651	61,196

Detailed disclosures on risk exposures above, as prescribed under BNM's Guidelines on CAFIB - Disclosure Requirements (Pillar 3) is presented in the Pillar 3 disclosures.

43. THE OPERATIONS OF ISLAMIC BANKING WINDOW (CONTD)**(j) Capital adequacy (Contd)**

The components of risk-weighted assets of Bank's Islamic Banking business are as follows:

	Gross Exposures RM'000	Net Exposures RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements at 8% RM'000
31.03.2021				
Exposure Class

ATTESTATION BY CHIEF EXECUTIVE OFFICER PURSUANT TO RISK WEIGHTED CAPITAL ADEQUACY FRAMEWORK (BASEL II) - DISCLOSURE REQUIREMENTS (PILLAR 3) AND CAPITAL ADEQUACY FRAMEWORK FOR ISLAMIC BANK (CAFIB) - DISCLOSURE REQUIREMENTS (PILLAR 3) FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

The risk disclosures contained in the Pillar 3 Disclosures are generally in conformance with the Bank Negara Malaysia's Risk Weighted Capital Adequacy Framework (Basel II) - Disclosure Requirements (Pillar 3) and Capital Adequacy Framework for Islamic Banks (CAFIB) - Disclosure Requirements (Pillar 3) and are consistent with the manner in which the risks are assessed and managed, and are not misleading in any particular way.

<Signed>

Fumio Takamatsu

Date: 29 July 2021

PILLAR 3 DISCLOSURES

1. OVERVIEW

The Pillar 3 Disclosure is prepared in accordance with Bank Negara Malaysia (“BNM”)’s Guidelines on Capital Adequacy Framework (Capital Components and Basel II - Risk-weighted Assets) (“CAF”) and Capital Adequacy Framework for Islamic Banks (CAFIB) - Risk-weighted Assets (“CAFIB”), which is the equivalent to Basel II issued by the Basel Committee on Banking Supervision. Basel II consists of 3 Pillars as follows:

- Pillar 1 sets out the minimum amount of regulatory capital that banking institutions must hold against credit, market and operational risks they assume.
- Pillar 2 promotes the adoption of a more forward-looking approach to capital management and encourages banking institutions, to develop and employ more rigorous risk management framework and techniques. This includes specific oversight by the Board of Directors and Management on internal controls and corporate governance practices, to ensure that banking institutions have an appropriate level of internal capital above its regulatory capital to commensurate with their risk profile and business plan at all times.
- Pillar 3 aims to harness the power of market discipline through enhanced disclosure, to supplement regulatory supervision of banking institutions through a consistent and comprehensive disclosure framework on risk management practices and capital adequacy of banking institutions that will enhance comparability amongst banking institutions.

The Bank adopted the Standardised Approach in determining the capital requirements for credit risk and market risk and applied the Basic Indicator Approach for operational risk of Pillar 1 under BNM’s CAF. Under the Standardised Approach, standard risk weights are used to assess the capital requirements for exposures in credit risk and market risk. The capital required for operational risk under the Basic Indicator Approach is computed based on earnings at risk on the Bank’s gross income for a fixed number of quarterly periods.

The Bank’s Pillar 3 Disclosure is governed by BNM’s Guidelines on Risk-Weighted Capital Adequacy Framework (Basel II) – Disclosure Requirements (Pillar 3) and Capital Adequacy Framework for Islamic Banks (CAFIB) - Disclosure Requirements (Pillar 3) which set out the minimum disclosure standards. The approach in determining the appropriateness of information disclosed and the internal controls over the disclosure process which cover the verification and review of the accuracy of information disclosed. The information provided herein has been verified by the Internal Audit Department (“IAD”) and attested by the Chief Executive Officer. The information is not audited as this is not a requirement.

The Bank’s main business activity is commercial banking which focuses on corporate and investment banking and treasury operations. The Bank is also involved in Islamic Banking activities under the International Currency Business Unit (“ICBU”) and in Islamic Banking Operations under Skim Perbankan Islam (“SPI”) framework.

The following table presents the minimum regulatory capital requirement to support the Bank’s risk-weighted assets:

	31.03.2021		31.03.2020	
	Risk-Weighted Assets RM’000	Minimum Capital Requirement at 8% RM’000	Risk-Weighted Assets RM’000	Minimum Capital Requirement at 8% RM’000
Credit Risk	9,490,988	759,280	11,053,705	884,296
Market Risk	1,419,545	113,564	1,875,255	150,020
Operational Risk	865,055	69,204	807,598	64,608
	11,775,588	942,048	13,736,558	1,098,924

The Bank does not have any capital requirement for Large Exposure Risk as there is no amount in excess of the lowest threshold arising from equity holdings as specified in BNM’s CAF.

PILLAR 3 DISCLOSURES

2. CAPITAL MANAGEMENT

The Bank’s capital management is guided by its risk appetite and outlines the Bank’s objective to diversify its sources of capital and to allocate capital efficiently, directed by the need to maintain a prudent relationship between available capital and risks in the underlying businesses to meet the expectations of key stakeholders, including the holding company and BNM.

The capital target for capital adequacy ratios is above the minimum regulatory capital requirements and has factored in the expected capital required under the current and future operating environment to support credit, market and operational risks as well as the Bank’s business growth.

The Bank-wide stress testing process assesses the Bank’s capital requirements under stress events including plausible, exceptional but plausible scenario and worst case scenario, to gauge the ability of the Bank’s capital to withstand and absorb external shocks. The results of the stress test are to facilitate the formulation of pre-emptive remedial actions if the stress test reveals that the Bank’s capital will be adversely affected under such events. The results of the stress test together with remedial actions, if any, are tabled to the Risk Management Committee (“RMC”) and the Board for deliberations.

(a) Capital Adequacy Ratios

The capital adequacy ratios of the Bank are as follows:

	31.03.2021 %	31.03.2020 %
Common equity Tier 1 (“CET 1”) capital ratio	28.697	22.565
Tier 1 capital ratio	28.697	22.565
Total capital ratio	29.704	23.559

The capital adequacy ratios consist of total capital and risk-weighted assets derived from balances of the Bank.

The minimum regulatory capital adequacy requirements including capital conservation buffer for the following capital ratios are:

CET 1 Capital	7.00 %
Tier 1 Capital	8.50 %
Total Capital	10.50 %

Please refer to Note 43(j) for Islamic Banking operation capital adequacy.

(b) The components of CET 1, Tier 1 and total capital of the Bank are as follows:

	31.03.2021 RM’000	31.03.2020 RM’000
<u>CET 1 and Tier 1 capital</u>		
• Paid-up share capital	200,000	200,00
• Retained profits	3,273,025	2,963,159
• Other reserves	127,334	128,546
	3,600,359	3,291,705
Less: Deferred tax assets	(7,299)	(9,078)
Intangible assets	(94,988)	(60,955)
55% of fair value reserve	15,130	(14,693)
Regulatory reserve	(103,731)	(107,284)
	3,379,211	3,099,695
<u>Tier 2 capital</u>		
• Stage 1 and 2 ECL and regulatory reserve	118,637	136,494
Total capital	3,497,848	3,236,189

PILLAR 3 DISCLOSURES

3. RISK MANAGEMENT FRAMEWORK

The management of risk within the Bank is governed by a risk management framework, which sets out the risk management governance and infrastructure, risk management processes and control responsibilities. In the Bank, effective risk management is inculcated by a risk awareness culture across all levels of staff in the Bank through effective communication, training, clear policies, procedures and organisational structure, which clearly defined roles and responsibilities as well as the commitment of all employees to a risk management framework. The risk governance of the Bank is as set out below:

3. RISK MANAGEMENT FRAMEWORK (CONTD)

The Board is ultimately responsible for the management of risks. The Board, through the RMC, maintains overall responsibilities for risk oversight within the Bank. The risk appetite statement embodies the Bank's stance towards the levels of risks and serves as a guide in the formulation of the Bank's strategic direction and business objectives.

The RMC is responsible for total risk oversight covering credit risk, market risk, liquidity risk, compliance risk, operation risk, information security risk and unique risk for Islamic financial business in particular Shariah non-compliance risk. Other key functions of RMC include reviewing risk management policies and limits, reviewing reports on risk exposures and risk portfolio composition and ensuring that infrastructure, resources and systems are in place for risk management activities.

The AC is supported by IAD to provide an independent assessment of the adequacy and reliability of the risk management processes and its compliance with risk policies and regulatory requirements.

The Shariah Committee ("SC") advises the Bank on Shariah matters relating to the Islamic banking operations. The Committee ensures that the operations of Islamic banking, its products, processes and legal documentation are in line with Shariah principles.

The CRMC, the ALM, the MRC, and the ORMCC assist the RMC in managing credit, balance sheet & liquidity, market and operational risks respectively, whereas compliance risk is monitored and managed through Compliance Committee Meeting ("CCM"). These committees are responsible for overseeing the development and implementation of risk management and compliance policies to facilitate the managing and monitoring of risk exposures and portfolio composition. It is also to ensure that adequate infrastructure, resources and systems are put in place to support the risk management and compliance process.

The designated independent risk management control units provide crucial support to the RMC and are responsible for ensuring risk policies are implemented and complied with. They are also responsible for the identification, evaluation, measurement, controlling, monitoring and reporting of risk.

The Bank has established a structured approach to risk management which balances risks against returns, as well as integrated risk management processes across key risk areas. The risk management activities encompass four broad processes namely risk identification, risk evaluation and measurement, risk control and mitigation, risk monitoring and reporting which lead to a balanced risk-return. It is the Bank's policy that all risk management policies are subject to frequent reviews to ensure that they remain relevant and effective in managing the associated risks arising from changes in both operating and regulatory environments.

The integrated risk management process follows four broad processes:

3. RISK MANAGEMENT FRAMEWORK (CONTD)

Internal Capital Adequacy Assessment Process (“ICAAP”)

The Bank has put in place process for assessing its capital adequacy under the BNM’s Risk-Weighted Capital Adequacy Framework (Basel II) - Internal Capital Adequacy Assessment Process (Pillar 2) in relation to its risk profile and strategy for maintaining adequate capital levels relative to its risk profile. The Bank’s ICAAP framework includes procedures and measures designed to ensure the following:

- Appropriate identification and measurement of material risks
- Appropriate level of internal capital relative to the Bank’s risk profile
- Sufficient policy and procedures to ensure on-going capital adequacy
- Development and implementation of suitable risk management methodologies, systems and processes

The Principle of Proportionality is adopted whereby the degree of formalisation and sophistication of the ICAAP is proportionate to the size, nature of business and complexity of Bank’s activities. It uses sound techniques and methodologies that commensurate with the current practices and business environment. Material risk assessment is conducted annually covering risks under Pillar 1 & 2 and other risks with documentation of the Bank’s risk profile in a risk inventory. Material risk is defined as potential risk exposure that might have impact on the Bank’s business operations, profitability, capital and reputation. The material risk assessment is measured by risk frequency and monetary impact and it is reviewed annually to reflect the changes to its business plan, operating environment or other factors, guided by the methodologies, processes, empirical data and assumptions.

The risk inventory assessment and review process ensures that all risks are identified and evaluated for their relevance, materiality, mitigation, management and capitalisation considerations that formed an integral part of internal capital trigger and target setting process.

The Bank’s internal capital trigger and target are set to ensure that the Bank’s capital level is resilient under stressed economic conditions, commensurate with the risk profile of the Bank and remains above regulatory requirements.

The Bank’s capital adequacy ratio is being monitored through Risk Appetite Statement (“RAS”) dashboard and is reported to the RMC and the Board on a quarterly basis.

Stress Testing/Reverse Stress Testing

Stress testing framework has been integrated into the Bank’s risk management structure and is used as a risk management tool for evaluation of the potential impact on the Bank’s capital adequacy and performance under stress conditions. Reverse stress testing (“RST”) process is also part of the Bank’s stress testing framework with the objective to identify a range of adverse scenarios and trigger points that could potentially threaten the viability of the Bank’s business model, including solvency concern and liquidity crunch. The assessment covers the likelihood of such events that could materialise over a time horizon that enables the Bank to identify its potential vulnerabilities and fault lines in its business model.

The stress testing framework is approved by the Board. The Management is actively involved in the process of designing the stress test program, ensuring the assumptions are relevant and consistent with the Bank’s risk profile and is conducted properly and any exceptions noted have been dealt with appropriately.

The results of the stress test are compared against internal capital trigger and target, as part of the sound capital management process under ICAAP, which are reported to RMC and the Board on a half-yearly basis. The stress test results are deliberated to consider the implications on the Bank’s business profile and to consider corrective measures where necessary.

4. CREDIT RISK

Credit risk is the potential loss of revenue as a result of failure by the customers or counterparties to meet their contractual financial obligations. The Bank’s exposure to credit risk is primarily from its lending and financing to large corporations and small and medium-sized companies (“SMEs”). Trading and investing the surplus funds of the Bank, such as trading or holding of debt securities, settlement of transactions, also exposed the Bank to credit risk and counterparty credit risk.

Risk Governance

The CRMC supports the RMC in credit risk management oversight. The CRMC reviews the Bank’s credit risk framework and policies, aligns credit risk management with business strategies and planning, reviews credit portfolios and recommends necessary actions to ensure that the credit risk remains within established risk tolerance level.

The Bank’s credit risk management includes the establishment of comprehensive credit risk policies, guidelines and procedures which document the Bank’s lending standards, discretionary power for loans approval, credit risk rating, acceptable collateral and valuation, and the review, rehabilitation and restructuring of problematic and delinquent loans. All credit processing officers are guided by credit policies, guidelines and procedures which are periodically reviewed to ensure their continued relevance.

Within the risk management control units, the Credit Risk Management Department (“CRMD”) has functional responsibility for credit risk management which includes formulating and reviewing credit risk related policies, guidelines and procedures. Other independent risk management and control units are responsible for managing the other risks and ensuring the respective risk policies are implemented and complied with. The department is also involved in post-implementation validation of borrower rating model which include the assessment of accuracy and discriminatory power of rating model.

Risk Management Approach

The Bank manages its credit risk by using its internal credit rating system. The purpose of the credit rating system is to objectively evaluate the credit worthiness/credit risk (i.e. the probability of future credit losses over a period of time) of the borrowers which it extends credit. A borrower is not only screened at the time of initial extension of credits but also monitored continuously during the entire term until the full repayment. Efforts are made towards the early detection of latent problems by assessing the credit risk of borrowers on an on-going basis. Credit examination by the holding company is one of the processes used to verify the suitability of a credit rating and the soundness of a portfolio from a third party’s perspective to avoid risk concentration within specific industries, specific purposes or secured by the same type of collateral.

Credit risk management reports are regularly presented to both the CRMC and the RMC, containing information on trends across major portfolios, including credit exposure, quality of credit portfolios, results of the credit profiling conducted, significant credit exposures to connected parties and credit concentration by economic sectors and by large single counterparty. Such information allows Management to identify adverse credit trends, take corrective actions and formulate business strategies.

Distribution of Credit Exposures

The following tables present the credit exposures of financial assets before the effect of credit risk mitigation, broken down by the relevant category and class of financial assets against the relevant economic sectors, geography and maturity. For on-balance sheet exposures, the maximum exposure to credit risk equals their carrying amounts. For financial guarantees, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations for which the instruments issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the undrawn credit granted to customers.

Distribution of Credit Exposures (Contd)

Embedded loans measured at FVTPL *	12,824,901	57,060	15,513,941	(12,364)
Purchased receivables	79,373	892,700	66,514	706,805
Collateral deposits placed	330,340	-	159,266	948
Derivative financial assets	264,480	168,779	314,924	222,942
Statutory deposits with Bank Negara Malaysia	-	-	42,397	-
Other assets	48,744	-	11,207	-
On-Balance Sheet Exposures	29,080,416	3,559,836	30,101,839	3,627,843
Off-Balance Sheet Exposures	3,394,215	446,977	3,574,553	517,710
	32,474,631	4,006,813	33,676,392	4,145,553

* The credit balances are exposure after netting off with the identified cover deals (see Note 1 (d)(iii)).

4. CREDIT RISK (CONTD)

Distribution of Credit Exposures (Contd)

- (c) The following tables present the residual contractual maturity for major types of gross credit exposures for on-balance sheet exposures of financial assets. Approximately 56% (2020: 52%) of the Bank's exposures to customers is short-term, having contractual maturity of one year or less:

31.03.2021	Up to 1 Month RM'000	1 to 3 Months RM'000	3 to 12 Months RM'000	1 to 5 Years RM'000	Over 5 Years RM'000	No Specific Maturity RM'000	Total RM'000
Assets							
Cash and short-term funds	6,624,978	-	-	-	-	527,022	7,152,000
Deposits and placement with financial institutions	1,665,712	-	-	-	-	43,461	1,709,173
Financial assets at FVTPL	-	-	-	174,643	59,343	-	233,986
Financial investments at FVOCI	-	-	30,546	609,485	-	29,227	669,258
Loans, advances and financing	3,280,043	845,967	299,049	2,572,838	1,211,561	-	8,209,458
Embedded loans measured at FVTPL	129,432	665,404	3,335,410	6,847,881	1,903,834	-	12,881,961
Purchased receivables	203,276	514,181	200,314	54,303	-	-	972,074
Collateral deposits placed	330,340	-	-	-	-	-	330,340
Derivative financial assets	20,258	27,294	58,197	219,198	108,312	-	433,259
Other assets	-	-	-	-	-	48,744	48,744
	12,254,039	2,052,846	3,923,516	10,478,348	3,283,050	648,454	32,640,253

The residual contractual maturity for off-balance sheet exposures is not presented as the total off-balance sheet exposures do not represent future receivables since the Bank expects many of these contingent liabilities and commitments (such as direct credit substitutes and undrawn credit facilities) to expire or unconditionally cancelled by the Bank without them being called or drawn upon, and many of the contingent liabilities (such as letters of credit) are reimbursable by customers.

Distribution of Credit Exposures (Contd)

(c) The following tables present the residual contractual maturity for major types of gross credit exposures for on-balance sheet exposures of financial assets. Approximately 56% (2020: 52%) of the Bank's exposures to customers is short-term, having contractual maturity of one year or less: (Contd)

31.03.2020	Up to 1 Month RM'000	1 to 3 Months RM'000	3 to 12 Months RM'000	1 to 5 Years RM'000	Over 5 Years RM'000	No Specific Maturity RM'000	Total RM'000

The residual contractual maturity for off-balance sheet exposures is not presented as the total off-balance sheet exposures do not represent future receivables since the Bank expects many of these contingent liabilities and commitments (such as direct credit substitutes and undrawn credit facilities) to expire or unconditionally cancelled by the Bank without them being called or drawn upon, and many of the contingent liabilities (such as letters of credit) are reimbursable by customers.

4. CREDIT RISK (CONTD)

Distribution of Credit Exposures (Contd)

(d) Off-Balance Sheet Exposures and Counterparty Credit Risk

(i) Off-Balance Sheet Exposures

Off-Balance sheet exposures of the Bank are mainly from the following:

- Financial guarantees and standby letters of credit, which represent undertakings that the Bank will make payments in the event that a customer cannot meet its obligations to third parties. These exposures carry the same credit risk as loans even though they are contingent in nature;
- Documentary and commercial letters of credit, which are undertakings by the Bank on behalf of the customer. These exposures are usually collateralised by the underlying shipment of goods to which they relate;
- Commitments to extend credit including the unutilised or undrawn portions of credit facilities; and
- Principal/notional amount of derivative financial instruments.

The management of off-balance sheet exposures is in accordance to the credit risk management approach as set out in the above disclosure.

(ii) Counterparty Credit Risk on Derivative Financial Instruments

Counterparty Credit Risk ("CCR") on derivative financial instruments is the risk that the Bank's counterparty in a foreign exchange, interest rate, commodity, equity, options or credit derivative contract defaults prior to maturity date of the contract and that the Bank at the relevant time has a claim on the counterparty. Apart from derivative financial instruments that are originated from customer-driven transactions, the Bank may also take trading derivative positions, within certain pre-set limits, with the expectation to make arbitrage gains from favourable movements in prices or rates.

Unlike on-balance sheet financial instruments, the Bank's financial loss is not the entire contracted principal value of the derivatives, but rather a fraction equivalent to the cost to replace the defaulted derivative financial instruments with another similar contract in the market. The Bank will only suffer a replacement cost if the contract carries a fair value gain at time of default.

(iii) Risk Management Approach

The CCR arising from all derivative financial instruments is managed via the establishment of counterparty limits and also managed as part of the overall lending limits to banks and customers based on BNM's Single Counterparty Exposure Limit ("SCEL"). Where possible, Over-the-Counter ("OTC") derivative financial instruments, especially Interest Rate Swaps and Options are transacted under master agreements, International Swaps and Derivatives Association ("ISDA") and Credit Support Annex ("CSA") agreements. ISDA allows for the close-out netting in the event of default by a counterparty and CSA provides credit protection with the requirements to post collateral usually in the form of cash or government securities upon any exposure above the agreed threshold levels.

All outstanding financial derivative positions are marked-to-market on a daily basis. Market Risk Management Department ("MRMD") and Processing Department ("PRO") monitor counterparties' positions and promptly request the collateral upon any exposure above the agreed threshold levels with relevant parties. Where possible, the Bank settles its OTC derivatives via the Payment-versus-Payment ("PVP") settlement method to further reduce settlement risk. For derivative financial instruments where the PVP settlement method is not possible, the Bank establishes settlement limits through the Bank's credit approval process.

(iv) Credit Rating Downgrade

In the event of a one-notch downgrade of rating for the Bank, based on the terms of the existing CSA of ISDA, the estimated additional collateral to be posted was RM8,305,000 for 31 March 2021 (2020: RM8,615,000).

4. CREDIT RISK (CONTD)

Distribution of Credit Exposures (Contd)

(e) Securitisation Exposures

The Bank acts as principal adviser, lead arranger, lead manager, facility agent and/or liquidity provider for third party securitisation with originators. A bankruptcy remote special purpose vehicles, Merdeka Kapital Bhd (“MKB”) and Ziya Capital Berhad (“Ziya”) or (collectively “SPVs”) was established to enter into an agreement with multi-originators to purchase or acquire portfolios of Receivables from them and in turn the SPVs will fund its purchase by issuing series of Asset-backed Medium-Term Notes (“MTNs”) backed by such portfolio of Receivables. Horizon Funding Corporation (a bankruptcy remote SPV incorporated in Cayman Islands), acts as a funding vehicle to subscribe to the issuance under the Asset-Backed MTNs Programme.

Both MKB (Conventional Securitization SPV) and Ziya (Islamic Securitization SPV) have its own unrated Asset-backed MTN Programme. The Bank only provides liquidity facility to MKB and is recognised as off-balance sheet in the banking book. The Bank will also act as a derivative counterparty for the SPVs.

Risk Management Approach

The Bank provides liquidity facility to MKB to cover short-term cash flows disruptions for each of the securitisation exposures. The credit and liquidity risks of the Bank is mitigated by the respective waterfall payment obligations of MKB and Ziya. In this instance, the repayment obligation to the Bank as liquidity provider has been made amongst the top priority in the waterfall payment (normally after tax payment obligations to the authorities).

The use of this liquidity facility by MKB is limited to cover short-term cash flows disruptions in relation to payment obligation in respect of each securitisation exposures. It must not be drawn to provide credit support, cover losses sustained or act as a revolving fund. In addition, the liquidity facility can only be drawn subject to the conditions that no potential of default or event of default has occurred as well as other terms and conditions set forth in the liquidity facility agreements entered into.

Regulatory Capital Requirements

The following table presents the outstanding securitisation exposures of the Bank:

	31.03.2021 RM'000	31.03.2020 RM'000
Traditional securitisation of third party exposures	15,000	15,000

The following tables present the minimum regulatory capital requirement on securitisation exposures:

	Principal Amount RM'000	Credit Equivalent Amount RM'000	Risk-Weighted Assets RM'000	Minimum Capital Requirements at 8% RM'000
31.03.2021				
Off-balance sheet				
• Auto loans	15,000	3,000	2,250	180
	15,000	3,000	2,250	180
31.03.2020				
Off-balance sheet				
• Auto loans	15,000	3,000	2,250	180
	15,000	3,000	2,250	180

4. CREDIT RISK (CONTD)

Credit Risk Mitigation

The Bank’s approach in granting credit facilities is based on the credit standing of the customer, source of repayment and debt servicing ability rather than placing primary reliance on Credit Risk Mitigants (“CRM”). Depending on a customer’s standing and the type of product, facilities may be provided unsecured. Nevertheless, mitigation of credit risk is a key aspect of effective risk management and takes many forms.

The main types of collateral obtained by the Bank to mitigate credit risk are as follows:

- (a) for corporate loans - secured by corporate guarantees and charges over properties or assets being financed.
- (b) for retail mortgages - charges over residential properties.
- (c) for derivatives - additional margin for exposures above the agreed threshold.

There is no material concentration of CRM held. Presently, the CRM that includes bank guarantees and shares are governed by various monitoring limits to ensure such concentration risk is properly managed.

The reliance that can be placed on CRM is carefully assessed in light of issues such as legal enforceability, market value and counterparty credit risk of the guarantor. Policies and procedures are in place to govern the protection of the Bank’s position from the onset of a customer relationship, for instance in requiring standard terms and conditions or specifically agreed upon documentation to ensure the legal enforceability of the credit risk mitigants.

The valuation of CRM seeks to monitor and ensure that they will continue to provide the credit protection. Policy on the periodic valuation updates of CRM is in place to ensure this. The value of properties taken as collateral is generally updated from time to time during the review of the customers’ facilities to reflect the current market value. The quality, liquidity and collateral type will determine the appropriate haircuts or discounts applied on the market value of the collateral.

Where there is a currency mismatch, haircuts are applied to protect against currency fluctuations, in addition to ongoing review and controls over maturity mismatch between collateral and exposures. For mortgage loans, the collateral in the form of residential property, is required to be insured at all times against the peril of fire and other associated risks. In addition, customers are generally insured against major risks, such as death and permanent disability.

Currently, the Bank does not employ the use of derivative credit instruments such as credit default swaps, structured credit notes and securitisation structures to mitigate the Bank’s credit exposures. In addition, the Bank enters into master netting arrangements with its derivative counterparties to reduce the credit risk where in the event of default, all amounts with the counterparty are settled on a net basis. Separately, the Bank has started obtaining third party cash collateral in its credit granting process.

4. CREDIT RISK (CONTD)

Credit Risk Mitigation (Contd)

The following tables present the credit exposures covered by eligible financial collateral and financial guarantees as defined under the Standardised Approach. Eligible financial collateral consists primarily of corporate guarantees, properties, cash, securities from listed exchange or other marketable securities. The Bank does not have any credit exposure which is reduced through the application of other eligible collateral.

4. CREDIT RISK (CONTD)

Assignment of Risk Weights for Portfolios Under the Standardised Approach

Under the Standardised Approach, the Bank makes use of credit ratings assigned by credit rating agencies in its calculation of credit risk-weighted assets. The following are the rating agencies or External Credit Assessment Institutions (“ECAI”) ratings used by the Bank and are recognised by BNM in the CAF:

- (a) Standard & Poor’s Rating Services (“S&P”)
- (b) Moody’s Investors Services (“Moody’s”)
- (c) Fitch Rating (“Fitch”)
- (d) RAM Rating Services Berhad (“RAM”)
- (e) Malaysian Rating Corporation Berhad (“MARC”)

The ECAI ratings accorded to the following counterparty exposure classes are used in the calculation of risk-weighted assets for capital adequacy purposes:

- (a) Banking institutions
- (b) Corporates

Unrated and Rated Counterparties

The majority of the Bank’s credit and counterparties exposures are unrated. Otherwise, in general, the rating specific to the credit exposure is used, i.e. the issuer rating. Where no specific rating exists, the credit rating assigned to the issuer or counterparty of that particular credit exposure is used. In cases where an exposure has neither an issue nor issuer rating, it is deemed as unrated or the rating of another rated obligation of the same counterparty may be used if the exposure is ranked at least pari passu with the obligation that is rated, as stipulated in the CAF. Where a counterparty or an exposure is rated by more than one ECAI, the second highest rating is then used to determine the risk weight. In cases where the credit exposures are secured by guarantees issued by eligible or rated guarantors, the risk weights similar to that of the guarantor are assigned.

The following is a summary of the rules governing the assignment of risk weights under the Standardised Approach:

Corporates

Rating Category	S&P	Moody’s	Fitch	RAM	MARC	Risk weights
1	AAA to AA-	Aaa to Aa3	AAA to AA-	AAA to AA3	AAA to AA-	20%
2	A+ to A-	A1 to A3	A+ to A-	A1 to A3	A+ to A-	50%

	31.03.2021 RM'000	31.03.2020 RM'000
Gross credit-impaired loans as a percentage of gross loans, advances and financing	0.01%	4.27%

(a) Neither past due nor credit-impaired

The credit quality of gross loans, advances and financing which are neither past due nor impaired is described in Note 40(b) to the financial statements.

(b) Past due but not credit-impaired

Past due but not credit-impaired loans, advances and financing are loans where the customer has failed to make a principal or interest payment when contractually due and includes loans which are due one or more days after the contractual due date but less than 3 months. The past due but not impaired loans, advances and financing of the Bank as at 31 March 2021 was 0.03% (2020: 0.03%).

The amount of past due but not credit-impaired loans breakdown by economic sector is as follows:

	31.03.2021 RM'000	31.03.2020 RM'000
Household	2,563	2,712

The amount of past due but not credit-impaired loans breakdown by geographical location is as follows:

	31.03.2021		31.03.2020	
	Malaysia RM'000	Other Countries RM'000	Malaysia RM'000	Other Countries RM'000
Past due but not credit-impaired	2,563	-	2,712	-

4. CREDIT RISK (CONTD)

Credit Quality of Gross Loans, Advances and Financing (Contd)

(c) Credit-impaired Loans, Advances and Financing

The Bank assesses, at each reporting period, whether there is any objective evidence that an individually significant loan is impaired. If there is objective evidence that an impairment loss has been incurred, the amount of the impairment loss is measured as the difference between the loan's carrying amount and the present value of estimated future cash flows discounted at the loan's original effective interest rate. The carrying amount of the loan is reduced through the use of an allowance account and the amount of the loss is recognised in profit or loss. The criteria that the Bank uses to determine whether there is any objective evidence of impairment are set out in the Note 40(b) to the financial statements.

All loans, advances and financing that have been individually evaluated but not considered to be individually impaired are grouped on the basis of similar credit risk characteristics for collective impairment assessment, taking into account the historical loss experience of such loans. The Model Risk Adjustment ("MRA") may be applied due to lack of loss data, when making provision by benchmarking for relevant probability of default against the holding company or peer results, if applicable.

Credit-impaired loans, advances and financing are loans whereby payments of principal or interest or both are past due for three (3) months or more, or loans which are past due for less than three (3) months which exhibit indications of credit weaknesses, or impaired loans which have been restructured/rescheduled, but where repayments based on the revised terms have yet to fulfil the observation period required under the Bank's impairment policy.

The movements in impaired loans, advances and financing are set out in Note 7(i), the movements in impairment allowances are set out in Note 7(j) and the amount of impaired loans, advances and financing broken down by economic sector and geographical location are set out in Note 7(g) and Note 7(h) to the financial statements.

The amount of expected credit losses by economic purpose is as follows:

	31.03.2021		31.03.2020	
	Stage 1 and 2 Expected Credit Loss RM'000	Stage 3 Expected Credit Loss RM'000	Stage 1 and 2 Expected Credit Loss RM'000	Stage 3 Expected Credit Loss RM'000
Agricultural, hunting, forestry and fishing	1	-	9	-
Mining and quarrying	-	-	21	-
Manufacturing	18,319	-	7,133	50,579
Electricity, gas and water	5,421	-	9,371	-
Construction	14,029	-	2,552	-
Wholesale, retail trade, restaurants and hotels	1,507	-	1,973	-

PILLAR 3 DISCLOSURES

5. MARKET RISK

Market risk is the risk of loss arising from movements in market variables, such as interest rates, credit spreads, commodity prices, equity prices and foreign exchange rates. In addition, the market risk of Islamic Banking business of the Bank includes rate of return risk and displaced commercial risk.

Regulatory Capital Requirements

The Bank has adopted the Standardised Approach for market risk. The following tables present the minimum regulatory capital requirement on market risk:

	Long Position RM'000	Short Position RM'000	Risk- Weighted Assets RM'000	Minimum Capital Requirements at 8% RM'000
31.03.2021				
Interest rate risk - general interest rate risk	63,299,765	(62,898,305)	1,306,788	104,543
Foreign exchange risk	6,207	(112,757)	112,757	9,021
	63,305,972	(63,011,062)	1,419,545	113,564
31.03.2020				
Interest rate risk - general interest rate risk	68,004,333	(67,639,973)	1,843,189	147,455
Foreign exchange risk	32,066	(13,702)	32,066	2,565
	68,036,399	(67,653,675)	1,875,255	150,020

Risk Governance

The Bank has established Trading Book and Hedging Policy as guidance for market risk management framework and policies. The ALM and MRC support the RMC in market risk management oversight, meets regularly and is the forum to discuss and aligns market risk management with business strategies and planning and recommends actions to ensure that the market risks remain within established risk tolerance level.

For effective control of market risk, triggers and limits are established after taking into account the Bank's risk appetite, and approved by the Board. Trading exposures are subject to intraday limits and daily limit. This is monitored and escalated by independent unit to relevant business unit, Management and MRC on regular basis.

Risk Management Approach

(a) Interest Rate Risk/Rate of Return in the Banking Book

Interest rate risk in the banking book ("IRRBB") and Rate of Return ("ROR") arises from the changes in market interest rate that adversely impact on the Bank's net interest income. One of the primary sources is due to repricing mismatches of the Bank's banking assets and liabilities and also from the Bank's investment of its surplus funds.

The primary objective in managing the IRRBB is to manage the volatility in the Bank's earnings. This is achieved in a variety of ways that involve the offsetting of positions against each other for any matching assets and liabilities, the acquisition of new financial assets to narrow the mismatch in interest rate sensitive assets and liabilities and entering into derivative financial instruments which have the opposite effects.

The Bank uses various tools including repricing gap reports and stress tests to measure its IRRBB. The impact on earnings is considered at all times in measuring the IRRBB and is subject to limits approved by the Board.

PILLAR 3 DISCLOSURES

5. MARKET RISK (CONTD)

Risk Management Approach (Contd)

(a) Interest Rate Risk / Rate of Return in the Banking Book (Contd)

The table in Note 40(c) to the financial statements also sets out the Bank's sensitivity to interest rates by time band based on the earlier of contractual repricing date and maturity date. Actual repricing dates may differ from contractual repricing dates due to prepayment of loans or early withdrawal of deposits. As at 31 March 2021, the Bank had an overall positive interest rate gap of RM6,737,000 (2020: RM8,254,000), being the net difference between interest sensitive assets and liabilities.

Sensitivity of Profit

The table below shows the sensitivity of the Bank's banking book to movement in the interest rates:

	31.03.2021	31.03.2020
	Increase / (Decrease)	
Impact on earnings from 200 bps parallel shift	RM'000	RM'000
MYR	117,445	79,442
USD	(38,241)	(4,106)
SGD	(220)	(202)
Others	(4,202)	(22,700)
Total	74,782	52,434

Impact on economic value from 200 bps parallel shift	RM'000	RM'000
MYR	25,855	24,707
USD	15,692	18,523
SGD	695	595
Others	7,995	7,228
Total	50,237	51,053

The sensitivity analysis is measured using Earning at Risk ("EaR") methodology and are based on the balance sheet reporting date. It does not take into account actions that would be taken by treasury operations or business units to mitigate the impact of this interest rate risk. In reality, treasury operations seek to proactively change the interest rate risk profile to minimise losses and maximise net revenues. The projection assumes that interest rates of all maturities move by the same amount and therefore, do not reflect the potential impact on earnings of some rates changing while others remain unchanged. The projection also assumes constant statements of financial position and that all positions run to maturity.

The repricing profile of loans that does not have maturity is based on the earliest possible repricing dates. Actual dates may differ from contractual dates owing to prepayments. The impacts on earnings are measured on a monthly basis and are reported to the ALM and RMC.

5. MARKET RISK (CONTD)

Risk Management Approach (Contd)

(b) Foreign Exchange Risk

Foreign currency exchange risk refers to adverse movements on foreign currency positions originating from treasury money market activities whose functional currencies are not in Ringgit Malaysia. The main foreign currencies in which the Bank's businesses are transacted in are United States Dollars and Japanese Yen.

The Bank manages such risk through funding in the same functional currencies, where possible. Minimal exposure are taken to the effects of fluctuations in the prevailing foreign exchange rate on Bank's financial position and cash flows. Net Open Position ("NOP") limits are set for overall NOP as well as NOP limits for individual currencies.

As at 31 March 2021, the NOP of the Bank stood at RM106,549,988 (short position) (2020: RM18,364,420 (long position)).

The table in Note 40(c) to the financial statements sets out the Bank's assets and liabilities denominated in foreign currencies.

Interest Rate and Foreign Currency Risk Stress Testing

The Bank also performed regular stress test on interest rate risk and currency risk. Three stress scenarios were applied on the Bank's assets and liabilities:

1. Scenario 1: Increase of 0.75% interest rate for interest rate derivatives, bonds and money market positions and the largest daily change in rates over the past two years multiply with the absolute foreign currency position and a 25% increase in foreign currency option volatility.
2. Scenario 2: Increase of 1.0% interest rate for interest rate derivatives, bonds and money market positions and the largest daily change in rates over the past two years +0.5% multiply with the absolute foreign currency position and a 50% increase in foreign currency option volatility.
3. Scenario 3: Increase of 2.0% interest rate for interest rate derivatives, bonds and money market positions and the largest daily change in rates during 1997-1998 (Asian Financial Crisis) multiply with the absolute foreign currency position and the largest appreciation or depreciation of the traded currency over 1997-1998 (Asian Financial Crisis) for foreign currency option.

The analysis shows that as of 31 March 2021, potential maximum loss computed for Scenario 1 to be RM75,191,000 (2020: RM99,411,000), Scenario 2 to be RM83,646,000 (2020: RM105,882,000) and Scenario 3 to be RM123,442,000 (2020: RM139,928,000).

Stress testing is conducted quarterly to determine the adequacy of capital in meeting the impact of extreme market rate movements on the Bank's statement of financial position. Stress testing is performed to provide early warnings of potential losses to facilitate the proactive management of interest rate risk.

The reported amount are based on the Bank's position as of reporting date. The projection also assumes that all other variables are held constant and that all positions run to maturity.

(c) Equity Risk

Equity risk refers to the adverse impact of change in equity prices on equity positions held by the Bank.

The Bank currently hold equity investments amounting to RM29,227,000 (2020: RM28,976,000) which are privately held for social economic purpose and is unquoted and stated at fair value through other comprehensive income and adjusted for impairment loss, if any.

Islamic Banking Business

There are no significant market risk exposures as at 31 March 2021 (2020: Nil).

6. LIQUIDITY RISK

Liquidity risk is the risk that the Bank is unable to maintain sufficient liquid assets, to meet its financial commitments and obligations, when they fall due or securing the funding requirements at excessive cost. Funding risk is the risk that the Bank does not have sufficiently stable and diverse sources of funding or the funding structure is inefficient.

Risk Governance

The ALM is the primary party responsible for liquidity management based on guidelines approved by the RMC. Liquidity policies and frameworks are reviewed by the ALM and approved by the Board prior to implementation.

Risk Management Approach

The liquidity risk management of the Bank, is aligned with the Liquidity Coverage Ratio ("LCR") and Net Stable Funding Ratio ("NSFR") requirements issued by BNM. NSFR compliance became effective from 1 July 2020. In addition, the Bank maintains a liquidity compliance buffer to meet any unexpected cash outflows. The day-to-day funding management, is undertaken by treasury operations and this includes the maintenance of a portfolio of highly liquid assets, that can be easily liquidated to meet the unforeseeable demand in cash flows arising from the maturity of deposits and loans. As at 31 March 2021, the Bank holds a sizeable balance of government securities amounting to RM666,687,000 (2020: RM592,261,000) or 74% (2020: 71%) of its portfolio of securities.

The Bank's liquidity and funding position is supported by the Bank's significant deposit base. The deposit base primarily comprises of current and term deposits. Although the current account deposit is payable on demand, it has historically provided stable sources of funding. The Bank's reputation, earnings capacity, financial, capital strength and competitive deposit rates are core attributes to preserve depositors' confidence and to ensure stability in liquidity. The Bank accesses the wholesale markets by taking money market deposits to meet short-term obligations and to maintain its presence in the local money market space. The Bank has also obtained a Liquidity Support Letter from its Parent Bank and has given full support of fund related to any liquidity matter at any time.

The primary tools for monitoring liquidity is the maturity mismatch analysis, assessment on the concentration of funding, the availability of unencumbered assets as buffer assets, early warning indicators from the use of market-wide information to identify possible liquidity problems. It also measures funding liquidity risk by assessing the potential liquidity cost arising from the maximum likely cash outflow over the horizon period at a specified confidence level, covering the Bank's deposit denominated in major currencies. Liquidity positions are reported to the ALM on a monthly basis and in major currencies i.e. in Ringgit Malaysia and in United States Dollars.

Contingency funding plans are in place to identify early warning signals of a potential liquidity problem. The contingency funding plans also set out the crisis escalation process as well as the various strategies to be employed to preserve liquidity including an orderly communication channel during a liquidity problem. To complement the contingency funding plans, a liquidity drill is conducted annually to validate the Bank's ability to raise funds/liquidity from the market. A liquidity stress test programme is in place to ensure liquidity stress tests are systematically performed by the various entities under the Bank to determine the cash flow mismatches under the "Specific Institution Liquidity Problem" and "Systemic Liquidity Problem" scenarios and the possible source of funding to meet the shortfalls during a liquidity crisis.

The Bank hold sufficient high-quality liquid assets ("HQLA") to withstand an acute liquidity stress scenario over a 30-day horizon for Liquidity Coverage Ratio ("LCR"). The Bank is maintaining stable source of funds to support assets and off-balance sheet activities for Net Stable Funding Ratio ("NSFR"). LCR and NSFR are part of the Basel III reform package which comprises measures to further strengthen the existing capital and liquidity standards for banking institutions. As of end March 2021, the Bank complies to the minimum LCR and NSFR as stipulated by BNM.

Islamic Banking Business

There are no significant liquidity risk exposures as at 31 March 2021 (2020: Nil).

7. OPERATIONAL RISK

Operational risk is the risk of loss arising from inadequate or failed internal process, people and system or from external events. The increasing need for an effective operational risk management is driven by a number of factors, among others are:

- Significant operational losses experienced at financial institutions;
- New regulatory requirements and international best practices;
- Significant and rapid changes to the economic and business environment;
- Growing need to optimise economic capital and measure performance;
- Protection and enhancement of shareholders’ value; and
- Increasing number of potential threats affecting Bank’s business operations especially cyber security and pandemic threats.

Periodic audit review from internal, holding company as well as external audit are conducted to ensure adequacy and effectiveness of the operational risk management process.

Regulatory Capital Requirements

The following presents the minimum regulatory capital requirement on operational risk for the Bank, computed using the Basic Indicator Approach:

	31.03.2021		31.03.2020	
	Risk-Weighted Assets RM’000	Minimum Capital Requirement at 8% RM’000	Risk-Weighted Assets RM’000	Minimum Capital Requirement at 8% RM’000
Operational risk	865,055	69,204	807,598	64,608

Risk Governance

In line with BNM’s Guideline on Risk Governance, the Bank’s internal processes and practices are tuned towards the same direction. The objectives are supported by a framework of principles on risk governance to guide the Board and Management in performing their risk oversight function. Risk Governance focuses on applying sound principles on the assessment and management of risks to ensure that risk taking activities are aligned with the Bank capacity to absorb losses and its long term viability. It is concerned in particular with the roles of the Board, Management and risk management control functions as well as processes by which risk information is collected, analysed and communicated to provide a sound basis for management decision. It is also concerned with the effects of incentives and organisational culture on risk taking behaviors and perceptions of risk in the Bank.

Operational Risk Management Framework

The Bank adopted sound Operational Risk Management (“ORM”) practices based on industry best practices and international standards, as well as guidelines as described by the holding company’s Operational Risk and Risk Management Policies.

The focus of the Framework is to provide greater clarity of roles and responsibilities in operational risk management at all levels of staff. It aims to promote stronger operational risk awareness and culture and to inculcate ORM practices in day-to-day business activities and responsibilities. This is further supported by having structured enablers for ORM using clearly defined Operational Risk language and processes, integrated approach and lifecycles, and internal control systems within the organisation. The ORM Framework sets out:

7. OPERATIONAL RISK (CONTD)

Operational Risk Management Framework (Contd)

- Bank’s definition and categories of Operational Risk;
- Roles and responsibilities of key staff and oversight committees;
- Overview the relationship of the integrated components to manage Operational Risk {Risk and Control Self-Assessment (“RCSA”), Global Control Self Assessment (“GCSA”), Loss Event Data (“LED”) and Key Risk Indicators (“KRI”)};
- Descriptions of the RCSA/GCSA process (identify, assess, respond, monitor and report);
- Descriptions of the LED process (identify, assess, respond, monitor and report);
- Descriptions of the KRI process (identify, assess, respond, monitor and report); and
- The framework covers both Conventional and Shariah risks.

Operational Risk Management is also supported by Self Inspection process i.e. inspecting internal processes to ensure compliance with Standard Procedure Overseas (“SPO”) determined by holding company as well as internal standard operating procedure. For Shariah risk, ORM framework and methodology are adopted with the assistance of a Shariah Risk Register (“SRR”). SRR was developed based on the Bank’s Islamic banking business and will be subsequently mapped into RCSA, GCSA, KRI and LED processes.

Enterprise Governance Risk and Compliance (“E-GRC”) Solution

The primary objective for the implementation of E-GRC system is to automate the Operational Risk Management processes while staying aligned to its Framework and the holding company practices.

The solution is developed based on the Operational Risk Management Framework and the key areas of the solution implementation incorporates various operational risk tools:

- Risk Management (Risk Control Self Assessment & Global Control Self Assessment);
- Loss Event Data;
- Key Risk Indicators; and
- Issue & Action Plan.

The system solution enables the Bank to systematically identify, capture, monitor and report all operational risks in a consistent manner, thus facilitating analytical risk profiling and enhance the control mechanism.

Business Continuity Management

The Bank’s Business Continuity Management (“BCM”) programme is in compliance with requirements of BNM, the holding company and in line with International Standards ISO22301 to ensure all critical business functions can continue in the event of a disruption. Components and activities of BCM (not limited to):

- BCM team is established to provide leadership on the subject matter. The team is converted to Crisis Management Team (“CMT”) in the event of disaster;
- BCM Framework & Policy is established to sustain BCM Program and ensure business continuity plan for all organisational units in the Bank remain effective. The framework policy is supported by BCM Manual which provides standard operating procedure for BCM taking into consideration of BNM and holding company’s requirements and is reviewed annually;
- Participate in the regulatory and holding company requirements on mandatory annual drills;
- Conduct BCM Program by conducting risk analysis annually to identify threats to geographical location, reviewing the changes to Business Impact Analysis (“BIA”), recovery strategy, plan developed by every department in the Bank and scheduling testing and exercising for business process component as well as staff awareness;
- Increase level of awareness among the staff by conducting trainings during orientation as well as ad-hoc training via various platforms. Quarterly newsletter is issued to all staff on current matters of BCM to increase staff awareness; and
- Continuously promoting organisation wide discipline for building resilience & capability for an effective response that safeguards the interest of customers, reputation, brand and value.

Efforts are put in to increase the ability to support critical business processes by enhancing our Business Recovery Site (“BRS”). The BRS capacity is increased to accommodate more resources (staff and system) and ensuring availability of power redundancies to support our critical business.

7. OPERATIONAL RISK (CONTD)

Reputational Risk Management Framework

The Bank is adopting an approach to reputation risk management that fits its risk profile and level of sophistication and that enables the risks affecting reputation to be consistently and comprehensively identified, assessed, controlled, monitored and reported. A strong reputation is a key competitive advantage for the Bank that can translate into:

- Access key markets and achieve greater confidence from customers;
- Attract capital or funding at competitive rates;
- Premium pricing; and
- Secure and maintain high quality workforce.

The objectives are aimed towards establishing a standard to manage reputation risk proactively, enabled the Bank’s business to operate with reputation risk being considered and foster a culture where staff are aware of their responsibilities in managing reputation risk.

IT Risk Management Framework

The Bank endeavours to adopt sound Risk Management in Technology (“RMiT”) practices based on regulatory requirement, industry best practices and international standards, as well as guidelines as described by MUFGM IT Risk Framework. It is imperative that staff at all levels understand their responsibilities and are held accountable for managing Information Technology Risks (IT Risk), that is, the risk associated with operations and use of information systems that support the missions and business functions of the Bank.

Reporting

Reporting forms an essential part of operational risk management. The Bank’s risk management processes are designed to ensure that operational issues are identified, escalated and managed on a timely manner. Operational risk areas for key operation, business and control units are reported through monthly operational risk management reports, which provide analysis and action plans for each significant business operation. The operational risk areas include premises control and safety, losses due to fraud and control lapses, systems availability, disaster recovery and business continuity simulations, information security, product/service review, self-inspection, operations volume, staff attrition, Shariah non-compliance, outsourcing activities and managing legal action taken against the Bank. The operational risk management reports are tabled to the Operational Risk Management and Control Committee Meeting (“ORMCC”) on monthly basis and escalated to the Risk Management Committee Meeting (“RMC”) on quarterly basis.

Islamic Banking Business

	31.03.2021		31.03.2020	
	Risk-Weighted Assets RM’000	Minimum Capital Requirement at 8% RM’000	Risk-Weighted Assets RM’000	Minimum Capital Requirement at 8% RM’000
Operational risk	55,246	4,420	58,510	4,681

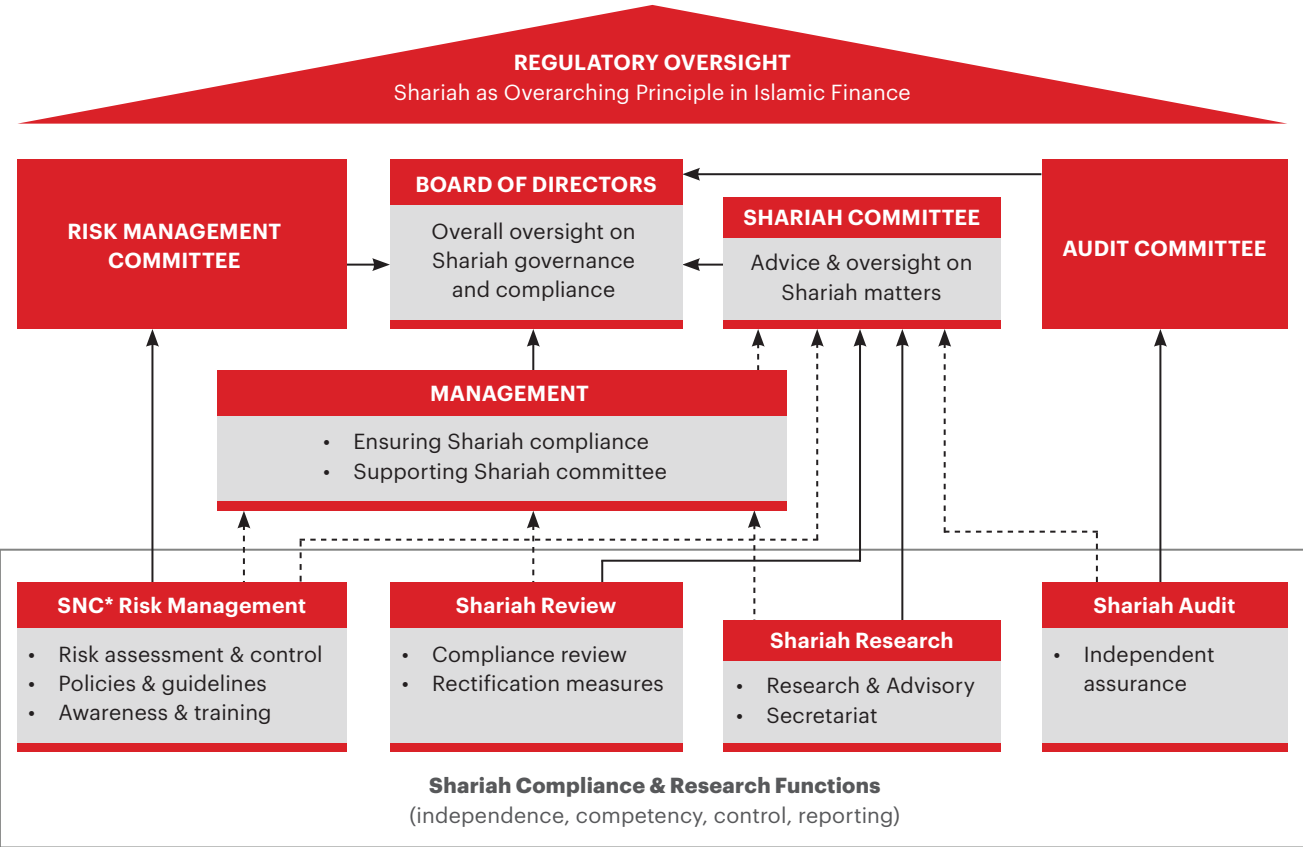

8. PROFIT SHARING INVESTMENT ACCOUNTS

This disclosure is not applicable as the Islamic Banking business does not have any Profit Sharing Investment Accounts.

9. SHARIAH GOVERNANCE

Shariah compliance is an integral feature in the Islamic finance. Having sound Shariah governance is essential to ensure the aims and operations of the institutions offering Islamic financial services does not contravene Shariah principles and in line with the regulatory requirement. As such, it is reflected by effective function of the Board in providing the overall oversight, the Shariah Committee in providing advice and oversight on Shariah matters, the Management in ensuring the execution complies with Shariah requirements and the Shariah Compliance and Research functions in supporting the internal arrangements.

By virtue of the Shariah Governance Policy Document issued by Bank Negara Malaysia (“the SGP”), the Shariah governance structure adopted by the Bank is illustrated as follows:

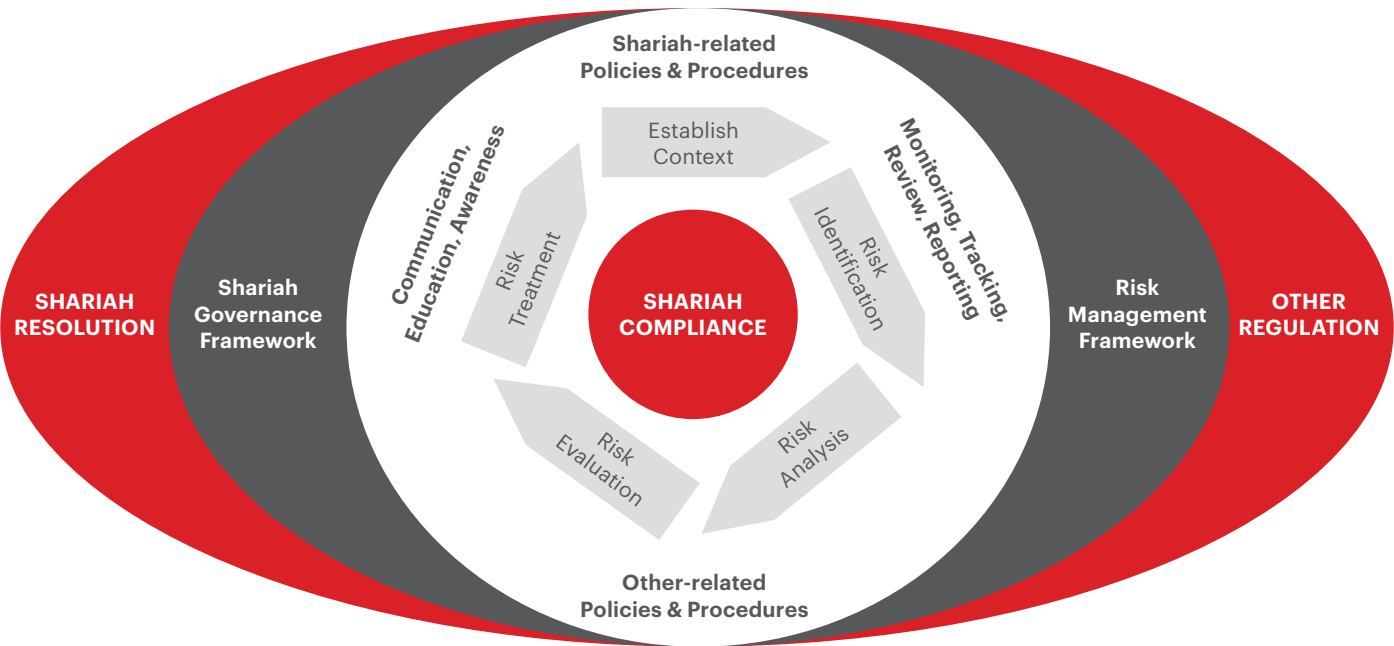

* SNC: Shariah Non-Compliance

9. SHARIAH GOVERNANCE (CONTD)

Managing Risk of Shariah Non-Compliance

Sound Shariah governance should be reinforced with adoption of risk management framework for Shariah non-compliance. Shariah non-compliance risk, the unique risk of Islamic finance which might impact the Bank’s financial and/or non-financial aspects, arises from the Bank’s failure to comply with the Shariah rules and principles determined by the Shariah Committee of the Bank and/ or National Shariah Advisory Council of BNM and Securities Commission (where applicable) in conducting the Islamic financial business.

Towards optimising the risk-aware culture across relevant areas in the Bank, the risk management framework for Shariah non-compliance has been established under the auspices of Shariah governance framework. The method of managing Shariah non-compliance risk is depicted as follows:

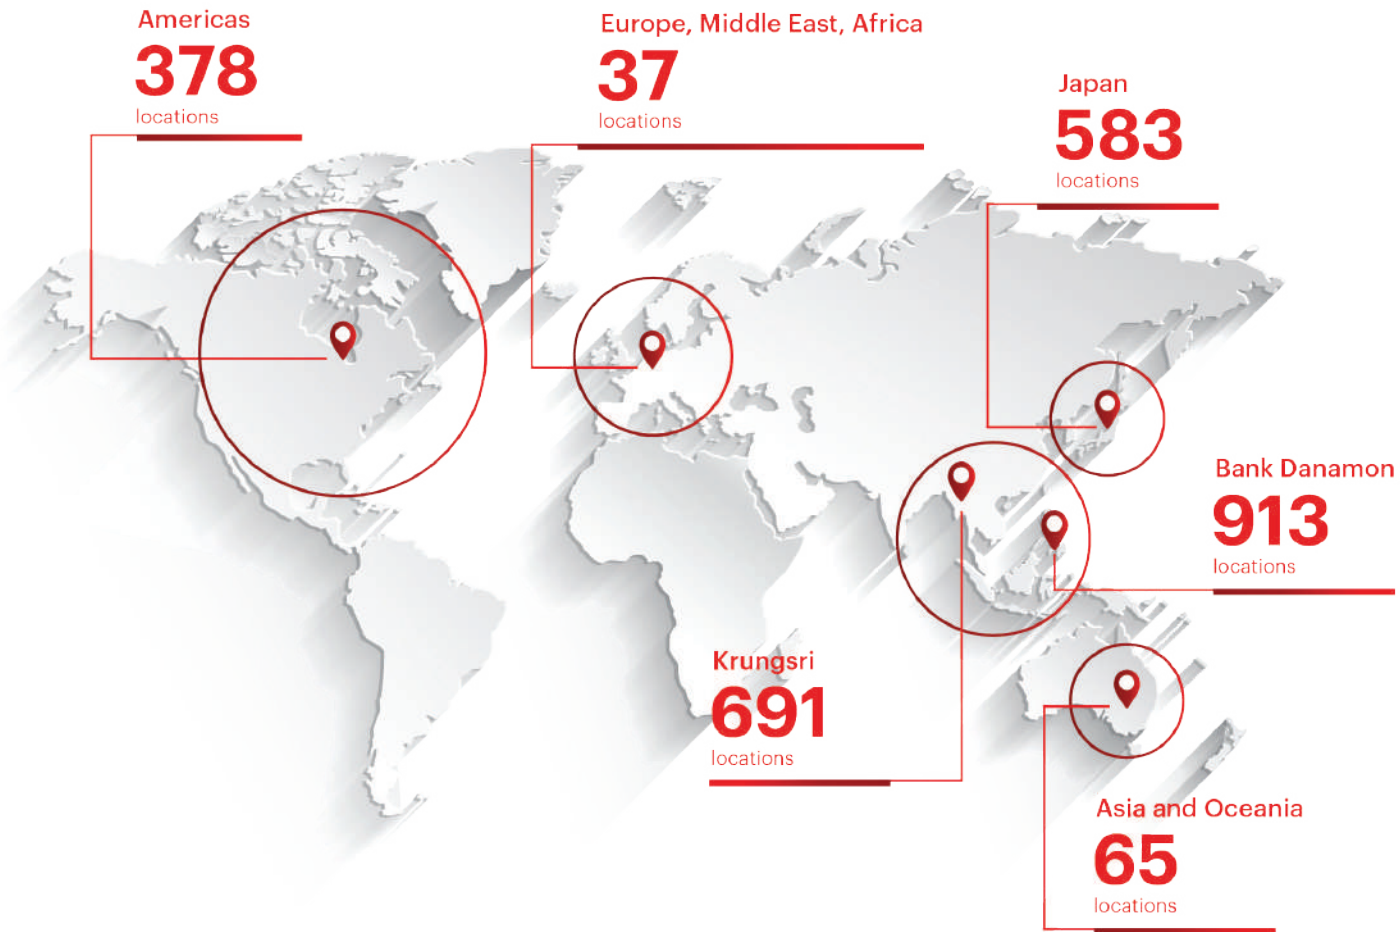

For effective risk management and control, the Bank is adopting the strategic implementation of tiered model i.e. Three Lines of Defence in governing and managing risk of Shariah non-compliance for Islamic financial business. The internal Shariah functions i.e. Shariah Research, Review and Risk Management act as control functions to support the business operation, while Shariah Audit provide independent assurance on the Shariah governance arrangement.

In ensuring controllable development (ex-ante) and implementation (ex-post) infrastructure, the respective risk factors are being observed as described herein:

Governance:	The structure of roles and function of internal organs, policies and procedures, and control mechanism.
Instrument:	Products or services, mechanism and associated transaction.
People:	The related staff and their conduct.
Process:	Practices, steps, transactions, tasks or actions involve in the Islamic financial operation and business activities.
System & Tool:	Matters relating to information system, data and other applicable tools.
External Factor:	External causes that are beyond the Bank’s control but may disrupt the Bank’s operations or cause damage to the Bank.

Shariah Non-Compliance Event

For financial year ended 31 March 2021, no actual Shariah non-compliance event has been detected. As such, no Shariah non-compliant income or related income has been recorded for the year.
